You can now get all my medicines at the Drug Store

AFTER the publication of his Receipt Book Dr. Chase found himself overwhelmed with the demand for his services and his medicines. Not only did patients come from many miles to throng his office, but the mails were filled with letters ordering medicines.

Rather than disappoint his patients and admirers, and always anxious to relieve suffering, the doctor decided to give to the people the great prescriptions which had been so thoroughly tested and so remarkably successful in his private practice.

And so it came that Dr. Chase's Medicines were placed on public sale at nominal prices. To-day you can scarcely find a drug store that is not stocked with a full line of these medicines, and that home is the exception where there is not one or more of them in use.

Like most articles of exceptional merit and large sales Dr. Chase's Medicines are widely imitated, and substitutes are frequently offered in their place. On this account it is very important that you should see the portrait and signature of A. W. Chase, M.D., the famous Receipt Book author, on the box you buy. They are printed on every box for your protection, and imitators do not dare to use them.
