CANADIAN POULTRY SITUATION.

No branch of food production has suffered during the war to greater extent than that of poultry and eggs. In many countries of Europe it has almost disappeared; while in others scarcity of feed and high prices and the closing of markets have compelled serious reductions of poultry flocks.

### IS ICE-COLD WATER BAD FOR RHEUMATISM?

#### A GREATER SEAMAN'S EXPERIENCE

This story of Wm. Rogers, seaman in the Mine Sweeping Branch of the Royal Navy, is absolutely true and can be readily verified.

At Niagara Camp, in 1914, Rogers contracted Rheumatism. He was sent to the Toronto General Hospital, where for over 19 months he was a patient, finally being discharged as incurable. In despite of this Rogers had a friend and tried Templeton's Rheumatism Cures.

The results were astounding—in a short time he was able to pass the physical examination set by the Army and became an A.B. in the Mine Sweeping Branch.

Rogers did service in the North Sea. On three occasions he was blown into the sea and remained in the cold water as long as seven hours at a stretch. Despite his harsh living Rogers left no record of his previous trouble. Think about it. If T.R.C.S. did so much for Rogers—all they not do the same for us?

Ask your Drugget or write us for our new booklet. It is interesting. Costs you nothing.

### THE VICTORY LOAN

The press has had a great part in the year's overwhelming success.

#### It Pays to Advertise

To the Editors of Ontario news-papers.

Dear Sirs:—When the Canadian Government requires money people do not respond with a smile. In this year's Victory Loan the Finance Minister asked \$400,000,000 and the public subscribed \$673,000,000. When it turns out complete the total probably exceed \$700,000,000. This sum Toronto has raised \$60,000, and Ontario \$354,000, or more than one dollar for every dollar subscribed by all the provinces.

Mothers in California have given a few hours a day to the Victory Loan.

Heavy winter diversions have been put aside.

Sick children have been taken to the beach.

Young people have given up their

vacations to help the Victory Loan.

Some of them have subscribed

many times over.

The character of this achievement

is best realized when it is compared with what has been accomplished in other countries. The last Victory Loan in the United States was comparative failure. The last loan was far from successful.

Two loans issued in Australia were forced flotations.

That the people were compelled to chase according to their ability.

In more than doubly surpassing

the Victory Loan 1919 our

have once more demonstrated

the economic soundness and

wealth of this nation.

Verdict:—The Dominion

has done its duty.

this opinion at the first Canadian National Poultry Conference, held in Ottawa this year, the report of which has been published and is available at the Publications Branch of the Department of Agriculture at Ottawa.

It was strongly urged at that conference that this is the time of co-operation.

The provinces were recommended to co-operate with the Dominion as the great clearing house of operations calculated to promote the industry.

The poultry industry was recommended as a means of soldiers' re-establishment by Mr. W. J. Black,
