High School Notes.

Last week Mrs. J. Dr. Sproule presented the High School with an "Atlas of Canada," a large map of Canada, and a map of the British Empire. Her gift is highly appreciated by the teachers and pupils.

Cadet Corps inspection will be held on May 11th at 4:30 p.m. at the Armouries. All friends of the boys are invited to be present.

The Department of Education is sending an expert on films to give a demonstration to the High School pupils and to the people of Markdale and vicinity of the education value of this new method of presenting knowledge to the young people, in

schools and colleges. At the Armouries on May 18th, at 8 o'clock. Eight films will be shown, among which the following: "A Glimpse of Muskoka," "Through Life's Windows," "Successful Farm Methods," "The Story of Paper," "Topical Events in Ontario," "The Gasoline Engine," "A Cartoon Comedy." Everybody come.

Methodist Church Notes.

Prayer Meeting at Mr. Wm. Arley's home Friday night.

The Epworth League a week ago last Monday night studied a portion of Matt. 20. The topic, "The Ambitious Life," was taken by Pearl Whitney, Kathleen Roche, Fer-

Raven and Lucile Stephenson, under the heading, Self-seeking Ambition, the Testimony of History, By-products and Pathetic Wrecks.

Mothers' Day will be observed next Sunday. A Mother's choir will lead the singing morning and evening. Mothers' of the congregation, who sing, are invited to choir practice on Friday night.

League meets next Monday night, May 10th. A temperance program is being prepared.

The W. M. S. meets at Mrs. T. Cook's on Friday afternoon.

A solo by Mr. J. Cook Cook at the evening service was very much enjoyed.

Audrey Foster and Clarence Ewing gave a blackboard review talk on the S. S. Lesson Sunday afternoon.

The Ebenezer Mission Band held their annual election of officers: Supt., Myrtle Freeman; President, Dell Brodie; Vice-Pres., Alma Sewell; Treasurer, Fred Taylor; Rec.-Sec., Irene Hutchinson; Cor.-Sec., Hilda Hutchinson; Organist, Evelyn Wiley. Mervyn Walker had the honor of having the most money in his mite box.

MELOTTE SEPARATOR

The keen farmer judges by results. Here is a proposition:

The Melotte Separator is placed on the market at a cost slightly above that of the average cream separator.

The Result

The Melotte has the largest sale in the British Empire, and an annually increasing one.

The Conclusion

If the price is above the average, the design, materials, workmanship and construction must be incalculably above the average; otherwise this enormous sale would be impossible.

The Secret

Lies in the fact that once installed, Melotte produces an increased yield of the best cream and butter throughout a life time of constant use with practically no further outlay for upkeep. Where other fail the Melotte makes good.

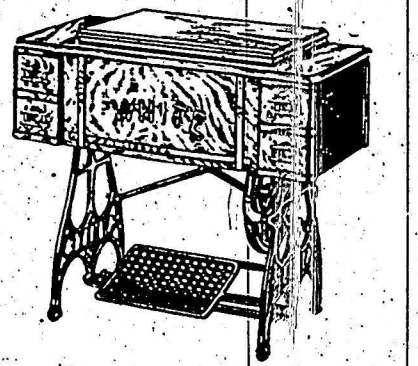

The original Melotte is sold by **J. A. CROWSTON**, Markdale.

AGRICULTURAL NOTES.

"Organization, cooperation, and education are going hand in hand throughout the agricultural districts of the country," is the opinion of W. J. Rutherford, Dean of the Saskatchewan College of Agriculture, who expresses the following in the Agricultural Gazette for January. He says, "Farming is not the independent self-contained occupation that it was a generation ago. Conditions have changed from the pioneer days, and production has not only to do with supplying the demands of the home but it must aim to create an export trade. Farming is a real business, successfully carried on by men and women who are not only skilful in the art and practice, but are versed in the science of agriculture. Farmers to-day are not content to know only how to grow good crops, they want to know also how to market them to good advantage. They are interested in the economic problems of their own communities and to a great extent in the problems of their customers in the city. Agriculture is both industry and commerce and affects both the rural and the city population. The agriculturalist of today is not merely a practical farmer but is necessarily a social worker. Rural communities have problems which require college trained men to solve."

The services that may be performed by the agricultural colleges in Canada in the up-building of a so-called rural spirit, as viewed by the presidents of these institutions, are graphically outlined in the January number of The Agricultural Gazette of Canada, published by the Department of Agriculture, Ottawa.

President Creswell of the Ontario Agricultural College considers the time has come when some attention should be given to demonstrations of the principles that have been proven by investigation. He says, "If then we

DR. PIERCE'S GOLDEN MEDICAL DISCOVERY

IN THE SPRING when you're "all in" - fagged out - blood thin, if you will turn to Nature's remedy, a tonic made from wild roots and barks, which has stood fifty years as the best spring tonic - you will find strength regained. No need to tell you it's Dr. Pierce's Golden Medical Discovery, put up in tablet form, and sold by every druggist in the land. After a hard winter - shut up indoors, your blood needs a temperance tonic, a tissue-builder and blood-maker such as this "Medical Discovery" of Dr. Pierce's.

SARINA LEE. "I was in a very bad condition. I could not eat without feeling distressed. Had indigestion so badly I was always in misery. I had liver trouble as well, and the two just put me down and out for about five years. I had many good doctors but got no relief. I took Doctor Pierce's Golden Medical Discovery and before I had taken two bottles I was much improved, and in less than six months I was well. I could eat anything and do my work with pleasure." - MRS. ANNE BARCOS, 226 Burand St.

can do these things, and at the same time know why' as well, and in addition give the lads a good working knowledge of English, both written and spoken then we should expect not only support and appreciation from our constituents, and our government, but we should look for the establishment of practical high schools as feeders to our agricultural colleges."

The school garden, as a feature of agricultural education is tending to become, as time goes on and its function is more fully understood, a permanent part of the school accommodation in Ontario," says J. H. Dandeno, Ph. D., in the Agricultural Gazette. He presents facts regarding the school gardens, showing hindrances, and difficulties encountered, and indicates the trend of the movement in following photograph.

"The number of schools undertaking school garden work in Ontario is increasing steadily year by year as indicated from the following figures: - 1914, 208; 1915, 222; 1916, 324; 1917, 466; 1918, 588; and 1919, 700 (approx.) Most of these gardens form a part of the regular school property, but, as might be expected, there is a considerable number of gardens on land secured only temporarily. It should be said to the credit of the farmers that in very many cases the land was loaned to the school board free of charge. The spirit shown in such acts as these demonstrates more than words the trend of the school garden movement."

FLIES!

Flies breed in filth; feed upon filth, and carry disease. Flies may carry upon body and legs the germs of typhoid fever, tuberculosis, pneumonia and many other diseases.

Flies crawl over garbage, wade thru sewage and filth and go swimming in the gutter. These same flies the next hour crawl over your cake, wade through your soup and take a bath in your milk; you eat and drink the dirt and germs that these impudent pests wash from their dirty feet.

A fly in the home is as much to be feared as a rattlesnake; the rattlesnake gives warning; the fly does his deadly work quietly.

All food should be carefully screened so that flies cannot crawl over it. Windows should be screened so that flies cannot enter the home and sow the seeds of disease and death. Flies are enemies of babyhood and we should kill flies in order to help conserve human lives.

Premises should be kept clean so that flies will not find breeding places. Garbage piles should be kept covered.

The health and recreation clubs should be the first groups of boys and girls to fight flies as soon as these dangerous pests arrive in the spring. The school nurses will talk to the pupils about flies and how they spread disease; and the teachers will help to enroll a great army of boys and girls in the battle against the dirty, dangerous, disease-spreading fly.

One fly killed early in the spring will mean several million flies by summer time.—The Metropolitan.

GRAND ORANGE LODGE.

The Orange Grand Lodge of Ontario West completed its sessions in Markdale on Thursday, April 22, when the election of officers was held resulting as follows: Grand Master, L. Col. D. Sharp, Welland; Deputy Grand Master, A. A. Gray, Toronto; A. D. G.M., Jno. Bailey, Walkerville; Grand Chaplain, the Rev. H. W. Snell, Wingham; Grand Secretary, W. M. Fitzgerald, Toronto, (re-elected); Assistant Grand Secretary, J. Cook, Meaford, (re-elected); Grand Treasurer, J. F. Harper, Hamilton, (re-elected); Grand Lecturer, Norman Johnson, Toronto; G.D.L., J. Walker, Toronto; Director of Ceremonies, J. Weatherhead, St. Catharines; Deputy Grand Chaplain, the Revs. John Coburn, Midland; A. A. Trumper, Exeter; R. White, Chapeau; J. M. Whitelaw, Hagersville; W. T. Noble, Port Carling; R. Brown, Toronto; J. V. Holmes, Sighampton; C. C. Kaine, Cottam; J. W. Hubbert, Essex; J. A. Evans, Troy; H. A. Fish, Toronto; A. Richardson, Markdale; T. L. Armstrong, Sebringville; W. A. Morrison, Gravenhurst; H. A. Berlis, Toronto; Gilbert Comm, Pine River; Canon Dixon, Toronto; Wm. Morris, Orangeville; J. A. Richardson, Toronto; J. Braoken, Hamilton; W. H. Graham, Stratford; H. B. Ashby, London; Wm. Lowe, London; Auditors, W. H. Taylor, Aurora and J. C. Moon, Mount Forest.

The Grand Lodge of the Ladies' Orange Benevolent Association which met in the Council Chamber at the same time as the Orange Grand Lodge, elected the following officers: Right Worthy Grand Mistress, Mrs. F. Burrows, Hamilton; R.V.D.G.M., Mrs. Boston, St. Catharines; J.D.G.M., Mrs. Davidson, North Bay; R.W.G.C., Mrs. Weston, Hamilton; R.W.G.S., Mrs. L. Rowe, Toronto; R.W.G.T., Miss M. Cahill, Toronto; A.D.S., Mrs. Vimey, London; R.W.D.C., Mrs. Clark, Cobalt; R.W.G.L., Mrs. Stone, Thorold; R.W.G.D.L., Mrs. Gardner, North Bay; Auditors, Mrs. Short and Mrs. Scott, Toronto. A presentation was made to Mrs. J. Gordon, of Toronto, of a handsome silver tea service, she being the retiring Grand Mistress. The association will meet at Niagara Falls, at the same time as the other Orange bodies.

MRS. T. ANDERSON

Death occurred April 21st, at her residence, west back line, Berkeley, where she had lived the last 50 years.

Mrs. Anderson was in her 88th year coming from Ireland to Canada with her husband and a small family, when that part of the country was a forest. She was a member of the Church of England, and was highly respected by all who knew her. Her husband predeceased her fifteen years ago. She is survived by son and daughter, Thomas and Annie, Robert of Radisson, Sask., Mrs. Murray, Newdale, Man., and Mrs. Clayton of Toronto.

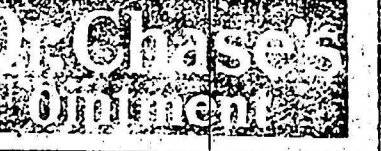

Applied After Shaving

Keeps the Skin Soft and Smooth

MANY men suffer from irritation of the skin as a result of shaving. With some it assumes a form of eczema and becomes most annoying and unsightly.

By applying a little of Dr. Chase's Ointment after shaving the irritation is overcome and such ailments as Barber's Itch and Eczema are cured.
