

HIS ROYAL HIGHNESS DELIVERS STIRRING MESSAGE TO PEOPLE OF CANADA

Her Apparent Appreciates Canada's Welcome to Him as King's Representative - What the Throne Stands For - Plea For Imperial Unity.

The Prince of Wales addressed 3,000 men assembled in Massey Hall, Toronto, on the occasion of his farewell visit to Ontario's capital. It was a memorable and historic occasion for it was probably the first time in the annals of the Empire that a public meeting of the duty and functions of the Crown and the relationship of the Sovereign to the people. The Prince handled his subject, his breadth of vision and his rare personal charm, once again deepened the bond between himself and the people of the Dominion.

His Royal Highness spoke as follows: "Since I was last in Toronto I have been flying across the continent to Vancouver Island and back again, which enables me to look better on Canada as a whole, and I think I can best express myself in military terms. The Western Provinces are like the outskirts of the Indian land, but most of us, and it has taken a long time, are continually pushing forward into the main body of the nation and the main line of resistance. I congratulate you on the way in which your fine position is organized."

"I was much impressed by all I saw in the West and was attracted by the vigor and free spirit which I found there, and realized what a great future and development lies before it. Now for the last three weeks I have been back in the East, traveling in southern and western Ontario, and I have seen the country round the shores of your great lake, which was the scene of the fighting, a century ago which saved British North America for the Empire, and was thrilled to think of the splendid fight which your ancestors of those days put up, and if it was anything like the way Ontario men fought in the great war, it must have been pretty good. (Loud applause.) I have also been much impressed by the orderly and settled look of the whole country, which bears a striking resemblance to English country, and is such a great contrast to the West. Knowing that Ontario was practically entirely virgin land only a century ago, I am full of admiration of what three or four enterprising and vigorous generations can achieve."

"But these last three weeks have enabled me to realize that the notion that the East is purely the industrial part of Canada as opposed to the West, which is the agricultural part, is wrong, and I know now that the agricultural produce of Ontario is the bread of the whole Dominion, and that your agricultural activity is as important as your industrial activity. This impressed me, because it makes me feel that Ontario comprises all the portions of the Dominion, and must be the way in which it deals with its own problems, even in some respects a decisive influence upon the whole Empire of Canada."

"And I am particularly interested in the agricultural side of things, because I have become a farmer in a small way myself, and have fought a man in Southern Alberta, where I hope to start in very soon and ultimately make good. As you know, in a despatch from Toronto says: 'In a critical condition, with a bullet close to his heart and another in his abdomen, Police Constable William Milton of Dundas Street Station was found lying in a lane at the rear of 308 Yonge street early Friday morning by pedestrians who had failed to catch night cars and were making their way home toward home.' Constable Milton, whose home is at 38, Moscow avenue, was covering the lanes at the rear of Yonge street beat, and presumably caught burglars in the act of entering a store when he was fired upon."

AMENDMENTS TO CANADA TEMPERANCE ACT BECOME LAW

Plebiscites May Be Held in "Dry" Provinces on Question of Liquor.

Ottawa, Nov. 10.—Surviving a stormy passage through the Senate, the Government's two measures to enact conditional prohibition for Canada became law when the Governor-General affixed his signature after 6 o'clock this afternoon.

Senator W. B. Ross of Cape Breton was the chief obstacle to the passing of the bills, when he moved the postponement for each in turn so that in the next session there would be "more time" to discuss them on their merits.

His amendment was defeated by a vote of 18 to 12, but that result was

in spite of the fact that this is the most far-reaching importance of the Government's two measures to enact conditional prohibition for Canada. The Government supporters voted according to their consciences and judgment.

It must be admitted that judgment was not even higher place than consensus, because many members of the Government admitted on the ground that there is an overwhelming tide of public opinion in favor of prohibition and that the Government fails to represent it and is disastrous to the Senate."

GRAND TRUNK BILL PASSES SENATE

Cause of Amendment.

A despatch from Ottawa says: The Grand Trunk Bill passed the Senate on Friday night. It will have to go back to the Commons once more, but the bill has been amended to take into account the preference of the House of Commons.

The Grand Trunk Bill, which was introduced in the Commons on October 15, has now passed the Senate. The bill provides for the construction of a railway line from Toronto to Vancouver, and for the purchase of the Grand Trunk Railway by the Government.

The bill was passed by a vote of 58 to 27. The Government's amendment to the bill was also passed by a vote of 58 to 27.

The bill provides for the construction of a railway line from Toronto to Vancouver, and for the purchase of the Grand Trunk Railway by the Government. The bill also provides for the construction of a railway line from Montreal to Vancouver, and for the purchase of the Canadian Northern Railway by the Government.

U.S. WILL ENFORCE COURT MANDATE

The Attorney-General Gives Solemn Warning to Coal Strikers.

Washington, Nov. 10.—Solemn warning was given the United Mine Workers of America to-night by Attorney-General Palmer that resolutions of convention and orders of officers of organizations are not above the law.

Formal and final declaration of the Government's policy in dealing with the coal strike was announced by the Attorney-General while officers of the miners' organization at Indianapolis were struggling with the question how to answer the court's blunt and peremptory command to rescind the strike order.

Describing the strike as a plain violation of a Federal statute, Mr. Palmer, speaking with full authority of the Government, announced that all the power of the United States would be exerted to enforce the mandate of the court.

Although no reference was made in the Attorney-General's statement to the promulgation of organized labor, supporting the miners and demanding withdrawal of injunction proceedings, it was evident that Mr. Palmer had that document in mind, and official Washington accepted his declaration to mean that the refusal of the miners to cancel their strike order would mean a fight to the bitter end.

COMMONS PASSES AMENDMENTS TO CANADA TEMPERANCE ACT

Dominion to Hold Referendum If Any Province That Importation of Liquor into That Province Be Prohibited.

Ottawa, Oct. 9.—The outstanding result of Saturday's sitting of the House of Commons were the passage of the Government's two bills dealing with the subject of prohibition and the acceptance of the Senate's amendments to the bill authorizing the Government to acquire control of the Grand Trunk Railway system. The most important of the two prohibition measures, that to amend the Canada Temperance Act, was not reached until the evening, and was the last item of business discussed. It expected a rather lively debate, and was amended in some respects before it was read a third time. The bill in its original form provided machinery whereby a province might prevent the manufacture of liquor within its territory and importation from other provinces. The legislation provided that a Provincial Legislature, by resolution, might petition the Dominion
