

BELGIAN REFUGEES FLEE BEFORE HUN

Hundreds of Thousands of Inhabitants Flee into Eastern Sections.

A dispatch from Washington says that hundreds of thousands of Belgians are fleeing before the German army, with the hope of their way into Holland or the Netherlands.

Thousands of thousands of Belgians have arrived in the German-occupied territory administered by the "General Government." Other bands of refugees are reported to be on the march toward the Dutch front. The "General Government" is taking care to feed all the refugees who are fleeing into the Netherlands.

The refugees are reported to be in a state of extreme distress. They have not yet received any food, and they are suffering from lack of shelter. The Dutch government is reported to be unable to care for the refugees.

INDIA'S ANSWER TO CALL TO ARMS

Over Million Men Supplied as Well as Money and Material.

London, Sept. 25.—Great victories in Palestine and in the West have played their part, but it is the time of India's answer to the call to arms.

India has responded to the call of her British rulers. She has sent over a million men to the front, as well as money and material.

The Indian government has announced that it will supply the British army with a million men, as well as money and material. This is a great contribution to the Allied cause.

WOUNDED PRISONER TORTURED

Wounded Prisoner Tortured.

Many stories of brutality and cruelty have been told in the past few days. One of the most recent is that of a wounded British prisoner who was tortured by his captors.

The prisoner was taken to a camp where he was kept in a cell. He was tortured for several days, and his captors refused to let him go.

The story is a shocking one, and it shows the cruelty of the German army. It is a reminder of the need for a more humane treatment of prisoners of war.

GERMANS TORTURE WAR CAPTIVES

Prisoners Laboring in Salt Mines Die.

Prisoners of war are being tortured in salt mines. The conditions are so bad that many of them are dying.

The German army is using the salt mines as a place to keep prisoners of war. The prisoners are forced to work in the mines, and they are given very little food and shelter.

Many of the prisoners are dying from lack of food and shelter. The German army is showing no mercy to its captives.

STORY OF FRENCH HEROISM AT SEA

Encounter with a U-boat off Coast of Brittany.

Plucky Fight, Against Tremendous Odds For Which All the Survivors Received Decoration.

There is the story of a sailing ship's combat with a U-boat which is stirring example of French heroism and shows the value of efficient anti-submarine training.

The sailing ship was the "Maitre," a three-masted schooner. It was carrying a cargo of coal for the French navy. It was encountered by a U-boat off the coast of Brittany.

The U-boat fired several shells at the sailing ship, but the crew managed to evade them. The U-boat then tried to ram the sailing ship, but it was repulsed.

The sailing ship's crew fought a plucky fight against tremendous odds. All the survivors received a decoration for their heroism.

WOMEN MAKE TANKS

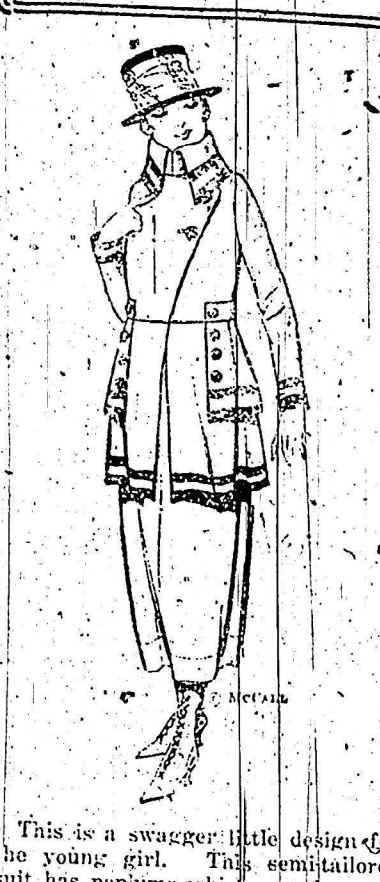

British Women Army Corps Making Tanks for the Army.

British women are making tanks for the army. They are working in the factories that produce the tanks.

The British Women Army Corps (W.A.C.) is making a great contribution to the Allied cause. They are working in the factories that produce the tanks.

The W.A.C. women are doing a very important job. They are making the tanks that will be used in the next battle.

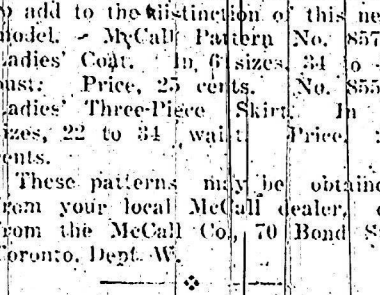

The Weekly Fashions

What could be smarter than braids and buttons? Then, an uneven tunic to add to the distinction of this new model—McCall Pattern No. 8573. Ladies' Coat. In 6 sizes, 34 to 44. Price, 25 cents.

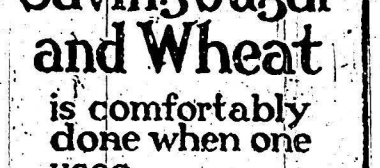

Save scrapful bits of corn for use as fuel. A plentiful supply of green food is necessary for hens and should be given while it is fresh.

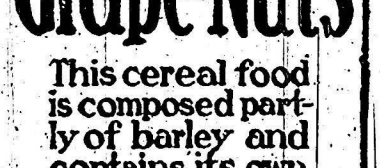

"A person you can laugh at and with, is inexhaustible."—George Meredith.

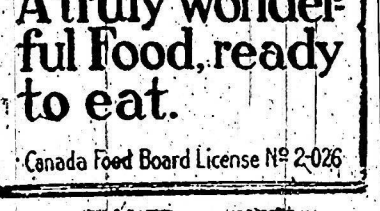

Ceylon produces nearly every precious stone known except diamonds, emeralds, opals and turquoises.

Save scraps of bread and water, and use them for the hard-pressed men of the front.

What we saw there was almost unbelievable. We saw wrecks of men, dead in pairs with the upper parts of their bodies mangled. Some were blue with water on the back in consequence of treatment.

We saw great holes in the feet of those who worked in the salt mines. When they were made to work longer because of misadventure, they were driven forward with the butts of rifles. At first we were unable to believe the terrible stories, but Camp No. 3, in the vicinity, is called, was shown to us. There forty crosses stand as mute witnesses to German cruelty.

FOR THE AIR SERVICE OF THE ALLIED ARMIES

An immense R. A. P. machine ready to start with its load of bombs for Germany.

They are cutting spruce in British Columbia. The spruce forests, long neglected because of lack of market and transportation, have found their place. The straight, fine-grained, tough wood is the ideal material for the manufacture of airplane parts.

The silver spruce grows only on the islands and coast of British Columbia and the north-west United States. The American timber of this species is being used exclusively for war purposes of the States, the needs of the other allies in the great war are supplied by the

THE BREAD TUNNEL

One of the Most Ingenious Devices Ever Made by War Prisoners.

There is certainly more tragedy than comedy in the cruel disappointment of unhappy prisoners thrust into a promising and almost successful effort to escape by the use of the brilliant gadget that has marked the many of the allied fighting men does not fail them wholly even in such circumstances.

Larje Corp. Charles W. Baker, who recently recorded his prison experiences, wastes no pathos on himself or on his fellow sufferers when they failed to get safe away through their ingenious tunnel, and an even see a funny side to the affair.
