HIS LIFE RUINED BY DYSPESPIA

Until He Tried "FRUIT-A-LIVES" The Wonderful Fruit Medicine

MR. FRANK HALL, Wyevale, Ontario.

"For some two years, I was a sufferer from Chronic Constipation and Dyspepsia.

I tried every remedy I heard of without any success, until the wife of a food merchant recommended 'Fruit-a-lives'.

I procured a box of 'Fruit-a-lives' and began the treatment, and my condition commenced to improve immediately.

The Dyspepsia ceased to be the burden of my life as it had been, and I was freed of Constipation.

I feel that I owe a great debt to 'Fruit-a-lives' for the benefit I derived from them."

FRANK HALL, One box, 6 for \$2.50, trial size 25c. At all dealers or sent postpaid by Fruit-a-lives Limited, Ottawa, Ont.

Increase Your Grain Crops without extra land, labor or seed

It's purely a question of supply. Increase more—and better—crops. This is not theory. It is FACT.

Grain needs nitrogen or ammonia to grow the straw; Phosphoric Acid to hasten ripening and fatten the kernel; Potash to assist in the formation of protein.

These three plant foods in readily obtainable form—experience is the great teacher. There is no substitute.

Read them, the experience that scores of Farmers in all sections of Canada have had in greatly increasing their yields with Harab Davies Fertilizers.

Here is Where The Macartney Excels

15 Reasons for Selecting the Macartney Milk Machine

Read About Its Many Exclusive Features. It has the best type of test cup (double acting) and the best milking action of any double-acting test cup ever invented.

The rubber diaphragm in Macartney's test cup will last longer than the test cups of any other milk machine.

Macartney's milk machine has only one size of test cup, which fits any and all sizes of test cups.

The ends of the test cups are cast with rubber. The Macartney pulser has the most positive action of any pulser ever made.

It is the one absolutely simple and fool-proof pulser—only this is the working pulser.

The pulser is instantly collapsible from the lid so that the lid may be placed in water for washing.

Test Cup release air is not drawn through pulser—no milk, dirt or sterilizing solution can get into milking parts.

It is the biggest labor saver—no only saves you more milk from your cows, but actually takes less time, less labor and less expense for labor than any other milk machine.

There is more brains in the construction of the Macartney than is used in any other milk machine. The pulser has no valves. There are no cheap or inferior parts.
