"How To Buy Shoes"

THERE are many things which you need not buy unless you choose. But footwear is not one of them. You must have shoes. And the problem of buying shoes is one which comes home to every man and every woman in Canada.

In order to help you solve this problem, we have prepared a booklet with the title given above. We believe that you will find it helpful and interesting, whether you buy A.H.M. Shoes or not. And it is not necessary to buy A.H.M. Shoes in order to profit by the information which is contained in it.

We are glad to send a copy with our compliments to any address in Canada. Please send your request to our Head Office, at Montreal.

AMPURE

Impure atmosphere, must make up his loss by passing abundance of pure air through the lungs.
He will inhale five times more air at a pace of four miles an hour than when sitting at his desk, and every muscle should be regularly exercised.
If a healthy man learns and obeys the laws of health, he will remain healthy until he is worn out. Thus he must esteem as their proper value pure air, exercise, temperance in eating and drinking, and the introduction of usefulness and contentment into his daily life.

The Goddess of the Wood.

Even dearer than the thought of Spring
When Wintry frosts gleam cold,
Is this glad light of Spring herself
That doth the earth enfold.

No radiant dream of paradise,
Were half so wondrous fair,
As yonder tow'ring leafing beech—
The supbeams in her hair.

I think the great sun worships her,
For as she smiles above
Among her frail, translucent leaves,
He lays his gifts of love.

A tree no more for sun-adored
The beech, his goddess pale,
Emblined within the quiet wood,
Untold her mystic veil.

SUN LIFE HAS RECORD YEAR.

The Sun Life Assurance Company's 48th Annual Report, just issued, not only surpasses last year's record, but is better than any ever issued by the Company. Every department of its activities shows strength and progress. New business secured constituted a record, total assets are larger than ever before. Income is larger; total assurances in force are much greater, while the surplus of over \$30,000,000 indicates that the Company is in a splendid position to safeguard the welfare of those entrusted to its care.

Its assurances in force now exceed \$30,000,000, a gain of nearly \$29,000,000 during the year. New policies issued and paid for exceed \$51,591,000, while assets, which gained \$7,460,000 during the year, now crowd close to the \$100,000,000 mark. To be exact, these amount to \$97,520,000.
The net surplus remaining above all liabilities and capital stock exceeds \$8,000,000. During the year the Company paid to policy holders and their beneficiaries \$9,768,000, a sum considerably in excess of the amount paid last year, the heavier claims being due to the war and the influenza epidemic.
Another new record was made in regard to income with \$21,651,000 received, a gain of over \$2,300,000 during the year. The Company is now comfortably installed in its new office building on Dominion Square, Montreal, where unequalled facilities enable them to carry on their large and growing business in the best possible manner.

Bench and Bar.

The wit and quickness of repartee which characterizes Sir F. E. Smith, who is now Lord Chancellor, with a salary of \$50,000, at the age of forty-six is proverbial. In one of his early cases he was opposed by an elderly, prosy, long-winded lawyer, who spoke for six hours in his concluding address.
Then Sir Frederick rose. Looking at the judge and jury, he smiled slightly and said:
"Your honor, I will follow the example of my learned friend who has just concluded, and submit the case without argument."

Sure! High Heels Cause Corns But Who Cares Now!

Because style dictates that women crowd and buckle up their tender toes in high heel footwear they suffer from corns, then they cutland trim at these painful pests which merely makes the corn grow and. This suicidal habit may cause lockjaw and women are warned to stop it.
A few drops of a drug called freeze-one applied directly upon a sore corn gives quick relief and soon the entire corn, root and all, lifts out without pain. Ask the drug store man for a quart of an ounce of freeze-one, which costs very little but is sufficient to remove every hard or soft corn or callus from one's feet.

A Question of Age.

The stout party had been in the boot shop for over an hour, and the patient shop assistant had had half the stock down for her inspection. She found a fault with them all until his patience became quite exhausted.
"These would suit you," he said, taking down another pair as a last resource.
"Still the lady was not satisfied. "I don't like this sort," she said. "They have a tendency to get wider when they are a bit old."
"Well, madam," retorted the exasperated assistant politely, "didn't you?"

Music in the home evenings keeps children off the streets; fewer children on the streets at night means better citizens.

Minard's Liniment Cures Dandruff.
To construct a huge highway after the Roman method would cost to-day at least \$500,000 a mile. So thoroughly were these roads built that they lasted for hundreds of years.

Better not ask papa yet, dear. He has the gout in one foot.

"All right, I'll wait till he gets well or gets the gout in both feet."

Her Dilemma.

"What shall you give your husband for a birthday present?"
"I don't know. If I don't buy him anything, he'll rave at me, and if I do he'll want to know where the money came from."

"John," said Mrs. Stylover, "I'm going to town tomorrow to see the new hats."
"You forget," her husband reminded her, "that tomorrow is Sunday and the stores will be closed."
"Who said anything about stores? I'm going to church."

Not to the Swift.
A fellow said to a famous sprinter: "I'll race you and beat you; if you'll let me choose the course and give me a yard's start!"
"Fifty dollars to one that you don't," said the sprinter confidently. Name your course."
"Up a ladder," said the challenger.

Guilty Conscience.

One of the best legal anecdotes I ever remember to have heard emanated from that distinguished wit and scholar, Lord Morley, who recently celebrated his eightieth birthday.
A certain rich litigant (said Lord Morley) went away to his country seat at the conclusion of an important case, before judgment had been pronounced.
A few hours later his lawyer wired him as follows:
"Right has triumphed."
The rich litigant wired back:
"Appeal at once."

FEW CENTS DESTROYS YOUR DANDRUFF AND STOPS FALLING HAIR

Thin, brittle, colorless and scraggy hair is quite evidence of a neglected scalp; of dandruff—that awful scurf. There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life; eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast. A little Dandruff-Exterminator—now—any time—will surely save your hair.

An Englishman, for his first time visiting Ireland, was out driving one day with Pat, when he remarked to him:
"I say, Pat, what a lot of hills you have in Ireland."
"Shure we have, sir," said Pat. "We had so much land here in Ireland that we had to put it in heeps."

A Cure for Pimples

"You don't need mercury, potash or any other stinging material to cure pimples caused by poor blood.
