## Always Had Headaches

Liver Was Torpid and Bilious Spells Brought Sick Headaches—Lost Much Time, But is Now Completely Cured.

Here is convincing evidence that however much you may suffer from liver trouble and consequent biliousness there is cure in the use of Dr. Chase's Kidney-Liver Pills. Overeating is the most common cause of sluggish liver action. You lose your appetite, have distressing bilious spells, usually accompanied by headache and vomiting, the bowels become irritable, constipation and looseness alternate, digestion is upset and you get irritable and downhearted.

Dr. Chase's Kidney-Liver Pills, for this reason this medicine is wonderfully popular and has enormous sales. My Charles R. Tait, Newtown, N.S., writes: "I was nearly always troubled with headaches, and would often have to stop work for a day or two. I lost many a night's sleep every month with bilious sick headaches, and although I tried doctors' medicines, and also many other patent medicines, it was without success. When I had these headaches I would vomit, and could keep nothing on my stomach. I purchased a box of Dr. Chase's Kidney-Liver Pills from G. M. Fairweather, drugstore of Sussex, N.B., and after taking one box I was so much relieved that I continued to take them until I am now completely cured. My advice to anyone suffering from sick headaches is to try Dr. Chase's Kidney-Liver Pills and be completely cured."

Dr. A. S. Mace, J.P., endorses the above statement, and says: "This is to certify that I am personally acquainted with Charles R. Tait, and believe his statement in every way to be true and correct." Dr. Chase's Kidney-Liver Pills, one pill a dose, 25 cents a box, all dealers or Edmunds, Bates & Co., Limited, Toronto. Substitutes will only disappoint. Insist on getting what you ask for.

### MORE AND BETTER BUSINESS

Registered in Accordance with the Copyright Act.

More trade means more money for the merchant.

More money for the merchant means better buying for the consumer because the merchant can afford to cut prices closer by reason of his increased volume of business done.

More business means better business—both for merchant and consumer.

Obviously, the merchant can only get more trade by getting more satisfied customers, and the way to get more satisfied customers is to be able to sell good goods at the most reasonable prices—prices that are as low as possible. This, and a prompt, obliging store service.

The merchant has got to have his profit—he's got to have his percentage, just as the farmer and the blacksmith have got to have their percentage. Some people act as though the merchant should have no profit at all—but this belief is, of course, nonsensical.

If the merchant does not get his legitimate percentage of profit he cannot stay in business. Neither can the farmer or the blacksmith or the printer or the undertaker.

And we all want to stay in business don't we?

If we are put out of business, our town suffers. It is business that makes a town and keeps the contiguous district alive and flourishing.

Streets, houses, shops, churches and automobiles do not make a town. Trade is the important factor. Trade means that production and labor are the vital forces behind.

Production would be useless without an outlet through trade and commerce—except as a means of sustaining individual life, or bare existence.

We want more out of life than a bare existence. We want educational and social advantages and congenial companions that make life worth while. We want, and must have, many, many things that only a hearty interdependent community spirit and activity can give us.

"One for all; all for one," is the natural motto that should inspire all normal humans seeking the ideal existence.

To keep our community intact we must live and let live. We must patronize one another and see that all worthy concerns are going, adding new ones as occasion demands.

If all the business people were to combine and send their printing out of town the community would very shortly lose the printers—one of its most important, progressive, functions. Boycott the merchants of the town, every live business man would be forced out of town—and so on until there would be no town and no community worthy of the name.

Keep every dollar's worth of trade possible within the community and there will be work and business for each and every one, and the hundred and one accessory advantages that only live enterprise can supply.

It is not live enterprise to help kill your home institutions—it is but a plank for your own commercial and social coffin.—Leader (Sask.) Enterprise.

## R. C. BISHOP BOOSTS S. A.

Says Did Much Good Work for Social Welfare of Canadian Troops

That there is no race or creed in the appeal of the Salvation Army for one million dollars to carry on its after-the-war work among the returned soldiers and to continue its campaign in France and Germany until the last Canadian soldier is home, is evidenced by the hearty endorsement that comes to the Headquarters of the Army from Rev. N. F. Fallon, Roman Catholic Bishop of London, Ont. Bishop Fallon spent some months with the troops at the front and is in a position to know what is being done there by the many social organizations. He writes to Lieut.-Col. Rawling, 394 Clarence St., London, Ont., as follows:—

"I am in receipt of your letter of the 27th instant, and I beg leave to tender you my sincere thanks with the good wishes it contains. I heard and saw much of the good work done by the Salvation Army for the social welfare of the Canadian troops fighting in France and Flanders. Every organization which contributes to this cause had my deepest sympathy and I am glad to know that your society is doing valuable and effective service."

### "CASOARETS" WORK WHILE YOU SLEEP

For Sick Headache, Sour Stomach, Sluggish Liver and Bowels—Take Casoarets tonight.

Furred Tongue, Bad Taste, Indigestion, Sallow Skin and Miserable Headaches come from a torpid liver and clogged bowels, which cause your stomach to become filled with undigested food, which sours and ferments like garbage in a swill barrel. That's the first step to untold misery—indigestion, foul gases, bad breath, yellow skin, mental fears, everything that is horrible and nauseating. A Casoarets to-night will give your constipated bowels a thorough cleansing and straighten you out by morning. They work while you sleep—a 10-cent box from your druggist will keep you feeling good for months.

### WINE AND ITS WORK.

January 22nd, 1919.

To the Editor:—The ablest scientific men of Europe are practically a unit in their statements that wine-drinking in all the wine-making parts of Europe has become a curse and should be stopped.

This is especially true of France, where physicians, life-long residents of that country, declare practical unanimity that much the greater part of sickness requiring their attention is the result of the use of alcohol. Children at school have their "blitz Monday" because of drink. "The Anti-Alcohol Movement in Europe" states that a teacher asked a pupil on a certain Monday, "What did you do yesterday, child?" and received the reply, "I was drunk with my mother and grandmother."

Before the war, a German scientist recorded this terrible fact,—"that one can scarcely pick up a German newspaper without reading of a woman assaulted or beaten to death by a drunken person," and another German scientist declared about the same time,—"The carnal attacks on children, which have frightfully increased, are generally committed in an alcoholic state, and even if the criminal is not actually drunk, alcohol has prepared the ground for the deed."

Why do men drink wine? Simply because of the alcohol that is in it. Does any sane person actually believe, as some assert, that wine-drinking can promote social order when its effects in wine-drinking countries are of the character described?

Vance Thompson, not an extremist, says: "Let there be no doubt about it; the wine way to drunkenness is like any other. You say it is cleaner, with gay prospects and brighter skies? Nine-tenths of that is cant and the cheap apologies of second-rate, brandy-loosened poets. It is not a clean way, if you have followed the trail of the wine drunkard home-faring."

J. H. Haslewood, Department of Social Service.

### THE WEST REQUIRES ONTARIO OATS FOR SEED.

It is estimated that 500,000 bus. of oats suitable for seeding purposes may be obtained from Ontario for southern Saskatchewan and Alberta. The District Representatives of the Provincial Department of Agriculture have been requested to assist in procuring this supply, but the prevalence of wild oats throughout parts of Central and Western Ontario will prevent many farmers from taking advantage of the premium offered. There is a plentiful supply in Manitoba of oats polluted with wild oats, which may be obtained at a lower cost, but it is hoped that Ontario farmers can supply oats that are practically free from wild oats and get them delivered in good time for seeding in Saskatchewan and Alberta.

### ERECT A MEMORIAL IN EVERY COUNTY.

In an interview last week at Ottawa a national memorial in each county or municipality for Canada's war veterans and war victims is proposed by Sir Sam Hughes.

Sir Sam says there are all sorts of half-baked schemes for local memorials, now under way with rival subscription lists opened and no well thought out plan for the whole Dominion. He will urge parliament to provide for suitable and enduring monuments in each locality, erected at the expense of the whole country, to mark for posterity the names of those who fought and of those who fell "for liberty."

On each marble and bronze staff as provided by the federal government there could be graven the names of the soldiers of that district for future generations to read and honor. Any municipality or local association could erect separate memorials if so desired, but Sir Sam thinks that his

plan will eliminate haphazard schemes and subscriptions and at the same time pay the nation's lasting tribute to each member of the Canadian Expeditionary Force.

### HAVE YOU STARTED?

Have you started to use War Savings and Thrift Stamps? If not you should do so at once. All should save something, it matters not what their earning power may be. To argue this point is hardly necessary.

If Canadians do not save from now on it will not be through lack of a system that makes saving easy. Nothing could be better than the War Savings Stamp plan. Four dollars' worth of War Savings Stamp, for which the Government will play \$5.00 in

824. Twenty-five cents buys a Thrift Stamp 16 of which may be exchanged for a War Savings Stamp. Could anything be easier? The form of saving is also profitable, paying 4 1/2 per cent, compounded half-yearly.
