RURAL CO-OPERATION

Growth of the Principle in Our Own Province.

Live Stock Sales and Egg, Fruit and Wool Marketing—Much Done Through Farmers' Clubs in the Local Government Aids.

The growth of rural co-operation in the Province of Ontario during the past year has been a most interesting phenomenon.

Five years ago there were practically no Live Stock Sales Clubs in the Province. At the present time there are three and four hundred similar organizations.

The second important development in the province is that in connection with Egg Marketing. The year previous to this there were about 100 active Egg Circles in the province.

The co-operative marketing of wool was continued last year through the Ontario Sheep Breeders' Association and the Canadian Co-operative Wool Growers' Limited.

A large proportion of the co-operative work in the province is carried on through incorporated farmers' clubs, of which there are some twelve or thirteen hundred in the province.

With the increase of business and the consequent larger financial transactions, the number of farmers' clubs have increased.

There are other organizations in the province which do not actually carry on business, but whose work is one phase of co-operative endeavor.

A great deal of preliminary work has been done by the Department during the year in connection with the production of pure seed, more particularly of potato seed in Northern Ontario.

IN-MEMORIAM

In loving memory of Mary, Elizabeth Ward, wife of Alexander Ward, Amids the foil of life.

One day the Saviour came, And from our midst he took His loved one to dwell with Him in rest.

We miss her more than words can tell, but in as much as it pleased God To take her from us that tender love, While the tears we cannot stay Fall from our weeping eyes.

There is one calm and sweet refrain, That the love light will a left those eyes. And left us but the day, Shall in Heaven be return.

Inserted by husband and family.
