BOYS' SUITS AND O'COATS

In all the newest styles, weaves and patterns

\$3.75 up to \$10.00

FALL ARRIVALS IN NEW STYLE SOFT HATS

All the new colors. The best English, Italian, American and Canadian makes—King, Wakefield and Barsalino.

\$1.50, \$2, \$3, \$5

P. J. THOMPSON

FLESHERTON

(Special to The Standard)
Another of the good old stock of early settlers in Artemesia, has passed away in the person of Mrs. Henry Meldrum, relict of the late Mr. Henry Meldrum, who died at the home of her son, George, on the 18th inst. in her 50th year. The funeral took place Friday at the Salem cemetery where the deceased's husband was laid to rest. Her pastor, Rev. A. McVicar, conducted service at the house and the last rites at the grave. Mrs. Meldrum was a very highly respected lady, a life long and devout Presbyterian. She was one of the first members of the old Orange Valley Church, and since leaving it, has been united at Flesherton or Eugenia deeply interested in all the work of the church. The deceased, whose maiden name was May Thompson, was born in Scotland on May 1st,

FARM WORK MUST GO ON!
Men and women are needed on the farms of Canada to-day. It is our patriotic privilege to help feed our Allies. But it is hopeless to try to do the heavy work involved if the Kidneys require attention.

GinDills FOR THE KIDNEYS

are compounded of certain medicines, which have proven their efficacy in healing disordered Kidneys and so relieving Rheumatism, Pains in the Back, Urinary Troubles, Swollen Joints and Ankles, and Headaches.

The National Drug and Chemical Co. of Canada, Limited, Toronto, 112 King St. East, Bldg. 21.

1838, newly married she came with her husband to Canada, and lived in Toronto from July till the following February, when they settled in Artemesia and spent their remaining years in the Township. In addition to farming, Mr. Meldrum was for many years C. P. R. agent at Flesherton Station. To them were born five sons and four daughters, all living but one son, David, who died several years ago. The surviving members are: George, near Caylon; Robert, Toronto; John and Alex. Colorado; Mrs. W. C. Pedlar, Toronto; Mrs. Thos. McKee, Eugenia; Mrs. Fred Legard, Toronto; and Mrs. Ben. Madill, Saskatchewan. All were present at the funeral, but the sons in Colorado and the daughters in the West.

The Literary Society in the High School has been organized for the ensuing year with officers as follows:— President, Wes. Armstrong; Vice President, Bessie McVicar; Secy-Treas., Ralph Beltry; Critic, Willie Taylor, Irwin Sprout and Katherine McVicar; Reporter, George Mitchell, Roy Beltry; Musical Committee, Mabel Swift, Lillian Buskirk, Keer Boyd; Managing Committee, Elda Parslow, Magdaline Butler, Stewart McTavish.

Mr. J. C. Campbell, of Chesley, organizer for the C. O. F. paid Court Flesherton an official visit last week initiating six new members and otherwise lending inspiration to the Court.

Shelburne Masonic Lodge, having invited Prince Arthur Lodge to pay a fraternal visit and confer a degree, three auto loads went down on Friday evening last and under Worshipful Master Thos. Henry, raised a candidate to the degree of Master Mason. The visitors were royally entertained by Shelburne lodge, and at the banquet toasts were responded to by T. Henry, T. Clakton, G. A. McTavish, T. A. Blakely, Dr. Little and Rev. Mr. Dinnick, and two pleasing songs were given by R. G. Holland. The members returned home at 2.30 a. m., after an enjoyable outlay.

At the meeting of the Presbyterian Ladies' Aid, for this month a resolution was adopted expressing sympathy for two of the members, Mrs. J. T. McMullen and Thos. Bannop, who were ill, and conveying condolence to Mrs. Milton Bannop, recently bereft of her father.

A car containing five passengers, driven by Mr. John Aldcorn, of Swinton Park, struck loose gravel on the road near Rock Mills and suddenly turned turtle, one day last week. The occupants all got a severe shaking up with some cuts and bruises, but Mr.

Neil Clark fared worst, being severely cut about the head and face. He was taken to the home of Mr. Martin Phillips, where Dr. Grey stitched and dressed his wounds, and he remained for a day to recover from the shock. All had a miraculous escape and the car which landed right side up was but little damaged.

By a letter from Mr. Andrew Graham, of Daysville, Sask., we learn crops in his locality are poor this season—wheat, a good sample, but only about half a crop, oats, potatoes and roots a failure. An outbreak of black leg among the cattle was causing loss. Mr. Graham has lost five head and his neighbours a number also, but he is optimistic and has invested further in land, purchasing another half-section adjoining his own.

Miss Katherine McVicar, the younger daughter at the manse, was accompanied by her mother on Thursday last to Owen Sound Hospital, where she underwent an operation for removal of adenoids and other head trouble. She returned home Saturday and continues to improve. Mrs. McVicar, who recently returned from Toronto Hospital, continues to gain strength.

The Women's Institute held a sale of homemade baking etc., on Saturday, and realized over \$7.00. Urquhart Shunk has returned home from York County to attend High School.

Mr. and Mrs. J. W. McKee and Mr. and Mrs. W. Simmons and daughter, visited Camp Borden and relatives at Creemore.

Mr. and Mrs. Albert Blackburn and Mr. and Mrs. Alex. Carruthers were at Collingwood on Sunday, attending a memorial service for their cousin, Pte. Forest McKee, killed in France.

Mr. and Mrs. W. H. Wright, Mrs. Wright and Mr. and Mrs. Whitley, of Owen Sound, were visitors at Mr. Geo. Mitchell's on Sunday, and Mr. and Mrs. Armour, also of the County town, were at Mr. W. Miller's.

Mrs. Henry Ellis and son, of Powassan, paid Mrs. Jamieson and other friends a visit the beginning of the week. Mr. and Mrs. John Blackburn spent a day with relatives at Collingwood, last week, accompanying their son, Albert and wife. Mrs. W. A. Armstrong, son and daughter, accompanied by Miss Hulse and Miss Holmes motored to Chesley on Saturday. Mr. W. H. Thurston and daughter, Dell, Mrs. W. P. Crossley and Miss Mabel Swift motored to Toronto on Saturday to visit relatives and returned the following evening accom-

COOK'S CHURCH NOTES

SUNDAY, SEPTEMBER 30, 1917.

MORNING—Sunday School Rally united service. "The Hope of the World."

EVENING—Christ's appeal to Reason, based on the parable of the Lost Sheep.

Sunday School and Bible Class at 10 o'clock in the morning.

J. Thurburn-Conn Minister.

to Oct. 9th—11th. The work of the Ontario Lord's Day Alliance was heartily commended to the sympathy, interest and liberal support of all congregations. All ministers of Presbytery are enjoined to carry out the recommendation of Assembly on last Sunday of October, or first of November, by special reference to the 400th anniversary of the great European Reformation. Attention of Congregational Boards of Managers to the decision of the General Assembly increasing maximum salary of ministers to \$1200, which is still below the \$750 of a few years ago in purchasing power. The total of \$12,000 allocated by the Synod to be raised by O. S. Presbytery was allocated to congregations on the basis partly of number of families on each and partly on total general revenue of the congregation. Mr. John McQuaker, representing the Synod's S. S. Com. gave an interesting account of the new curriculum decided on for the three junior grades. On motion of Mr. Pikeyshe was accordingly thanked and Presbytery's S. S. Com. was instructed to arrange for a Conference on S. S. work at the December meeting.

Mr. Thompson, of Warton, reported on the work in the Mar field under the Student-Missionary. The field had been self-sustaining for the last while, had given \$87 for the church's General Budget, and had added 11 to its roll of members.

To equalize the numbers of ministers and elders on the roll of Presbytery, according to instructions from Assembly, Mr. M. Rutherford, of Leith, was appointed a member of Presbytery for the current year and his name added to the roll.

The Presbytery adjourned after a brief session to meet again on Tuesday, Sept. 25th for Conference on "The Moral and Spiritual Issues of the War" to which attention was ably directed by Dr. R. P. McKay, of Toronto, and Rev. D. C. Mice Gregor, of London, at a large public meeting, the same evening, at the close of which they conferred with the Presbytery and urged the importance of the meeting for the earnest Conference called for Sept. 25th, at which every member of the Presbytery should be present.

What A Tractor Will Do.

(H. C. Duff in Weekly Sun.)
Two careful tests were carried out at Holstein, in order to see exactly what a 9-18 gasoline tractor would do. With three gallons of gasoline, the outfit plowed one and one-half acres of fairly heavy clay sod at an average depth of six inches. In the second test a little over one-half acre was plowed on one gallon of gasoline. In spite of the fact that the field is only thirty-five rods long, the acre and one-half was turned over in seventy minutes, and in the second test the one-half acre was plowed in a few seconds over thirty minutes. The whole nine acre field was plowed on nineteen gallons of gasoline in ten and one-half hours.

FOOD CONSERVATION

The organized effort to conserve food by substituting for two days in the week perishable and inexplicable varieties of edibles, for flour and meat, so as to increase the tonnage of these staple articles, which could be spared for the maintenance of our boys at the front and our allies, and thus help to win the war, is meeting with the success it richly deserves. Markdale householders were canvassed this week, the town being divided up into four sections, and two ladies delegated for each. The weather was charming and the reception given these loyal Britains, the courtesy extended, and the readiness in which the good householders "aid their bit" must have been inspiring.

MARKDALE POST OFFICE

Is open from 8 a. m. to 6 p. m., except holidays, when it will be open one hour after arrival of noon train.
Mails Close
Going North—11.45 a. m. and 8.30 p. m.
Going South—7 a. m. and 3.45 p. m.
Parcels and registered letters require to be in half an hour before above closing mail times.

THE LOOSE STONES

On passing along the roads, either by horse vehicle or auto, one is forced to wonder why path masters do not make it a point to have loose stones either picked or raked from the roadway and especially up and down the hills. This would be a light task on any road division, and the benefit would be much appreciated.

MEETING OF PRESBYTERY

The regular quarterly meeting of the Owen Sound Presbytery was held Sept. 13th. Dr. Shurrow-Fraser, Dr. H. R. Campbell, of Allentown, and Rev. J. Thurburn-Conn, of Markdale, were appointed a committee on Sabbath Schools and Y. P. Societies. Mr. McKinnon was appointed to represent the Presbytery on the Synod's Com. on the Business. Rev. William Cooper, B. A. was nominated as moderator of the Synod to meet in Toron-

TO WIN THE WAR

To win the war it is absolutely necessary to defeat Germany's plan of starving Great Britain and the Allies by her illegal use of submarines. The British fleet is blockading Germany and Austria. The Allied armies have established a supremacy over the armies of the Central Powers. Hindenburg's plan of fighting a defensive war on land, while the submarines reduce Britain to starvation must be defeated.

MARKDALE MARKETS

Produced in 1915 and 1916, Manitoba produced 48,000,000 pounds of wheat, 75 per cent of which was exported to the United States. For a bushel of whitest wheat, the farmer received on the average 5 cents more than Canadian prices. Manitoba's wheat at 15 cents a bushel. The Food Controller for Canada is arranging to reduce the wide margin between fisherman and consumer.

MARKDALE MARKETS

Collected each Wednesday.

HOW TO KEEP WELL

BY JOHN W. McULLOCH, M.D., D.P.H., CHIEF OFFICER OF THE PROVINCIAL BOARD OF HEALTH, DISINFECTANT.

DISINFECTION means the destruction of infective agents. It includes the various measures employed during the course of a communicable disease or after the patient has recovered or died. The object of disinfection used in the course of an infectious or communicable disease, is to destroy the means of carrying the disease from one person to another. The most important of these are the mouth and nose of a patient ill of diphtheria. It is especially important that the hands be made familiar with the means of carrying this form of disinfection. The tuberculous sputum and secretions from mouth and nose of a patient ill of tuberculosis should be held in vessels to which milk of lime has been added, and also a handkerchief or towel, from any source of water supply. Most important of all, that the hands of nurses and attendant, should be washed after each contact with the patient. Other members of the family should avoid kissing the sick person and the patient's food utensils should be boiled after each use.

On the recovery or death of the patient the room occupied by him should be thoroughly disinfected and disinfected. Many people think that such disinfection means fumigation by the gases of sulphur or formaldehyde. Of much greater importance are removal of curtains and carpets, their exposure for a few days to outside air and sunlight, the scrubbing of floor and woodwork with hot water and soap, and the wiping of walls and ceiling with cloths wet in a 20 carbolic acid solution. In 1000 bicarbols of mercury solution. Fumigation would be of value in destroying insects in rooms if it were thoroughly carried out. In many cases it is not done that it is a useless expense, and is not advised by the Health Department unless carried out under the direct supervision of the M. O. H. In most cases it is not required. Many municipalities such as New York, Brooklyn, and Toronto have abandoned fumigation as a routine measure. Other means such as those outlined are quite as effective and are comparatively inexpensive.

The Provincial Board issues a pamphlet giving full directions regarding disinfection. It is sent free to anyone who asks for it.

PNEUMONIA AND THE BABY

Many mothers are afraid to let their babies out of the house after the first spell of cold weather. We know of children in our schools who are "sewed up" in their clothes when the first snow falls and remain so until the spring comes; but we know, too, that a considerable number of Ontario mothers keep their babies indoors all winter. Fresh air and light are two important needs of the baby—and it needs them in the winter as well as in the summer. Fresh air is the best shelter from the wind. If necessary, a hot water bottle or heated brick may be placed in the room. If the weather is bad or severely cold, the baby may be placed in the baby's carriage or in his cot, preferably one with the sun shading in and on the side of the house sheltered from the wind, and let the baby have his afternoon nap in the fresh air.

The baby's room should be kept at night—only a little, even on the coldest nights. A baby who has plenty of fresh air is liable to catch a cold when the slightest draft blows in.

Do you know one of our Ontario babies, one year and under, who has pneumonia in the winter? Try to prevent your baby catching cold. Do not let the baby near people who have colds. Keep the baby out of drafts. Do not let the baby play on the floor. The baby will enter in his crib or on the bed because of the baby's feet. If the baby has a cold, the best thing to do is to give him a little cod liver oil. Put a little vasoline or lanoline in the nose freely. Wrap him up warmly and keep him in the fresh air. Cold weather cannot be avoided.

During the severe cold weather of last Saturday evening last, the fire in the house of Mr. John Fogarty, was struck, firing the ground. The building was full to the peak. Mr. Fogarty's entire season's crop of some implements, etc., was destroyed, along with the contents. Only a small amount was saved. Mr. Fogarty's friends deeply sympathize with him in his severe loss.
