Solving the Nation's Shoe Problem

A LARGE section of the Canadian public depends upon this company for shoes. Our financial resources and buying power are greater by far than those of any other Canadian manufacturer of shoes; our volume of output is more than twice that of any other. Our sales organization covers the nation from coast to coast, not merely a small section at a time.

Our six branches maintain adequate stocks within the reach of every dealer in Canada, and are now serving more than 5,000 dealers, enabling them to fill orders quickly and to cut down the amount of idle stock on their shelves.

We are making every effort to use this power to help solve the big problem of providing enough good quality shoes to go around. In the face of an actual scarcity of leather, it is difficult; but it can be done if you will co-operate with us. Buy wisely, for service rather than merely for style, and see that the shoes you buy are stamped with the manufacturer's trade-mark.

Since He Learned How to Take Fruit-a-tives

73 Lees Ave., Ottawa, Ont.

"For three years I suffered untold misery from Kidney trouble. Having tried many remedies, I thought I would try Fruit-a-tives. The result was surprising. I have not had a sick day since I commenced taking this fruit medicine, and I have recommended it to many friends, who have also been benefited. I believe Fruit-a-tives is the best Kidney medicine known, for it has done me more good than all the doctors I have ever consulted."

BATTLEFIELD BRED

Some War Words That Will Have a Permanent Place in Our Language.

The English language is a very "elastic" one, and ever receptive of new words and phrases, says an English writer. At the present time it is getting saturated with words of military, French and American origin in particular. The use of an expressive word has indeed become a "work of national importance." This term itself is one of the best evolved in the present crisis, and its powerful, unmistakable meaning has forced us all.

"Going West" is another that has a profound and poignant significance. Its origin is doubtless to be found somewhere in North America, and its peculiar applicability is seen as one thinks of the sun sinking to its rest at eventide behind some of the eternal hills. "According to plan" is a military idiom which has been frequently used of late, and has much significance.

Among the phrases which have come to stay is that stirring French one: "Ils ne passeront pas" (They shall not pass!). It tells a grit and perseverance on the part of brave men against fearful odds, and will ever be an inspiration to generations.

Much discussion has since recently over the meaning of words "decimated" and "offal." The first word is frequently used as synonymous to express great slaughter, but really it only means one in ten, being derived from the Latin "decimus," a tenth. "Offal" again, has a very deplorable ... to most ears, as meaning just refuse. But if we divide the word into its parts—"off" and "fall," it is ... expressive quality, and denotes ... good waste meat.

The use of the words "fly" and "flee" in our war journals has also been confusing to some. "Fly" means to move with wings, while "flee" is a general term, and denotes moving with rapidity. In speeches of the Kaiser and his people's conduct, how many of us make any discrimination between the words "crime," "sin," and "vice." Yet each has a different meanings.

Our old, well-worn friends, "Blighty" and "camouflage," hardly need reference, but the first named is doubtless derived from "bilat," the Hindu word for home, and brought to this country by our soldiers from overseas. "Camouflage" is a French expression, meaning literally, "to blow smoke in another's eyes"; therefore a very effective temporary "blind"!

A simple milk and pure soap may be given relish with every salt.

a channel clear down to the bottom of the haymow. Head off wind and rain the minute you discover the first hole.

A bottle containing lime water and linseed oil (equal parts), should always be kept in the house for the treatment of burns. By applying it directly to a burn it will allay pain and keep the skin from blistering.
