London, March 2.—The possible fall of the German Government is reported in numerous special despatches received to-day from Berlin. The members of the Government have arrived at Berlin to consult with the War Council, and a manifesto has been issued. All the correspondents represent the situation as grave. The Wolmar manifesto denounces the terrorist attempts to get rid of the National Assembly. It proclaims faithfulness to the principles of Democracy. "Greater than the political danger is the economic distress," says the manifesto. "We cannot feed ourselves from our own supplies until the next harvest. The blockade is eating away the vitality of our people. Thousands perish daily from ill-nourishment."

The manifesto denounces strike saying: "Every strike brings us a step nearer to the abyss. Only work can save us."

The manifesto promises the socialization of suitable industries and the establishment of industrial councils representative of all the workers and freely elected. It closes with a strong note asserting the determination of the Government to wage relentless

The proposal for the destruction of the large German warships is approved in the report by the British and American naval officials, but the French still make reservations against the destruction of these ships.

The Supreme Council is expected to pass on this and other naval and military subjects on Monday.
