**ARE YOUR WINTER POTATOES IN**

The Canada Food Board is urging

that people get in their potatoes and

root vegetables for the winter before

the cold weather makes their trans-

portation difficult and expensive.

**NOTICE!**

We call the attention of our friends

to the fact that we have made con-

tract for An Extremely Interesting

War Map Service, which is now on

exhibition in the Standard Office.

These Maps will show The Big Battle

Fronts in Europe, where "Our Boys"

are going, with fine half-tone illus-

trations of the chief War Scenes. A new

map will be put up every week or so.

The Public is cordially invited to call

weekly and examine this very inter-

esting historical summary. See us

about securing a copy of this Re-

markable War Map for your own

home.

**FISH CONSUMPTION IN CANADA**

All over Canada people are eating

fish in greater quantities than ever

known in this country before, the

average increase being estimated at

100 per cent. National Fish Day,

October 31st, was well observed

throughout Canada. The increased

demand will increase the supply, for

there are plenty of fish in Canadian

waters. If people will only ask their

dealers to order them.

**EARLY PULLETS FOR WINTER EGGS.**

When we take into consideration

that the average egg production on

the Canadian farm is 75 or 80 eggs

per hen and when well-managed

flocks average 120 to 180 eggs and

individual hens even go higher than

300 eggs in the 12 months, it looks

as though improvement might be

made in the class of stock many keep.

In the first place pure-bred stock is

best. They should be from a good

laying strain. They should be from

good healthy parentage and for

winter egg production, pullets only

and early pullets should be kept. In

an experiment conducted at one of

the Branch Experimental Farms

where four different ages of birds

were in competition for winter egg

production, it was found that early

pullets produced eggs at an average

cost of 16.7 cts., late pullets 28.8 cts.;

two-year-old hens, 95.3 cts.; three-

year-old hens, 88.75 per dozen.

Figures somewhat similar to these

could be procured in hared quanti-

ties. The early pullet is the only

bird that should be kept for winter

egg production and it is the winter

eggs that pay. A dozen of eggs at

Christmas is worth two or three doz.

in May or June. Early pullets mean

early eggs and early chicks in the

spring which of course means early

pullets in the fall. As a rule, the

pullets that lay earliest are the best

layers so that every pullet that lays

before Christmas should be marked.

They are your best layers. If you are

killing off year-old hens, do not kill

hens that moult late in the fall.

They are your best layers and with

your best layers should always be

mated male birds from good layers.

The male is more than half the flock.

A male from a good laying strain and

especially from a good laying mother

will do more to build up the laying

quality of the flock than any other

thing. Don't use them for breeding

purposes, cockerels whose pedigree

you know nothing about. Better pay

a good price and get a good bird.

**"CASCARETS" WORK WHILE YOU SLEEP**

For Sick Headache, Sour Stomach,  
Sluggish Liver and Bowels—  
Take Cascarets tonight.

Furred Tongue, Bad Taste, Indiges-

tion, Sallow Skin and Miserable Head-

aches come from a torpid liver and

clogged bowels, which cause your stom-

ach to become filled with undigested

food, which sours and ferments like gar-

ge in a swill barrel. That's the first

step to untold misery—indigestion, foul

gas, bad breath, yellow skin, neural-

gias, everything that is horrible and

nauseating. A Cascaret to-night will

give your constipated bowels a thorough

cleaning and straighten you out by

morning. They work while you sleep—

a 10-cent box from your druggist will

keep you feeling good for months.

**Kimberley**

(Special to The Standard.)

Fall plowing is the order of the

day.

The hunters have returned from

the North wilds. They report a good

time and brought home two of the

antlered beauties which means some

venison for their friends.

Our school re-opened on Wednes-

day last, after being closed for one

month. Both teachers were on hand

for their duties.

Miss Jean McGawen, of Durham,

is renewing old acquaintances in this

place.

We are pleased to report D. L.

Weber and family recovered from

the flu. Our village and neigh-

borhood is free from sickness now,

except colds.

Miss Lillie Campbell, the popular

clerk in our postoffice is looking after

some of her friends at Eugenia who

are sick with the flu.

Miss Addie Wilson visited with her

mother over the week-end.

One of Duncan's most popular citi-

zens in the person of Mr. John Smart

passed away on Wednesday last. He

was well known in our village as a

genuine Christian man. To his wife

and six children we extend our

deepest sympathy.

Mr. Carman Kerr, of Thornbury,

accompanied by Mr. Shaw of the 10th

line, Collingwood, were pleasant

callers in our burg one day last week.

Mrs. Dell Abercrombie, went to

Wodehouse to resume her duties as

teacher in that burg.

Mr. Geo. Proctor has moved his

family to the power house to be

more convenient to his work.

Mrs. McMullen, of Eugenia is visit-

ing with her daughters, Mrs. J. A.

Stuart and Mrs. H. R. Hammond, of

this place.

**CURE FOR INFLUENZA.**

Take six large or ten medium-

sized onions; chop fine; put in large

skillet over fire; then add vinegar

and rye-meal to make a thick paste;

stir thoroughly and let simmer five

or ten minutes. Put on chest as hot

as can be borne. Heat poultices and

apply until the respiration starts

freely from the chest. In a few hours

the patient will be out of danger.

**KEEP YOUR POTATOES DRY.**

See that your potatoes are dry

before you put them away this fall.

If you store in a pit look to the

troughs, and make sure of good

drainage. If you store in the cellar

have a false floor to allow air to

circulate, and leave a few inches of

air space next the wall.

Wanted—15 cords green hard wood,

24 inches long. Enquire at Standard

office.

**My Limbs Would Twitch**

And Waken Me—Unable to Rest or Sleep, I Walked the Floor in Nervous State—When Specialists Failed I Found a Cure.

This is the kind of cure, that has

helped many people thinking and talk-

ing about Dr. Chase's Nerve Food.

The action of this food cure is so

radically different to the usual treat-

ments for the nerves that everybody

wants to try it. Gradually and cer-

tainly it nourishes the starved nerves

back to health and vigor and the bene-

fits obtained are both thorough and

lasting.

Mrs. M. Smithson, 27 Arthur street,

Windsor, Ont., writes: "I was suffer-

ing from nervous breakdown, which

was caused by a shock when the fire

broke out in the adjoining house. My

nerves were in such a state that after

going to bed I could not get my nerves

quieted down sufficiently to go to

sleep. I used to get up and walk

around the room, or go downstairs.

Even when I would be dropping off

to sleep my limbs would twitch and

waken me. I used to have cold, nerv-

ous, night sweats, sometimes would

become unconscious and lie there for

quite a little while. I was always

cold and it seemed impossible for me

to get warm or keep warm. When

on the street I would see two or three

objects at once, and did not want any

person to speak to me or bother me.

Any little noises irritated and annoyed

me very much. I had consulted several

specialists and tried many remedies

during this time, but could not gain

relief. At last I tried Dr. Chase's

Nerve Food, and before long could see

that this treatment was proving of

benefit. I am now feeling so much

better that I can go out on the street

without any difficulty, can go across

the river and go about the same as

usual. I sleep well at night, and am

feeling more like myself every day.

I am pleased to be able to write you

to tell you how much good the Nerve

Food has done me. It has strength-

ened and built up my whole system.

I am recommending it to everybody

I find suffering from nervousness of

any kind."

Dr. Chase's Nerve Food, 50 cents a

box, all dealers, or Edmanson, Bates & Co.,

limited, Toronto. Do not be misled by

imitations only disappoi-

**He Cannot Sleep**

It isn't the body that craves rest, it's the mind.

When you are bodily tired you usually fall to sleep at the first opportunity.

But when the nerves are irritated by anxiety and worry rest and sleep seem to be impossible.

The mind seems to be most alert, and you are thinking, thinking, thinking—first of one thing and then of another—often matters of little or no importance. But you simply cannot sleep.

Sleeplessness is the most common and often the first indication of a breaking down of the nervous system.

The object of sleep is to allow the body to rebuild tissue and the nerves to recover tone. Sleep is the ideal condition for this process.

If you cannot sleep you worry, and worry breaks down nerve cells at a tremendous rate, so that instead of laying a nerve force for the demands of the day you are using up the reserve.

The nerve centres are sometimes likened to storage batteries. If you continue to consume the nervous energy in reserve, without paying back, these centres become sooner or later depleted, and you find yourself a nervous wreck.

After a sleepless night you get up feeling tired and lacking in mental energy. Your day's work seems more than you can face, and you become down-hearted and discouraged.

The future is not bright, for you must realize that the natural result is exhausted nerves, paralysis, locomotor ataxia or some form of helplessness.

Dr. Chase's Nerve Food is found the most natural and the most rational treatment for the nerves imaginable, because his food cure contains the vital substances which go to the building up of the food and the depleted nerve cells.

Dr. Chase's Nerve Food does not induce sleep, but it does restore the nervous system, and after you have been using it for a few days you will begin to find yourself resting and sleeping naturally.

A little patience is necessary if your nervous system is greatly exhausted, but you will be encouraged by the benefits obtained to keep up the treatment until the exhausted nerves are fully restored, and you feel the energy and snap which means success and happiness.

Dr. Chase's Nerve Food, 50 cents a box, all dealers, or Edmanson, Bates & Co., limited, Toronto. To protect you against imitations the portrait and signature of Dr. Chase, M.D., the famous Recent Book author, are on every box.

**A genuine Victrola every home can afford**

Why not a Victrola today? Nothing will give you so much pleasure for so long a time at so little outlay. It brings you the music you like the best, whether it be songs by the world's greatest artists, selections by the most noted bands and orchestras, or popular music by leaders on the concert or vaudeville stage.

This portable Victrola is convenient to use at home, take to the mountains or seashore, have with you in camp or canoe—your general companion whether you go or stay.

Come in and let us demonstrate for you and explain how you can have a Victrola in your home immediately by our method of deferred payments.

**J. C. KENTNER, DEALER, MARKDALE, ONTARIO**
