# DANGER LURKS IN EVERY ONE OF US

We Are As Full of Deadly Poisons As A Germ Laboratory.

### **AUTO-INTOXICATION** OR SELF-POISONING

"FRUIT-A-TIVES" Absolutely Prevents This Dangerous Condition.

The chief cause of poor health is our neglect of the bowels. Wasto matter, instead of passing from the lower intestine regularly every day, is allowed to remain there, generating poisons which are absorbed by the blood.

In other words, a person who is habitually constipated, is poisoning himself. We know now that . Info. interication, due to non-action of the bowels, is directly responsible for serious Kidney and Bladder Troubies; that it upsets the Stomach, causes Indigestion, Loss of Appetite and Sleeplessness: that chronic Rheum. atism, Gout, Pain In The Back, are relieved as soon as the bowels become regular; and that Pimples, Rushes, Eczema and other Skin Affections disappear when "Fruit a tive," are taken to correct Constipation,

"Fruit-a-tives" will protect you against Auto intoxication because this wonderful fruit medicine acts directly on all the climinating organs. 50c. a box. 6 for \$2.50, trial size the At all dealers or sent on receipt of price by Fruit-a-tives Limited Cutawa.

Mary Ann and Dean were two very happy children. When one day ther she was stiff, homely, and always

· | underfoot." wagon, as father was instructed to

years, although their parents were not diseased, is due mainly to the mainetrition of mothers, says a despatch from Warsaw. The Increase by blindness among children at birth was thought at first to herald the advent of some new war disease. But it vertigation by experts proved that the famished condicion of the mother traacted on the excelent of their butters.

Avoiding Trouble.

"She was the sort of woman who always tells everybody her business. With a cherry smile she settled herself at the counter of the hosier's shop and began;

"My husband has just been very ill -very ill indeed. So I have to do this shopping, and I want a shirt." "Certainly, madain," said the assistant, courteously. Stiff front and

cuffe?" ,... "Oh, no," she exclaimed, in horrifled ones. The doctor says he must avoid highling, with starch in!"

Initiative is a matter of temperament like courage in the field, and can be developed.-Lord Haldanc.

twelve months after being hatched.
