

**Attention!**

For the kiddies there is no camera to beat the sturdy little Box Buster Brown. It makes fine pictures and will stand hard knocks. So simple and efficient that anyone can learn to make excellent snapshots. Price from \$2.75 to \$4.50.

Other AnSCO cameras up to \$6.50. Ask us to show them to you.

THEN ONLY

When the grasshopper comes to hop, and old cow quits her bawling; when the fishes no longer leap, and the baby stops its squalling; when the dunnars no longer run, and the hoot-owl quits its hooting; when the vine no longer runs; and the skybird stops its farthing; when the sun no longer shines, and the young man quits his sparkling; when the heavens begin to drop, and old maids stop advertising; then it's time to shut up shop and quit your advertising.

We must have all display advertising in not later than 4 p.m. Monday.

HOW TO LIVE.

Worry less and work more
Ride less and walk more
Frown less and smile more
Drink less and breathe more
Eat less and chew more
Waste less and save more
Preach less and do more

Living to advantage includes the habit of conserving your property. It also entails upon you the duty of maintaining it in a state of attractiveness. Identify yourself with clean attractive surroundings and thereby reveal the qualities of a durable enterprising progressive citizen. Once let your property become disordered and shabby and your banker will mark down your credit rating; your neighbors will think of you with disappointment; an unpainted house is a disgrace and a waste of property; an unvarnished door is a disease-breeder; a dull front door bids visitors unwelcome; the psychological effect is against you, not for you.

SOMETHING WRONG

A sale bill bearing the signature of "Will, Quit Work" has been going the rounds of the press and purports to be Missouri auction sale giving evidence of what queer combinations can be made by a printer who is suffering from the effects of a night out and badly pies the galley. The bill announcing the sale includes the following list:

Twenty-five good cows, broke to work; 41 head of cultivators, coming in soon; 10 head of shoveling boars, with scythes by side; 8 piano mare; 12 rods canvas belting, better than new; De Laval cow, with ice-cream attachment; McCormick binder, infant; Poland-China Bobbins, due to farrow in April; 14 head of chickens, with grass-seed attachment, in good working order; 2 J.I.C. riding heifers good as new; spraying outfit, can be ridden or driven by children; 15 billy goats, 70 bushels capacity, with spray nozzle and other attachments; many other articles to numerous to mention, which I expect to get at night between now and date of sale."

—Country Gentleman.

They do not re-invest in War Savings Stamps at least a portion of their War Bonds interest, there is grave danger that they may be lost to the large army of savers which it is desired to recruit in Canada. This would be a misfortune both to themselves and to the Dominion.

The burdens following the War are so heavy that no person can afford to waste money. Those who do so take a long chance. Not only should people save, but they should also put their savings into a security of unquestioned value that will pay well and they can get nothing better than War Savings Stamps.

LIFT OFF CORNS!

Apply few drops then lift sore, touchy corns off with fingers.

Doesn't hurt a bit! Drop a little Freezone on an aching corn instantly that corn stops hurting, then you find it right out. Yes, I do!

A tiny bottle of Freezone costs but a few cents at any drug store; but is sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

Freezone is the sensational discovery of a Cincinnati genius. It is wonderful,

in after enacted or executed, or when any hour or other period of time is stated either orally or in writing, or any question as to a period of time arises, the time referred to or intended, shall, unless it is otherwise specifically stated, be held to be Standard Time.

As regards that part of Ontario which lies east of the meridian of ninety degrees, west longitude, standard time shall be reckoned as five hours behind Greenwich time, and in that part of Ontario lying west of this meridian standard time shall be reckoned as six hours behind Greenwich time.

The new time is in force in England, consequently the time at Greenwich is advanced one hour. This being the case, legal time in Ontario at least, is the new or Daylight Saving time.
