A GOOD SCHOOL.

The Orangeville Business College has just completed the most successful year in its history, having had during the school year over one hundred students in attendance; this is a larger enrollment than most city colleges. The interior of the College is being redecorated and considerable new equipment added for the re-opening on September 2nd. Every graduate is assured a good position and its old graduates are among the most successful in this province.

The Orangeville Business College is approved by the Military Authorities of Canada as a training school for returned soldiers who are entitled to free education, a living allowance of four hundred and twenty dollars during the six months.

Many ambitious young people, who cannot attend now, are taking advantage of the Home Study Course, thereby shortening their term at College and cutting down expenses.

All interested should write now for information and thus get advantage of the old rate of tuition fees. The Orangeville Business College is affiliated with the Canada Business College, Toronto, and ten other colleges.

LEMONS WHITEN AND BEAUTIFY THE SKIN

Make this beauty lotion cheaply for your face, neck, arms and hands.

At the cost of a small jar of ordinary cold cream one can prepare a full quart pint of the most wonderful lemon skin softener and complexion beautifier, by squeezing the juice of two fresh lemons into a bottle containing three ounces of orchard white. Care should be taken to strain the juice through a fine cloth, so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan and is the ideal skin softener, whitener and beautifier.

Just try it! Get three ounces of orchard white at any drug store and two lemons from the grocer and make up a quart pint of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands. It is marvelous to smoothen rough, red hands.

Betty Begged to do the Baking

Of course, she is a bit anxious—who wouldn't be?—over her first cake. Oh, so careful has she been that this cake shall be light as thistle-down and of a melting richness that will tantalize and coax the most elusive appetite. Now, she is mixing in

DOMINION CRYSTAL SUGAR

More finely granulated than most sugars, it dissolves more quickly—giving impartially to this wonderful Betty Cake its sparkling, crystallized sweetness. "Sugar is sugar—you say? Not a bit of it. There is sugar and sugar. On the one hand there's the ordinary kind—the kind some grocers will send you if you aren't careful to specify. On the other hand, there's "Dominion Crystal"—the sugar that is always uniform in quality, always pure, always fine in granulation. Most grocers carry this brand—They will substantiate all we say about its quality.

In order that you may test it, however, before you buy a pound of it, we are prepared to send you a sample to try. We have already mailed many envelopes containing samples of our sugar to homes in your vicinity; but if you have been overlooked, we hope you will write us now, giving your name and address—and you will promptly receive a few ounces of Dominion Crystal Sugar, together with a few Recipes which we know you will like. These recipes have been tested and found to be exceptionally good.
