And further take notice that after such last mentioned date the said Executors will proceed to distribute the assets of the deceased among the parties entitled thereto...

WRIGHT, TELFORD & BARLOW, Solicitors for Thomas Scott, Executor of the last Will and Testament of Alexander Lyons, deceased.

PRESENTATION

On Wednesday evening, August 21, about forty of the neighbors and friends gathered at the home of Councillor Acheson, Holland...

Address: Harkaway, August 21st, 1918. Miss Ina Acheson.

Dear Ina.—It is with pleasure that we, the members and adherents of Harkaway church, are assembled here to-night for the purpose of expressing our hearty thanks for the faithful manner in which you have performed the services of Organist of our church.

Under all circumstances, and the Christian spirit that you have shown at all times, and we ask you to accept this purse as a slight appreciation of your services, and we pray that God's blessing will attend you at all times wherever you may be.

Miss Acheson, accompanied by her brother, Sandy, left next morning for Milestone, Sask.

STOP WASTING SUGAR!

About one third of all sugar used in the homes is served in tea and coffee. If an average of half a teaspoonful a cup is left undissolved in the bottom of 12,000,000 cups of tea, coffee and cocoa used daily in Canada the waste would be 120,000 pounds of sugar per day.

The Standard will forward your subscriptions to Toronto papers, Terms, Cash with order.

SPECIAL PRIZES FOR MARKDALE FALL FAIR.

Canadian Bankers' Competition For Boys and Girls

In this competition, the Canadian Bankers' Association, acting in cooperation with the Dominion Department of Agriculture, Live Stock Branch, offers cash prizes to boys and girls who exhibit pigs or calves at their local fair, and who comply with all the rules governing the competition.

YOUNG WOMEN Are needed in war time to replace the office men who go overseas...

THE NEW SUBWAY

Western Fair Dates Sept. 6th to 14th.

For some years past the number of people who have attended the Western Fair coming in their automobiles from the surrounding country has increased until last year the question of room to take care of the cars was a problem which was almost too great for the management to handle as it was nearly impossible to get either in or out of the King Street gate.

This year the Directors have solved the problem and at a very heavy expenditure of money have built a subway under the track and will have a special entrance for automobiles only at the northeast corner of the ground corner of Dundas and Egerton Sts.

The drivers, after unloading their passengers (who will also have a special entrance) will go through the subway and park their cars inside the ring where they may be left as long as desired. If the auto party wish to go to their car for lunch they will be allowed to do so, returning to the grounds by way of the subway. The price of admission will be \$1.00 for car and driver, including parking. The management feel assured this accommodation will be appreciated by the general public and that more people than ever will attend this year's Exhibition. Prospects are very bright for the best Exhibition ever held in London. Prize Lists, entry forms and all information will be given on application to the Secretary, A. M. Hunt, London.

VOTERS' LIST, 1918.

Municipality of the Township of Euphrasia, County of Grey.

Notice is hereby given that I have transmitted or delivered to the persons mentioned in section 9 of the Ontario Voters' List Act, the copies required by the said section, to be transmitted or delivered, of the list made pursuant to said Act of all persons appearing by the last revised Assessment Roll of the said Municipality to be entitled to vote in the said Municipality at Elections for Members of the Legislative Assembly and at Municipal Elections, and that the said list was posted up at my office, Rocklyn, on the 17th day of August, 1918, and remains there for inspection, and I hereby call upon all voters to take immediate proceedings to have any errors or omissions corrected according to law. Dated this 17th day of August, 1918. N. L. Curry, Clerk.

AGRICULTURAL EVENT OF THE YEAR THE WESTERN FAIR

September 6th to 14th, 1918.

The Western Fair Association of London, Ont., are in the forefront this year with advertising matter for their big Exhibition in September.

Prize Lists, Hangers and Maps were prepared and mailed throughout the country. The management have added \$1,500.00 cash to the Prize List this year. This has been carefully distributed throughout the different departments and certainly makes the list very attractive from the Exhibitors' standpoint. The Live Stock Department should draw a large entry as the prizes are really worth while and a win at London's Exhibition means considerable. If you have not received a Prize List and would like one, drop a post card to A. M. Hunt, Secy, London, telling him the kind of entry form you require and it will be sent you at once.

CANADA PROVED A NATION

(London, (Eng.) Daily Mail)

Since the modest beginning in 1914 Canada has sent overseas 370,000 troops. She is maintaining in the field to-day four strong divisions, a cavalry corps, a railway corps, and a forestry corps. Her rifles have led the Empire in their monetary gifts. The amount raised for the war in such cities as Toronto would have seemed incredible in the old days. On the field her army has won reputation and the heights of Passchendaele. The cost has been very heavy. The number of Canadian men killed in this war is 41,000. Last year the Canadians lost 37,000 men killed, wounded and missing; at the battle of Passchendaele alone the casualties came to 24,000. Canada has proved herself a nation.

THE NEW SUBWAY

Western Fair Dates Sept. 6th to 14th.

For some years past the number of people who have attended the Western Fair coming in their automobiles from the surrounding country has increased until last year the question of room to take care of the cars was a problem which was almost too great for the management to handle as it was nearly impossible to get either in or out of the King Street gate.

Prospects are very bright for the best Exhibition ever held in London. Prize Lists, entry forms and all information will be given on application to the Secretary, A. M. Hunt, London.

SUMMER DRESS FOR MEN

Commenting on the number of heat prostrations in New York during the hot wave, the New York Times points out that always the majority of such victims are men. The fact is chiefly attributed to the exposure of men engaged in hard work to the heat of the sun. The Times, however, thinks it may be ascribed to the fact that men dress more warmly in summer than women. The great majority of men do not adjust their dress to the seasons and temperature as women do. The Times, commenting on this says: "Starched collars, and cuffs on days like these, cover heavily two regions of the body where great quantities of blood are brought constantly to the surface and would be cooled more or less if they were freely exposed after the commendable feminine custom. The dress of women this year is in almost perfect accord with the dictates of reason and with aesthetic laws and they can afford to ignore the silly criticism they are receiving from exactly the same persons who not many years ago were scolding them harshly for sweeping the streets with long skirts. The scoldings were fairly well deserved, but those they are now getting from prudish and pervers are compliments. Weak men are not appear in public without collar and necktie and he must wear in midsummer a coat about as warm as is deemed sufficient by women for winter.

THE CANADA FOOD BOARD SAYS

In response to the call for increased production of the people of the cities and villages of Canada have vastly increased their garden acreage in this country. Last year it was estimated by the Agricultural Gazette that the value of the war gardens produce amounted to somewhere between \$20,000,000 and \$30,000,000. This year Mr. Frederick Abraham, Hon. Chairman of the War Gardens and Vacant Lot Section of the Canada Food Board, after a survey of Canada's war garden reports from coast to coast estimates that this year's production will be two or three times greater than last. On this basis the war gardens of Canada this year have produced a yield from \$40,000,000 to \$50,000,000 worth of fruit and vegetables. Taking a conservative view of these figures, the war garden production in Canada for 1918 should be worth about \$50,000,000.

It would be a positive shame, if after all the work, time, money and material spent upon these gardens, a large proportion of the crops were allowed to go to waste for lack of distribution to consumers. It is impossible for the family of the war gardener to consume, in many cases more than a fraction of the vegetables and fruits his garden has produced. The Canada Food Board has urged war gardeners to can perishable fruits and vegetables in the greatest possible quantity but many lots have been grown more than one family can use even taking into account the interval between now and next harvest either fresh, canned, dried or stored. Amateur gardeners, in numerous cases, expressed themselves as unwilling to sell their surplus vegetables and fruits, not wishing to take the position of growing garden truck for money. If such gardeners would forego their selfishness in this matter, recognizing that these are war times, and that the shortage of foods is well nigh world wide, it would avoid a serious danger of waste. Where they can dispose of their surplus, either by sale or by gifts to their less well-situated neighbors, they should take pleasure in doing so. The community is being closely knit by the necessities of war. Food production, food storage, food conservation and food distribution are all patriotic services of utmost importance to the whole community.

THE NEW FAIRY TALE

Baron Munchausen's Successors

JUST think of the stories that will be invented. We'll hear them when war-days are over. The number of men who will say they've invented The Germans' from landing at Dover. The sappers will tell you they let off a mine. Just under the German headquarters. And then there's the man who bombarded the Rhine. With his own special line of trench mortar.

Then the flying men say they dropped bombs upon Lille. Where the whole German army was hiding. Jones will tell how a shell neatly pierced the back-wheel Of the new motor-bike he was riding.

And then all the stories of fights on the Aene. Long stories of carnage and slaughter. "I fell in the river," the heroes explain. "And found it was blood and not water. The prisoners, too, will have stories to tell. It was all the staff's fault they were taken. How they early escaped, how interned as 'heir'.

How they longed for poached eggs

And good bacon. And what will my yarn be you're anxious to know. Of course, I've no need to say a word about it. I'm the fellow who caught the Kaiser!

SUGAR CONSERVATION IMPERATIVE

The Canada Food Board has urged private householders of Canada to further restrict their consumption of sugar for personal use to 100 lbs. per month per person and to use a greater proportion of upland molasses.

The Board also warns against hoarding as unfair, unnecessary and contrary to the law. The Cuban crop of sugar has fallen short by 300,000 tons of the previous estimates; the American sugar beet crop has also proved disappointing as has the Louisiana cane crop. The recent German drive was a further cause of sugar shortage as a large beet acreage was overrun and many sugar factories destroyed. Thousands of tons of sugar have been sunk by submarines, including a 13,000 ton cargo recently lost off the Atlantic coast. Conservation of sugar is imperative. There is sugar in Canada for everybody in moderation, but none for extravagant use for wasteful use or for illegal hoarding.
