When The Day Is Over

When the household cares and the worries of everyday life have dragged you down; made you unhappy, and there is nothing in life but headache, backache and worry turn to the right prescription; one gotten up by Dr. Pierce fifty years ago. Everything growing out of the ground seems intended for some use in establishing natural conditions. Dr. Pierce, of Buffalo, N. Y., long since found out what is naturally best for women's diseases. He learned it all through treating thousands of cases. The result of his studies was a medicine called Dr. Pierce's Favorite Prescription. This medicine is made of vegetable growths that nature surely intended for backache, headache, weakening pains, irregularities, and for the many disorders common to women in all ages of life.

An Important Announcement to the People of Markdale.

We have long realized the necessity of a good phonograph which would play ALL records CORRECTLY. We knew that when such a phonograph could be designed and produced to play properly any record, that it would immediately be the people's choice. That "Final Phonograph" has at last been produced and is being made in Canada. IT IS— The Brunswick "ALL PHONOGRAPHS IN ONE". NO LONGER need your selection of records be limited. The pleasure of hearing ALL ARTISTS may now be yours, through the possession of this ultimate phonograph made by the famous Brunswick-Balke-Collender Co., of 75 years experience in the world of craftsmanship. Among the many features that combine to raise the Brunswick above all other phonographs is the "ULTONA" reproducer which, by the mere turn of a handle, is adapted to any make of record, and the ALL-WOOD SOUND CHAMBER—built like a violin. We take pleasure in announcing to the people of Markdale that we have secured the representation of this "All Phonographs in One" and invite everyone to call and hear the true, natural tone which this musical instrument possesses. We will be glad to demonstrate any record on the Brunswick.
