DILES, or hemorrhoids, are the cause of keen distress to thousands who do not yet know Dr. Chase's

There are three kinds of piles-itching, bleeding and protruding. The itching, burning sensations usually increase at night, and the misery which many people endure is beyond description. The bleeding is sometimes so profuse as to cause death. Protruding piles are most dreaded because it is commonly believed that a surgical operation is the only means of cure.

If you will read the letters quoted in the daily press here will be little chance for scepticism as to the certainty of Dr. Chase's Ointment as a cure for every form of piles. Or, better still, ask your friends about it, for Dr. Chase's Ointment is recognized among doctors and druggists as well as by the public generally as the only real cure for this wretched disease.
