

THE MARKDALE STANDARD

EDITORIAL NOTES

Owen Sound weather man reports a 6 1/2 inch snow fall this winter. Some scenery elty.

Meaford papers will be two dollars a year beginning the 1st of February. Durham papers have already raised to that price. The Standard remains at \$1.50, if paid in advance; otherwise \$2.00.

Edton's recent list of goods at bargain prices quotes printed butter wraps \$3.11 at \$2.25 for a quarter thousand sheets. This is the price. The Markdale Standard has been charging for six months back.

A pessimist closes one eye, wrinkles his face, draws up the corner of his mouth and says: "It can't be done." An optimist has a face full of sunshine. He beams at you and says: "It can be done" and then lets Bill do it. But a "popt-mist" takes off his hat, rolls up his sleeves, goes to it, and does it.

USE OF LIBRARIES

The "Ontario Library Review" says: The public library is a great source of happiness. It widens the horizon of the people. It is a store for provincialism and narrowness of the mind and vision. It is the continuous school of the people. It brings boys and girls into contact with the great books that belong to them. It furnishes a recreative reading to many, where boys would be dull without it. Do we make as good use of the Public Library as we might?

BUNDALK IS HIGHEST STATION

Dundalk enjoys the distinction of being the highest railway station in the province of Ontario. It is 1705 feet above sea-level, which, though not as high as some, Mountain Park and Stephen for instance, is still fairly well above water. The other provincial top points with their heights are: Nova Scotia, Colleigh, 612 feet; New Brunswick, Adams, 1204 feet; Prince Edward Island, North Wiltshire, 214 feet; Quebec, Bonduy, 1450 feet; Manitoba, Erickson, 2053 feet; Saskatchewan, Seneca, 3171 ft.; Alberta, Mountain Park, 5820 feet; British Columbia, Stephen, 5222 feet; Yukon, 2924 feet.

PRaises THE BIBLE

This book contains the mind of God, the state of man, the way of salvation, the doom of sinners, the doctrines are holy, its precepts are binding, its histories are true, and its decisions are immutable. Read it and be wise, believe it to be safe and practice it to be holy. It contains light to direct you. It is the traveller's map, the pilgrim's staff, the pilot's compass, the soldier's sword, and the Christian's staff. Here paradise is restored, heaven opened, and the gates of hell disclosed. Christ is its grand object, and his love its design, and the glory of God its end. It should fill the memory, rule the heart, and guide the feet. Read it slowly, frequently and prayerfully. It is a mine of wealth, a storehouse of grace, and a river of pleasure. It is given you in life, will be sealed to the indignant, and will be sealed for ever. It involves the "widest" responsibility, will reward the earnest labor, and will condemn those who turn within sacred curtains.

LOSES GREAT BENEFACTOR

In the death of Sir William Gage last Friday, Ontario loses a philanthropist, who spent his means and his time with great generosity for the relief of his fellow-men, who have been suffering from the ravages of consumption. More than a quarter of a century ago he sought the co-operation of others in forming an association for the care of consumptives, and by his persistent and persuasive zeal, he placed the National Sanitarium Association upon a sound and lasting basis. He himself would regard the money which he lavished on the cause, as the least part of his efforts, for he devoted to its success the same sagacity and forethought, which characterized his business undertakings. Both in Muskoka and Toronto the institutions, which he was instrumental in developing, have done much for the prevention of disease and the promotion of health. His great services to humanity will remain as a monument to his conviction of his duty to his fellow-men.

A re-count re the Mayoralty election in Collingwood resulted in an increase in the Mayor's majority from 70 to 77. A muddle was caused by appointing new and inexperienced deputy-returning officers.
