MILITARY HONORS.

Near the Deeds of Gallantry It is Difficult to Find Deserving.

Nearly all the common diseases that afflict mankind are caused by bad blood—weak, watery blood poisoned by impurities.

Bad blood is the cause of headaches and backaches, lumbago and rheumatism, debility and indigestion, neuralgia, sciatica and other nerve troubles. It is bad blood that causes disfiguring skin diseases like eczema and salt rheum, pimples and eruptions. The severity of the trouble indicates how impure the blood is, and it goes always from bad to worse unless steps are promptly taken to enrich and purify the blood. There is no use trying a different medicine for each disease, for they all come through one trouble—bad blood. To cure any of these troubles you must get right down to the root of the trouble in the blood. That is just what Dr. Williams' Pink Pills do. They simply purify and enrich the blood, and the disease disappears. That is why Dr. Williams' Pink Pills have cured thousands of cases after other medicines had failed. Here is proof of the power of Dr. Williams' Pink Pills to cure. Mrs. M. Stills, who resides near the town of Napanee, says: "I cannot praise Dr. Williams' Pink Pills too highly. I was very much run down in health, suffered from frequent spells of indigestion, biliousness, and sick headache. I had an almost constant pain in my head and my housework was a source of dread. In fact I felt so miserable that life held but little enjoyment. I was advised to try Dr. Williams' Pink Pills, which I did, and the result was simply marvelous, and can best be summed up by saying that they made me feel like a new woman, and fully restored my health. I would advise every woman and girl who has poor blood, or is run down in health to give these wonderful pills a trial. I am never without them in the house."

At the first sign that the blood is out of order take Dr. Williams' Pink Pills, and note the speedy improvement they make in the appetite, health and spirits. You can get these pills through any medicine dealer or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

OLD QUESTION REVIVED.

How Long Would it Take a Stone to Fall to Centre of Earth?

Studying the Velocity of shells and bullets fired in the war led Maurice Saenger, French geometer, to turn to the old question of the time it would take a stone to fall to the centre of the earth. His conclusion was that it would take about 20 minutes 34 seconds.

Gassendi, who gave the subject much thought in the last century, made the time 20 minutes even. Merle sonne on the other hand contended that 6 hours would be required.

Saenger says that as the stone approached the centre of the earth it would be drawn downward by the core of the earth and upward by the shell which it had already penetrated. The rate at which the density of the earth varies or increases as we penetrate to greater depths is unknown. Saenger's formula is based upon considerations of the moment of inertia of the earth, as calculated from the progression of the equinoxes, which agree with observations on the density of the earth conducted in mine shafts.

If a shaft were driven right through the earth the stone would appear at the Antipodes after 38 minutes 30 seconds and then return to its starting point, at which it would make its re-appearance at the end of 1 hour 17 minutes.

It should be illegal to cut down any sugar-maple tree. Our forefathers knew no other sugar, and we may well go back to this best kind now.

Minard's Liniment Relieves Neuralgia.

British and Foreign soldiers tell a thrilling story of quick and heroic fighting. Several British and Canadian soldiers, commanding companies, engaged in what is 300 miles of the extending and rugged terrain of the battle-fields, getting gallantly through the mud, snow and rain, to the conclusion of their journey.

Augustus Men in Boat.

Augustus Smith, Royal Flying Corps, A. S. C. in an aeroplane, he shot down an enemy machine, but his plane was then wounded, and fell heavily. He got on the control bar, crawled forward along the pipe of the lever machine under control, recovered and Smith sat on the side of the plane shouting words to him. The machine landed without a scratch.
