

## THE MARKDALE STANDARD

WEDNESDAY, AUGUST 11th, 1926.

## THE NEW TAX

The stamp tax on patent medicines, toilet preparations, and numerous other articles has been removed. On the other hand, Government taxes have recently been imposed on all manufactured goods. A manufacturer selling to another manufacturer is required to collect one per cent. A manufacturer selling to a consumer must collect two per cent. Thus every job of printing executed in a printing office now carries with it a Canadian tax of two per cent.

## MAKE SURE AND PLENTIFUL

After all the years of joint visits to these days are by no means over. A very large proportion of the money expended by the various firms in town is in the laundry. Laundry operators had to struggle against lower prices. In present day times, however, small laundry operators are compelled to get prices up, and because of the heavy cost of labour, they can't be competitive. This would mean the same annual expenditure for the community as when it was around six cents per pound, which when it first came was generally thought to be too much.

The roads are exceptionally rough this summer. The heavy rains during July had something to do with this condition but a close observation of the passes along the highway will readily reveal the chief cause, viz., choked watercourses. If the roadway is kept well rounded and ditched, care so as to prevent the water from running on the road, we would have less to complain about in the matter of rough roads.

## GLEANINGS

Then E. C. Biggs, minister of highways in Ontario, has announced that the motor license will be raised for 1927.

The wealthy attorney, who shot and killed his son, as a result of a bullet received in the shooting of his son, John Green, another son, John, has fled to Waterton, Alberta.

It is a common conclusion that we will be having feeding events with relatively large quantities of food being served.

Orders for banner check books are being satisfactorily filled right along by the Standard and better places than check book made.

## NEWS FROM SURROUNDING TOWNSHIPS

BY STAFF REPORTERS

## BLANTYRE

(Special to The Standard.) Mr. W. Ferguson raised the straw shed on Friday. Mrs. F. Gott, of Ephing, visited Mr. and Mrs. S. Boyd the first of the week. Mr. and Mrs. G. L. Smith, of Valour, had a gang of men roofing barns in their locality.
