THE POWER OF EDUCATION

The press of Ontario has been giving prominent space to the constructive policy of our Minister of Education, the Hon. Dr. Coyle, and a careful perusal of his speeches will unveil his purpose for the future intellectual force of our province.

The system of education in our own town, for example, is an evidence that the principal and his staff are alive to what is going on in the intellectual world.

There is no power of earth equal to the power of education, and the cooperation of parents with teachers will prove that Markdale is marching ahead in the educational review of the province.

Give "Syrup of Figs" to your child, and in a few hours all the constipated waste, undigested food and gas will gently move out of the little bowels with a griping, and you have a bright, playful child again. Ask your druggist for a bottle of "Syrup of Figs," which contains full directions for babies, children of all ages and grown-ups.
