

## AFGHAN MAIN OFFENSIVE IS RAPIDLY DEVELOPING

Attacks Against That Successfully Repulsed by British—500 of Enemy Killed or Prisoners in One Engagement.

London, June 1.—The Afghan main offensive against That, under Gen. Nadir Khan, the Amir's commander-in-chief, is developing. The latest official information from Simla, received on May 29 and 30, shows that all attacks on Fort That have been repulsed. The fort was bombarded throughout Wednesday last, and the Afghans occupied the looted base outside the fort. Air reconnaissance disclosed about 3,500 of the enemy near. Their camps were effectively bombed.

Three British airplanes have dropped bombs on Kabul, capital of Afghanistan, and Jalalabad, the Indian army announces. The airplanes also have attacked formations of Afghan troops.

### LEADING MARKETS

### HOLDS BIG FIVE BEARS BURDEN

President Wilson Answers the Protests of the Small Powers.

Hawker and Grieve Firs—Recipients of the Air Force Cross.

A despatch from London says:—

Gary G. Hawker and Lieut.-Commander Mackenzie Grieve, who reached here from Thurso, Scotland, after being rescued in midocean when the airplane in which they were attempting to cross the Atlantic alighted near the Danish steamer Mary, were received by King George at Buckingham Palace.

His Majesty bestowed on Hawker and Grieve the insignia of the Air Force Cross. They are the first actual recipients of this order.

An immense crowd gathered in front of Buckingham Palace to witness the arrival of Hawker and Grieve, who were loudly cheered when they made their appearance.

The crowd also gave them an ovation when they left the palace.

GOVERNOR-GENERAL WILL OPEN CANADIAN EXHIBIT

A despatch from New York says:—

The Duke of Devonshire, Governor-General of Canada, will open an exhibition here on June 10 of war paintings, conducted by the Canadian War Memorial Fund. The paintings are largely those of Canadian artists sent to the fighting front during the war, and embrace representations of every sphere of Canadian war preparation and activity, together with portraits of generals, statesmen, Canadian V.C.s and pictures typical of Canadian history. The exhibition is under the management of P. G. Konody, English art critic, and Capt. Percy F. Godenrath, attached to the Canadian War Records Office.

TELL GERMANS TO ACCEPT OR REFUSE

Paris, June 2.—The reply of the allied and associated Governments to the German counter-proposals, The Echo de Paris declares, will be handed to Count von Brockdorff-Rantzau on Friday. It will constitute a refusal of the German proposals. The Germans, the paper adds, will be told they must either accept or refuse the allied conditions before June 25.

### BRINGING UP FATHER

## WIDESPREAD PLOT OF U.S. RADICALS

Attempt to Assassinate Attorney-General and Other Prominent Men.

Washington, June 2.—Radical agitators to-night apparently attempted to inaugurate another reign of terror throughout the country through the planting of infernal machines near the residences of prominent men.

Within a few minutes after the explosion of a bomb at the door of Attorney-General Palmer's residence here, with the killing of one man evidently the person planting the bomb, reports were received from Boston, Pittsburgh, West Philadelphia, Paterson, N.J., Newtonville, Mass., Cleveland, and New York City, of similar attempts.

In all cases except Paterson and Philadelphia the bombs were directed against public officials. In Paterson the home of a silk manufacturer, wrecked, while in Philadelphia where two explosions occurred attempts were made to blow up the Catholic Church and a private residence.

The similarity of the reports received from the various cities reflected more than coincidence in the age of infamy of the plot.

The bomb planted under the steps of the home of Attorney-General Palmer, in the fashionable northwest section of Washington, where two explosions occurred, injured no one within the residence.

## ITALY'S LOSSES TO BE ADJUSTED

Sacrifices on Adriatic Will Be Made Up by Territory in Africa.

Paris, June 2.—The Council has virtually decided to Italy just economic compensation concessions she makes in the Adriatic settlement. With this object in view Lord Milner, Sir Edward Grey and Henri Simon have been consulting at length in what manner the British Government may be able to reconcile Italy in North Africa.

It has been heard that Italy may this way receive an increase of her territory in Tripoli, gaining an extension of the boundaries to the south, and also in the Egyption ground of Tripoli without the town itself, which would remain under French control. The handling over of part of British Somaliland to Italy may also be considered. The rights of the Slavs in Fiume are to be protected, while Fiume, according to the published outline of the Adriatic settlement, is to be a free city diplomatically represented by Italy; the railway and hinterland beginning 18 miles outside the city are to be Jugo-Slav.

## BELGIUM HONORS HER EDITH CAVELL

A despatch from Brussels says:—

The transfer of the body of Edith Cavell, a young Belgian woman, whom the Germans executed on a charge of treason, was carried out on Thursday with impressive ceremonies.

The streets were lined with thousands of spectators, and the city had its supply of national mourning.

Piles of flowers covered the coffin and troops, patriotic societies and school children followed the cortège to the communal cemetery, where military honors were paid.

Premier De La Croix and other officials delivered eulogies before the coffin left the Town Hall of Scherbeek, a suburb. Miss Cavell was put to death in 1916.

## JUNE 20 IS PEGGY'S DAY FOR SIGNERS

A despatch from Brussels says:—

On June 20 the 100th anniversary of the birth of the famous actress, Mrs. Fanny Kemble, will be celebrated, but the French government has done nothing to mark the day.

The majority of people, however, are accepting the following day as the anniversary.

Most remarkable, however, is the fact which our ancestors had a remedy for epilepsy. The skull itself, a skull, Charles II, which from apoplexy, was operated upon by physicians twenty-four hours.

In the seventeenth and eighteenth centuries there was a powdered mummy used as a medicine.

But a few sceptical persons announced this remedy because of much fraud, for far more were prescribed than ever.

The fact every man and woman was affected by epilepsy.

Poor laundry work shortens life of clothing more than medicines.

## WHAT FASTING DOES TO FOLKS

SCIENTIFIC STUDIES ARE BEING MADE OF THIS PROBLEM

This extract from Home Life, France, by Miss Dorothy, gives an interesting picture of French peasants.

Recent years have seen a growing fast. Some people have noted that, though this was popular among the rich, it was not so among the poor.

Visitors to our place in a village, says Miss Dorothy, stampeded to gaze at the well-made brick building. Inside, a fully made-up picture of a man and woman, and physical fitness, were set up for the pleasure of the visitors.

Famous Dr. Faunus Fast, the most famous of the fasting doctors, had more than 10,000 patients.

He has written a book on the subject, "Fasting and Health," and has a large following.

He has written a book on the subject, "Fasting and Health," and has a large following.

More recently, there have been scientific studies to see if the diet of the fasting patients is really good.
