40 MILLION DEATHS DUE TO WORLD WAR

12,000,000 WERE LOST ON THE BATTLEFIELDS.

Birth Rate Decline Represents Thirty-Eight Per Cent. of Normal.

Forty million persons are dead to-day who would have been alive had there been no World War, says a London dispatch. That is the announcement of the Society for the Study of the Social Consequences of the War, a scientific organization, which has just issued a report on the human war toll.

The report is based on exact material obtained from the Central Statistical Office, Italy and Great Britain, and on the populations of 60 countries of those engaged in the war. It was impossible to secure figures from the smaller states, especially from Russia, and the report is therefore in small part based on calculations conducted from the reports for other countries.

In these cases the calculations are based on the population of the countries at the end of the last year, and at the beginning of the year following. It is a method of inquiry into the population of the six countries, including the United States, of the four small belligerent states, Bulgaria, Roumania, Greece and Portugal, and the report gives not only the number of casualties, but the decline in the birth rate and the rise in the death rate.

The report shows that the war has had a serious effect on the population of the countries. In the United States, the birth rate rose from 20,250,000 in 1914 to 25,350,000 in 1918, while the death rate fell from 1,500,000 to 1,000,000.

In the United Kingdom, the birth rate fell from 1,500,000 in 1914 to 1,200,000 in 1918, while the death rate rose from 1,000,000 to 1,500,000. In France, the birth rate fell from 1,500,000 to 1,200,000, and the death rate rose from 1,000,000 to 1,500,000.

In Germany, the birth rate fell from 1,500,000 to 1,200,000, and the death rate rose from 1,000,000 to 1,500,000. In Italy, the birth rate fell from 1,500,000 to 1,200,000, and the death rate rose from 1,000,000 to 1,500,000.

In the United States, the birth rate rose from 20,250,000 in 1914 to 25,350,000 in 1918, while the death rate fell from 1,500,000 to 1,000,000. This is due to the fact that the war has had a stimulating effect on the birth rate in the United States.

The report also shows that the war has had a serious effect on the population of the countries. In the United States, the birth rate rose from 20,250,000 in 1914 to 25,350,000 in 1918, while the death rate fell from 1,500,000 to 1,000,000.

In the United Kingdom, the birth rate fell from 1,500,000 in 1914 to 1,200,000 in 1918, while the death rate rose from 1,000,000 to 1,500,000. In France, the birth rate fell from 1,500,000 to 1,200,000, and the death rate rose from 1,000,000 to 1,500,000.

In Germany, the birth rate fell from 1,500,000 to 1,200,000, and the death rate rose from 1,000,000 to 1,500,000. In Italy, the birth rate fell from 1,500,000 to 1,200,000, and the death rate rose from 1,000,000 to 1,500,000.

The report also shows that the war has had a serious effect on the population of the countries. In the United States, the birth rate rose from 20,250,000 in 1914 to 25,350,000 in 1918, while the death rate fell from 1,500,000 to 1,000,000.

In the United Kingdom, the birth rate fell from 1,500,000 in 1914 to 1,200,000 in 1918, while the death rate rose from 1,000,000 to 1,500,000. In France, the birth rate fell from 1,500,000 to 1,200,000, and the death rate rose from 1,000,000 to 1,500,000.

In Germany, the birth rate fell from 1,500,000 to 1,200,000, and the death rate rose from 1,000,000 to 1,500,000. In Italy, the birth rate fell from 1,500,000 to 1,200,000, and the death rate rose from 1,000,000 to 1,500,000.

Models for the Home Dressmaker.

5504 - Ladies' Two-Piece Skirt-
Blouse, 25 cents. In 6 sizes, 24 to 34
inches waist. Size 26 requires 2 1/2 yds.
inches wide, or 2 1/2 yds. 48 inches wide,
with 1 1/2 yds.
5523 - Ladies' Three-Piece Skirt (97
inches length from waistline),
25 cents. In 6 sizes, 24 to 34
inches waist. Size 26 requires 3 1/2 yds.
inches wide, or 2 1/2 yds. 54 inches wide,
with 1 1/2 yds.
These patterns may be obtained
from your local McCall dealer, or
from the McCall Co., 70 Bond St.,
Toronto, Dept. W.

Waiting.

rene. I fold my hands and wait.
Nor care for wind, or tide, or sea;
I have no more 'gainst time or fate,
For, lo! my own shall come to me.
I stay my haste, I make delays,
For what avails this eager pace?
I stand amid the eternal ways,
And what is mine shall know my face.

sleep, awake, by night or day,
The friends I seek are seeking me;
A wind can drive my bark astray,
Nor change the tide of destiny.
What matter if I stand alone?
I wait with joy the coming years;
I heart shall reap where I have sown,
And garner up its fruit of tears.

te waters know their own and draw
The brook that springs in fountains
of light;
It flows the good with equal love
Into the soul of pure delight.
It stars come nightly to the shore,
The tidal wave unto the sea,
For time, nor space, nor death, nor
light
Can keep my own away from me.
—John Burroughs.

Greasy pans or saucepans
could be kept white with plenty of
this paper which still retains all
it absorbs every particle of grease,
and will be useful for lighting the fire
at mornings.

"English Spoken Here"

Acquiring a working knowledge of
the German language presents a
practical problem to the thousands of
British soldiers who, for one reason
or another, are picked for duty in the occu-
pied area of Germany. One of them,
writing in "The Daily Mail," writes:
"There are two approved methods
of grappling with the Teuton tongue.
The official method is to attend the
classes held by the Rhine Army Educa-
tional College. The unofficial method
is to put one's self in the hands of
a private tutor.
"A conversational knowledge of
German is very useful, and leads to
pleasant things. For ordinary inter-
course with civilians it is also ad-
vantageous, as even in the biggest
shops in Cologne it is the exception
and any one speaking English. Cer-
tainly several of them display the
legend, 'Here English Spoken!' but this
is to be taken on trust.

The "Half-Bagani,"
of the Philippines, apparently, it
is a custom to base your position in
the number of men you
killed. If you have slain five, or
ten, you become a "Half-Bagani"
and are entitled to wear a fancy dress
every day in the week. If
you kill the magnificent record of
them, you are a full Bagani and
wear a still fancier dress costume.
Since the American occupation,
however, the number of candidates for
Bagani distinctions has very rapidly
decreased, and it is only in the re-
mote interior places, nowadays, that
one ever catches a glimpse of the
honorable scarlet.

Whale's Teeth as Money.
Whales' teeth pass as currency in
the Fiji Islands. They are painted
white and red, the red teeth being
worth about twenty times as much as
the white.

Buy Thrift Stamps.

Love.
God scatters love on every side,
Freely among his children all.
And always hearts are lying open wide
Wherein some grains may fall.
—Lowell.

NEURALGIA AND SCIATICA Caused by Starved Nerves Due to Weak, Watery Blood.

People generally think of neuralgia
as a pain in the head or face, but
neuralgia may affect any nerve of the
body. Different nerves are given to it
when it affects certain nerves. Thus
neuralgia of the sciatic nerve is called
sciatica, but the character of the pain
and the nature of the disease is the
same. The cause is the same, and the
remedy, to be effective, must be the
same. The pain of neuralgia, whether
it takes the form of sciatica, or whether
it affects the face and head, is
caused by starved nerves. The blood,
which carries nourishment
to the nerves, for some reason no longer
does so and the excruciating pain
you feel is the cry of the starved
nerves for food. The reason why the
blood fails to properly nourish the
nerves is usually because the blood it-
self is weak and thin.

When you build up your thin blood
with Dr. Williams' Pink Pills, you are
attacking neuralgia, sciatica and kindred
disorders at the root. As proof
of the value of these pills in cases of
this kind we give the statement of
Mrs. Thomas McCulloch, North Malden,
Ont., who says: "I have been a severe
sufferer from sciatica, which attacked
the sciatic nerve in the left leg. At
times the pain was most excruciating
and as a result of the trouble there
was a distinct shrivelling of the leg. I
could only hobble about by using a
cane, and it I attempted to walk to
the fields I would have to sit down
every little while to ease the agony
I felt. I was under medical treat-
ment, but as there was no improve-
ment shown, I was getting very des-
pondent, as the trouble was affecting
my general health. Finally a friend
advised me to try Dr. Williams' Pink
Pills faithfully for several months,
finding a gradual and increasing im-
provement in my case, until finally
every vestige of the trouble had gone,
and I was again enjoying the blessing
of good health and freedom from pain.
What Dr. Williams' Pink Pills did for
me seems almost a miracle and I hope
that my experience may benefit some
other sufferer."

If you are suffering from any ailment
due to weak blood, a small bottle of
Dr. Williams' Pink Pills will be found
at once of the splendid home treat-
ment which Dr. Williams' Pink Pills
so easily afford, and you will be among
those who rejoice in regained health.
These pills are sold by all dealers in
medicine, or may be had by mail at
50 cents a box or six boxes for \$2.50
by writing The Dr. Williams' Medi-
cine Co., Brockville, Ont.

An Island of Sulphur.

There is an island in New Zealand
nearly the size of the island of
Sulphur, which is almost entirely
composed of sulphur, mixed with gypsum and a few
other minerals.

A piece of old velvet is an ex-
cellent substitute for chamois leather
for all polishing purposes, and is much
cheaper.

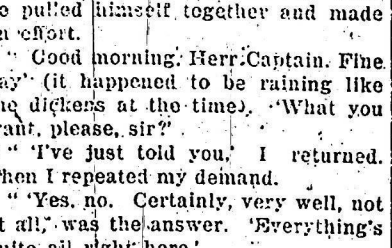

Thus the other afternoon I went
into a large emporium to purchase
birthday gifts for loving hands at
home. My German not being com-
pletely understood (sheer impudence,
this) the "house interpreter" was sum-
moned.
"When I inquired if he could send
articles to London and manage the
customs formalities he blinked help-
lessly through his spectacles. And he
putted himself together and made an
effort.
"Good morning, Herr Captain. Fine
day" (it happened to be raining like
the dickens at the time). "What you
want, please, sir?"
"I've just told you," I returned.
Then I repeated my demand.
"Yes, no. Certainly, very well, not
at all," was the answer. "Brerthing's
quite all right here."
"I gave up the unequal contest, and
the 'interpreter,' looking more fright-
ened than ever, hastily took cover be-
hind a showcase."

Instead of tea or coffee a cup of that healthful beverage

BITS OF HUMOR FROM HERE & THERE

There Was Hope.
Aged Aunt, despondently—"Well, I
shan't be a nuisance to you much
longer."
Nephew, reassuringly—"Oh, don't
talk like that, Auntie; I'm sure you
will."

Lesson in Business.
"Yes, my son."
"What is a gardener?"
"A gardener is a man who raises a
few things, my boy."
"And what is a farmer?"
"A man who raises a lot of things."
"Well, what is a middleman, Pop?"
"Why, he's a fellow who raises
everything."

A Pertinent Question.
A young minister away from home
went for a shave. The barber was
talkative, and showed a friendly inter-
est in the stranger, who was not dress-
ed in clerical attire. "Stranger here,
what you?" "Yes." "Travelling man?"
said the barber. "No," said the min-
ister. "Don't live here, do you?" "No."
"Where are you staying?" "Over at
X—." "Whatcha doin' over there?"
"I'm supplying the pulpit," said
the parson. "Supplying the pulpit?"
asked the barber, who had never heard
this phrase before. "What with?"

WHEN BABY IS SICK

When the baby is sick—when he
is cross and peevish; cries a great
deal and is a constant worry to the
mother—he needs Baby's Own Tablets.
The Tablets are an ideal medi-
cine for little ones. They are a gen-
tle but thorough laxative which regu-
lates the bowels, sweetens the stomach,
brings constipation and indigestion,
break up colds and simple fevers and
make teething easy. Concerning them
Mrs. Philippe Payson, St. Flavian, Que.,
writes: "Baby's Own Tablets have
been a wonderful help to me in the
case of my baby and I can strongly re-
commend them to other mothers." The
Tablets are sold by medicine dealers
or by mail at 25 cents a box from The
Dr. Williams' Medicine Co., Brockville,
Ont.

A Good Excuse.

The excuses offered by schoolboys
are often laughable, perhaps none
more so than those of two pupils of a
country school, for being late. Asked
why he didn't come when he heard the
bell, one boy said: "Please, sir, I was
dreaming I was going to California,
and I thought the school bell was the
steambell I was going on."
"You did, eh?" said the teacher.
"And now sir, (turning to the second
boy), 'what have you to say for your-
self?'"
"Please, sir, I—I was just waiting to
see Tom off," stammered the other.

A Health Saving Reminder.

Nothing Lost.

"My darling," said a fond mother,
who believed in appealing to children's
tender feelings instead of punishing
them, "if you are so naughty you will
grieve mamma so she will give you
and have to lie in bed in a dark room
and may die and have to be taken to
the cemetery and be buried, and you
—." The child had become more
solemn, but an angelic smile over-
spread his face at his mother's last
words, and, throwing his arms about
her neck, he exclaimed: "Oh, mamma,
and may I sit beside the driver?"

France Repairing War's Ravages.

What labor can accomplish if in-
spired by the patriotic desire to re-
construct its wrecked homeland sup-
ported by an efficient system is shown
by the figures issued by the French
Government in connection with the
work done on the railroads in the
north of France since the armistice.
On armistice day more than 1,800
miles of railroads, including every
bridge, tunnel, station and workshop
were completely destroyed, but to-day
communication over all these lines has
been re-established.
The Germans wrecked more than
600 railway bridges, of which 475 have
been reconstructed, while 80 more will
be completed this month. Five great
viaducts, from 50 to 75 feet high and
300 yards long, destroyed by explo-
sives, have been repaired, as well as
the tunnels of Vauxhallon, Lafere and
Guise, which were blown up by the
departing enemies.

ASTHMA

If you have Asthma, don't
imagine that you must al-
ways suffer untold misery.
Relief quick, sure and safe
is guaranteed to you in
the worst cases by using

TEMPLETON'S RAZ-MAH CAPSULES

sults you will send post a
free sample of these cap-
sules, confident that you
will find them all we have
claimed. Write to Tem-
pleton, 112 King St. W.,
Toronto.
Sold by reliable druggists
everywhere for 25c a box.

Blinded Soldiers Publish Magazine.

A magazine for the blind which may
possibly become one of the foremost
Braille periodicals of the world, is
being printed once every two weeks
by a group of blinded and badly dis-
abled soldiers in the Phare du France
(Lighthouse of France), according to
the annual report of the committee
which has just been made public. The
output of the plant for the last year
was 3,865 books in Braille, 200 copies
of English magazines and 8,400 of La
Lumiere (The Light), the magazine for
the blind.
Miss Winifred Holt, who founded
the committee and has been directing
the reeducation work among blinded
soldiers in France for the last five
years, describes the workings of the
plant in the annual report.
The staff includes a proofreader who,
aside from being blind, is deaf, has
only one leg and all but the index fin-
ger of one hand being amputated. An-
other proofreader suffered head
wounds in battle which physicians
declare will never heal. The book-
binder is deaf and one legged.

output of the plant for the last year
was 3,865 books in Braille, 200 copies
of English magazines and 8,400 of La
Lumiere (The Light), the magazine for
the blind.
Miss Winifred Holt, who founded
the committee and has been directing
the reeducation work among blinded
soldiers in France for the last five
years, describes the workings of the
plant in the annual report.
The staff includes a proofreader who,
aside from being blind, is deaf, has
only one leg and all but the index fin-
ger of one hand being amputated. An-
other proofreader suffered head
wounds in battle which physicians
declare will never heal. The book-
binder is deaf and one legged.

Blinded Soldiers Publish Magazine.

A magazine for the blind which may
possibly become one of the foremost
Braille periodicals of the world, is
being printed once every two weeks
by a group of blinded and badly dis-
abled soldiers in the Phare du France
(Lighthouse of France), according to
the annual report of the committee
which has just been made public. The
output of the plant for the last year
was 3,865 books in Braille, 200 copies
of English magazines and 8,400 of La
Lumiere (The Light), the magazine for
the blind.
