### Fight for Life

It has been said that the fight for life is the most important one that a man can have. It is the fight for the preservation of his health and the enjoyment of his life.

My husband suffered severely with pain in his back for three or four weeks. He commenced to take Anuric and in three or four days he not only found better, but remarked that his back felt much better, and now he says that his pain has all gone. I feel with pleasure that we recommend Anuric. Mrs. M. J. B. N. 54, Seaton St.

## Tired Nerves

**T**ired out after sewing! What a common experience, whether the work is done by hand or machine. It is not so much on account of the muscular exertion as because of the strain on the eyes.

Many people feel the same way after a shopping tour, from riding on a train, or doing any work which requires the continued use and focusing of the eyes. Many are wearing glasses when what they really need is a nerve restorative, such as Dr. Chase's Nerve Food, to build up the exhausted nervous system.

You feel tired all over, because the nerves are exhausted. The optic nerve, which controls sight, is extremely sensitive, and when in constant use consumes nerve force at a tremendous rate. If the nervous system is not in good, healthy condition this strain is more than you can stand, and you have headaches, and feel all tired out.

By supplying to the tired, wornout nerves the elements from which new nerve force is created Dr. Chase's Nerve Food reconstructs the wasted nerve cells. Headaches, dizzy spells, sleeplessness and tired feelings soon disappear, and you find yourself feeling better in every way.

It is worth your while to give this treatment a thorough trial, for the whole system is benefited, and the results are lasting.
