ARE YOU DISCOURAGED?

Remember this: When Abraham Lincoln was a young man he ran for the legislature in Illinois, and was badly swamped. He next entered business, failed, and spent seventeen years of his life paying up the debts of a worthless partner.

He was in love with a beautiful young woman to whom he became engaged—then she died.

Later he married a woman who was a constant burden on him.

Entering politics again, he ran for Congress and again was badly defeated.

He then tried to get an appointment to the U. S. Land Office, but failed.

He became a candidate for the U. S. Senate, and was badly defeated.

In 1856 he became a candidate for the Vice-Presidency and was again defeated.

In 1858 he was defeated by Douglas. One failure after another, bad failures, great setbacks. In the face of all this he eventually became one of the country's greatest men, if not the greatest.

When you think of a series of setbacks like this, doesn't it make you feel kind of small to become discouraged, just because you think you are having a hard time in life?—Prætorian Guard.

Why it Pays to Buy Advertised Goods.

(By Seth Brown) Because the advertiser has done something to inspire confidence. He has not only explained the value and usefulness of his product, but has put his personality and reputation behind his statements.

He can be trusted, because his very business is at stake.

He believes in his goods to the extent of investing his capital, not only in making the goods right, but in advertising, which will not prove permanently profitable if he fails to make good—secure repeat orders.

The advertising is not only a protection to the trade name, but it is the advertiser's guarantee of quality.

You are justified in being suspicious of unadvertised goods, because, however much confidence the dealer and manufacturer may have in them, he has not enough faith in them to spend money in telling others of their goodness.

It always pays to buy advertised goods.
