Your Feelings

BY H. ADDINGTON BRUCE.

There are numerous people who
would profit innumerable ways by
adopting the point of view of the
philosopher who refused to allow any-
body to hurt his feelings.

If a person doesn't mean to be in-
sulting, "he explained, "and is simply
thoughtless and tactless, it would be
foolish narrow minded to put a
wrong construction on his words and
be aggrieved and resentful because of
them.

"And if a person does mean to be
insulting and does want to hurt one's
feelings, why give him the satisfaction
of realizing his desire."

If this sage view were given general
adoption, there would be far fewer
men perpetually out of work because
of a "sensitivity" that impels them
to quit their jobs whenever anybody
says anything to them that they do
not altogether like.

Our prisons would have fewer oc-
cupants if the class herdred in them
for crimes of violence due to passion
for revenge.

And parlorians poor deluded
grande-maurs maniacs would not
add to the maintenance cost of our
households for the insane to anything
the extent they do to day.

As for society in general, it would
be an immensely happier more con-
nected, more prosperous and efficient
collegetion of individuals than it now
is.

Canada's Maple Products

The manufacture of sugar and
syrup from the sap of the sugar maple
is an important farm industry in
the Eastern Provinces of Canada, and
particularly in Quebec. Long before
the white man settled the country,
maple syrup was known to the aborigines
and their name for the wild honey
was the only intensely sweet product
at their command. The methods of
producing it were naturally of a very
simple description. Modern methods
have greatly improved the product
and have led to an ever increasing de-
mand. Quebec province is the centre
of the industry. Of the 20,000,000
pounds, or thereabouts, produced an-
nually in Canada, more than two
thirds have to be credited to Quebec.
Ontario is officially reported to be re-
sponsible for five million pounds, and
the Maritime Provinces, forty-half-a
million pounds only. The other prov-
inces of Canada do not figure in the
calculations. These facts are gathered
from a timely pamphlet just issued
by the Department of Agriculture at
Ottawa, of which J. B. Spencer, Director
of Publicity, is the author. From this
well illustrated and technically
detailed publication it is also learned
that the production of maple sugar
and its equivalent in syrups, of late
years has shown a tendency to de-
crease. From 1851 to 1861 we are
told that the average yearly produc-
tion was about 13,500,000 pounds;
from 1861 to 1871 about 17,500,000
pounds; from 1871 to 1881 19,000,
000 pounds; and from 1881 to 1891
22,500,000 pounds. The latter was
the pinnacle of annual production,
but in the next decade the average per
year was 21,200,000 pounds; and in
later years the average has been a
little less than 20,000,000 pounds. It
is thought that perhaps with the in-
crease in price that is taken place
recently, greater production may be
looked for. It is estimated that the
value of the yearly manufacture of
maple sugar and syrup is \$2,000,000
and that 50,000 people are employed
in the industry at the height of the
season, which is of very short duration,
extending over only five or six weeks at the most. Stringent laws
against the adulteration of the prod-
uct have been passed, especially in
Quebec, where schools of instruction
have been established and the Pure
Maple-Sugar and Syrup Co-operative
Agricultural Association has been or-
ganized.

Meaford Business man Retiring.
Mr. R. S. Godfrey, proprietor of
possibly the oldest grocery store in
Meaford will retire from business
shortly. The business was established
in 1883 by Mr. E. V. Godfrey. The
management was taken over by Mr.
R. S. Godfrey about thirteen years
ago, and it has been conducted suc-
cessfully and to the satisfaction of
his customers. Chapman Bros. are
removing to the Godfrey store.

Make Father Support Child
Ontario Government Plans to End
Double Morality Standard
The Ontario Government has a bill
already drafted, which will make the
fathers of illegitimate children joint-
ly responsible for their support. A
deputation representing various social
agencies in Toronto waited upon the
Government and were somewhat surprised when told that legislation
was almost ready to carry out one of
their principal recommendations. They
were met by Attorney-General
Runey, Hon. Walter Rollo, and Provincial
Secretary Nixon, Mr. Stapleford,
who presented the case, said the
principal underlying the recom-
mendation was to eliminate the
double standard of morality, which
leaves the burden of caring for illegitimate
children on the mother or on the public.
He also stated that from estimates made by social workers
there were in the neighborhood of from 400 to 500 of these children
brought into the world in Toronto
yearly. The deputation also asked
that a deputy minister of labor be ap-
pointed who has proper qualifications
in the way of social service training
and experience and that an advisor
board be appointed under the chair-
manship of the Deputy Minister of
Labour composed of various representa-
tives from all the social agencies
to serve in a voluntary capacity.

MISTAKES
When a plumber makes a mistake,
he charges twice for it.

When a lawyer makes a mistake,
it's just what he wanted because he
has a chance to try the case all over
again.

When a carpenter makes a mistake,
it's just what he expected, because
chances are ten to one he never learned
his trade.

When a doctor makes a mistake he
burries it.

When a judge makes a mistake, it
becomes the law of the land.

When a preacher makes a mistake,
nobody knows the difference.

When an electrician makes a mis-
take, he blames it on induction; no
body knows what that is.

When an editor makes a mistake,
Good Night!
