

This Blue Serge Suit \$25

By taking the cloth from my stock of tailors' woollens and having it hand-tailored in this very fashionable three-button model, as shown here, I am able to offer you this guaranteed blue serge suit for \$25. The greatest value in the clothing trade today. City shops are asking from ten to fifteen dollars more for no better suits than these. Don't miss this chance. I have only 16 suits of the line.

We believe that it pays to give our customers service and satisfaction; that is why we want to sell you a

DE LAVAL Cream Separator

They can't fool the creamer man. He knows which machine keeps cleanest, costs the least to keep in good working order, and lasts the longest.

He has to know. The wrong separator might easily mean a loss to him of several thousand dollars a year.

That's why 98% of all the separators used in the world's creameries and milk plants are De Laval's.

98% of all Separators used in the World's Creameries are De Laval's

It's just as important to you as it is to the creamer man that you make no mistake in your choice of a cream separator.

Why not be guided by the creamer man's experience?

The terms on which we sell a NEW De Laval are liberal. The machine will pay for itself in a few months. Come in and examine "Before you buy. We are glad to talk it over with you."
