

# BRILLIANT BRITISH OFFENSIVE MIGHTY BLOW IN BELGIUM

Britons, Led by Gen. Sir Herbert Plumer, Occupy German Positions on the Messines-Wyschaete Ridge.

A despatch from London says: In one of the most elaborately planned and daringly executed manoeuvres of the war, Sir Douglas Haig's forces have dealt a mighty blow against the German line in Belgium, and been rewarded with notable gains in terrain and the capture of more than 6,000 prisoners and numerous guns of various calibres. In addition, the inflicted heavy casualties on the Germans.

Over a front of more than nine miles extending from the region of Ypres southward and nearly to Arrmentieres, the British started their drive in the early hours of Thursday morning and at nightfall had everywhere advanced their line, capturing villages and numerous points of vantage, among the latter the Messines-Wyschaete ridge, which commands the surrounding plains for miles and which for two and a half years has been the troublesome salient.

The villages of Messines and Wyschaete fell into the hands of the British during the attack, and the British

even pressed on eastward from Wytschaete and occupied the village of Oostaverne and trenches east of the village on a front of more than five miles.

Probably never in history was an attack launched with greater preparation. For days the Wytschaete salient had been the objective of the British guns, which hurled tons of steel upon it. When the time for the attack came the British loosed mines containing 600 tons of high explosives in front of the German positions, the detonations being heard 130 miles away in England.

With consternation reigning among the Germans and under a curtain of fire, English, Irish, New Zealand and Australian infantrymen, with "tanks" to aid them, started across the open. The Germans offered only slight resistance, and everywhere were beaten off, even late in the afternoon, when they had somewhat regained their composure and attempted a counter-attack near the southern end of the line, which was broken up by the British artillery fire.

# GERMANY ANGRY AT FRENCH DEMAND

Will Not Accede to Restoration of Alsace-Lorraine.

A despatch from Berlin says: The French Chamber's decision that the war must continue until Prussian military is destroyed and Alsace-Lorraine regained, caused the greatest indignation all over Germany, and not some time ago could notice a decided change in the attitude of the large German classes toward France, who even at the beginning of the present year had displayed something akin to compassion. German papers previously rather a forced calmness in discussing the proceedings in the French Chamber; though all of them without any exception emphasize the stereotyped phrase, "Alsace-Lorraine was German, and will remain German forever, no matter what the Chamber may decide." Vorwarts feels perhaps the hardest, because it says that even French Socialists who recently were ready to sit down with German Socialists at Stockholm and discuss with them peace without annexation now seem to have identified themselves with the war aims of the capitalist classes.

# LUXEMBURG STRIKES AGAINST THE HUNS.

High Cost of Living and Refusal to Increase Wages Are Responsible.

A despatch from Geneva says: The Gazette de Lausanne says it learns that a general strike has begun owing to the high cost of living and the refusal of proprietors of factories and workshops to increase wages as a result of the insecurity of their factories from attacks by allied air craft. Five thousand workmen says the newspaper, began a strike at Esch, regardless of severe warnings by the German commander. The strike spread to other towns, and German cavalry at once occupied five of the principal industrial communities.

# NORWAY PARALYZED BY FOOD STRIKES.

Many Important Plants Throughout the Country Are Idle.

A despatch from London says: A despatch to the Central News from Christiania says that great demonstrations against the unsatisfactory food situation were held throughout Norway lately. The Government, with a view to preventing rioting, prohibited the sale of alcoholic beverages for three days, and as a result of this order the restaurants were closed. The despatch adds that all stores in Christiania shut their doors, that the gas works and electrical plants are idle, and that nearly all workmen are striking.

# CANADA CAN DRAW ON HALF MILLION

British Subjects in United States Liable for Service.

A despatch from Ottawa says: Extensive arrangements have been completed by which British subjects in the United States may join the Canadian Expeditionary Force. Various centres of recruiting have been opened in American cities, including New York, Boston, Rochester, Buffalo, Detroit, Chicago, etc. British subjects, of whom a complete list is in the possession of the United States Government since the registration day in the States, can proceed to any of these centres, pass a preliminary medical examination, and, if fit, are sent on to the headquarters of the military district in Canada that is nearest to them.

# 8 HUN RAIDERS WERE SHOT DOWN

Attack of German Air Squadron on English Coast Routed.

A despatch from London says: Eight of eighteen German aeroplanes that took part in Tuesday's air raid on Essex and Kent were driven down by British airmen. Four of these were to a certainty completely destroyed, while two others are believed to have been put totally out of commission. Of the eighteen machines that started in the raid two were brought down near the British coast after having dropped their bombs, as reported in the official British statement. The remaining sixteen were engaged by ten naval airmen from Dunkirk, who, in a great battle over the sea destroyed two more of the Germans and drove down another four, two of which, it is reasonable to believe, were completely put out of action.

# WHEAT FROM HALIFAX HAS REACHED HOLLAND

A despatch from London says: Word was received here on Friday that two Belgian Relief Commission boats have reached Rotterdam from Halifax with 10,000 tons of wheat. These are the first boats to cross the Atlantic for some time and their cargoes will be welcomed in Belgium, where there has been a shortage of cereals.

# CROPS IN THE WEST ARE LOOKING FINE

A despatch from Calgary says: The Alberta crop prospects are excellent. In a few districts there has been too much rain, notably about Crossfield, and in some places the crops are doing well. The weather is favorable. The acreage will be about ten per cent. under last year.
