# School Inspector for South Grey.

The Grey County Council meets ext week, and one of the important duties it will have to perform is the appointment of a School Inspector to fill the vacancy of the late N. W. Campbell.

While not wishing to discount the merits or claims of any of the applicants for the position, we feel it an incumbent duty to put in a good word for our citizen, Mr. Preston, who is filling the position temporarby amount of money to lend ily, with universal satisfaction, and nortgage security at the low who we understand is a strong applicant for the appointment.

Mr. Preston is well qualified for this position. From an academic standpoint he possesses every reguired qualification — An Honor Graduate of our Provincial University, the possessor of a first class teacher's certificate two years Post Graduate instruction in the science of teaching, with an actual experience of twenty years in the Public and High Schools of the Proasse is a good deal to be said on vince. from our Public School Inspector. 'Tis true, he was not born in our county-an event over which he probably had little control— but he has seen fit to come to this county and expend his energy and efforts at that time of life when his exerience is wide, and his scholarship ripened. He is, we understand, the only applicant who is an actual teacher in this Eugenia. Out. 5 81-07 county at this time-not only so, but he is teaching in South Grey. > As to politics, pobody seems to know where Mr. Preston is, and this is perhaps one of his strong claims for the position. We do not want for this sphere any political ring-performer, but rather one whose ideals have been developed more on lines

By giving up his school in Markdale to fill the position temporarily, Mr. Preston made some sacrifice, but it shows that he is not afraid to let the people see how he can do the

We trust, therefore, our County. We do not see that they can do better than ratify the appointment of Mr. Preston, who, as we said before, is the only applicant from among the teachers of our own County.

## Soldiers Receive Sox.

The following letters were rseceived by Mrs. C. E. Armstrong, Secretary of the Women's Institute, thank-France for the boys of the 147th whoare in these battalions.

France, May 12, 1917. Mrs. C. E. Armstrong, Secretary W. I., Markdale, Ontario.

Dear Madam,- I have just distributed sox which were forwarded by the Markdale Women's Institute, to the boys from Grey County who are with the 58th Battalion. The parcels arrived at a most opportune moment, as many of the men had worn their sox out completely, after a particularly difficult tour in the line. The expressions of gratitude from the men as the sox were given out would at least have been payment in part for the work of the Women's Institute in providing these very neces-

sary comforts. On behalf of the Grey Boys in this battalion I can assure you we were most grateful to receive your gifts and I thank you sincerely for the solicitude shown in such a tangible manner.

I remain, yours truly, R. POLLOCK,

# The Smile That Stays.

(Christian Guardian) One of the duties lying upon ever man these days is the duty of making a cheerful heart radiate itself-in a bright and smiling face. The man who goes around with dolefulness and pessimism written upon his features is a traitor to his country and an emeny to his fellows. Of course, a man cannot have the hopefulness en his face that his heart does not feel, but it is not so impossible to grow hopefulness as it sometimes seems. The man who is taking his part in life, doing heroically, and faithfully the duties that come to him, and who, because of that, has a wholesome faith in God and in man, can keep a cheerful heart even When fighting on the foam or on the in a day like this. There are many men to-day who, because they have shirked duty and evaded sacrifice, have lost the joy and exhilaration of living, and are carrying around in their hearts a pessimism of their own

brightest smile, and the heart its most abiding happiness. Obituary

20 to 25 miles to a gillion of gasoline is a frequent occurrence with a Ford car. One man (name in request) reports an average of 33 miles per gallon for 20,000 miles. Surely this is a record that few, if any other makes of cars ever equalled.

It demonstrates the economy of owning and driving a Ford. You can average 1000 miles more travel on Ford size tires. The saviring on oil and repairs is proportionated large. The name "FORD" stands for lowest cost and greatest service.
