In Feeling Blue.

Among the selfish, expensive and superfluous luxuries, what are commonly known as "the blues" take high rank. If we call the halt and take the time to do so, any of us can think of all sorts of dismal things that are really or supposedly the matter with us.

But what's the use? What good does it do? Half the time, when we tell a hard-luck story, we are telling it to some one who has ten times as good a reason to complain.

It's not interesting or flattering to realize when we're low in our minds that it may be because we're imprudently, or sleep too little, or let trifles light as air fret us, or bribe some one of Nature's wise and well-established ornaments.

Just as miserable in a schoolroom or lassitude in an audience may be due to bad air, so mental depression may be the result of a regimen of life that is awry.

It's very easy to poke fun at the conventions and kick over the traces of sleep and temperance, and three meals a day at regular hours.

It's easy to decry decency and regularity as stupid. But there's a reason. The people who complain that their own nerves torment them and that life is hard and fate is cruel against the people who have worked hard, lived soberly and obeyed the rules.

They are the people who say they were having "the time of their lives" which really meant they were throwing away "the time of their lives" the previous time, which is all that any of us has to live on.

You do not hear the workers complain of the petty things that seem to bother the idlers. The workers have no time to entertain their pains and grievances as if these were flowers. The workers are busy "carrying on" in place of those who stop and sit down to examine the bruises and coddle themselves.

Some friends of the world are regarded as towers of strength needing no buttress and fountains of sympathy. If those who depend on them but knew these apparently glorious and limitless human beings often cry from the agony of the heart to open space for reinforcement and refreshment. They feel their weakness and emptiness.

But they do not visit their discouragement, their sense of failure, or their plague of nerves upon their fellows. They keep their hearts for other hearts; their faces shine; they are a blessing where they stand and as they move.

It is what we feel for others, not how we feel in ourselves, that matters. Every new invention of the astronomer's observatory enlarges the distance he can peer into space and measure its receding boundaries, so that one can never say which is the farthest star.

But we can say which is at the farthest distance measured. This honor is at present borne by a tiny blur of light which has no name, and a few years ago not noticed, but which is now identified in the New General Catalogue of stars as Number 7,006—or, more precisely, N.G.C. 7,006. It is not really one star, but a great flock of stars, probably containing more than the equivalent of a quarter of a million of our suns; and it is so far away that it some unknown astronomer could flash a light signal at us from one of the suns or planets there, it would be nearly a quarter of a million years before that message could reach us.

NURSES

The Toronto Hospital for Incurable Diseases, 21th Bellevue and 22th Hospital, New York City, offers a three-year course of training for young women. The course includes general education and technical training in nursing. The hospital has a reputation for high standards of nursing education and for the high quality of its nursing staff.

Is Canada to Bar the Door?

Labor leaders and the Labor Press have been busy at Ottawa for some time. The Labor Press members of the world have followed the Canadian door to the United States. The Canadian door is not so new a problem. Many of the Canadian have been coming to the United States for the past twenty years. They are in the United States for a variety of reasons. Some are in the United States for a variety of reasons. Some are in the United States for a variety of reasons.

people, who speak his language, which is most essential during the time that he is learning the English language and the local situation. "If the opportunities on the farm are greater than those offered in the city, and the immigrant will find it out and act accordingly," says Mr. Bennett.

Mr. Bennett, asks the question should anyone blame the newly arrived immigrant for going to the place where he has no opportunities, a place of worship, and a place of help and aid for him to get the right start in a new land. If he cannot speak English, he has an opportunity in the first few months to gain a wider knowledge of Canadian conditions from people of his own birth who are always to be found in the cities and towns. If when the immigrant first lands he is not trained or even equipped to go to the cities to settle down and get a living from the soil, what is the use of sending him out there to become a disappointed and dissatisfied immigrant? Immigration is a problem of great consequence to the people of Canada today. Immigration has a great influence on industry and on our prosperity which is the basis of revenue for the government. The public generally should seriously protest against any governmental action which would prevent the entry of desirable immigrants into Canada.

A constructive policy of selective immigration is needed and it is up to Canada to establish a constructive policy based on a careful examination of conditions here and abroad to the end that it may safeguard our interests and promote the general welfare, regardless of any one class.

Canada needs new people, needs their labor, on the farms and in all lines of industrial activity where it is almost impossible to get men to do the great amount of necessary rough labor to keep industry moving. Certainly there are people who should not be permitted to come into the country, because in the very nature of things their admittance means conflict and radical social disturbance in our midst. Canada already has its share of this class.

Canada is not the congested country that Labor leaders and other people think. Canada covers an area of 3,603,019 square miles. Now let us deduct one-third, or say 1,200,000 square miles of what might be classed at present, as undesirable or unproductive areas. This leaves a basis of approximately two and a half million square miles. Canada could absorb the entire population of the British Isles (England, Scotland and Ireland) and then have 350,000 people to the square mile than now exists in the Old Land. Placing our present population at 10,000,000, that means an average of 4 people per square mile in Canada.

The population per square mile for Great Britain and Ireland is 374. The population of France, taken by the census of 1913, gave 40,412,220, or a population of 193 persons to the square mile. In 1912 the population of Belgium was 7,510,418, and the population per square mile was 658 persons. The population of the German Empire in Europe in 1911, was 60,190,000, or a population of 311 to the square mile.

In face of the above, is there any wonder why the people of Great Britain, of France, and of Belgium, were so anxious to get to Canada?

HAROLD ROBB

A Toronto boy who won the 2 1/2-mile Ward Eight School Boys' Running Road Race, held on March 30, 1921. He is 13 years of age and lives at 291 Kingswood Road. He is the Patrol Leader of the 1st Toronto Scout Boy Scouts.

should not be turning their eyes to a country such as Canada where the possibilities for the future are so great? Is there any reason why as a part of the Great British Empire, we should close our gates to the people of France, Belgium or the United States, from whence so many desirable citizens have come to us. In the interests of the country, we should have a constructive and not a restrictive policy of immigration.—Employers' Association of Manitoba.

AUTO REPAIR PARTS for most makes and models of cars. Your old, broken or worn-out car replaced. Write or wire us describing what you want. We carry the largest and most complete stock in Canada of slightly used or new parts and auto-able equipment. We ship C.O.D. anywhere in Canada. Satisfaction or refund in full our motto. Shaw's Auto Salvage Part Supply, 22-23 Dundas St. Toronto, Ont.

Physiological Reading. Two pupils in a primary school were encountering difficulties with their "First Reader." "Tommy" asked one of the other, "How can you tell which is 'A' and which is 'B'?" "Didn't you know?" retorted Tommy. "Why the 'A' as the letter with its stomach on its back."

"Cheerfulness" of Nature. Mrs. Newrich (in story): "My little boy was disappointed in not getting a magnet among his Christmas presents. Have you any?" Clerk: "I've one or fifty cents." Mrs. Newrich (haughtily): "We don't have to buy such cheap-looking steel things. Show me something in silver."

Sauce for the Gender. "I'll ring for Nora to bring a fresh pitcher of water," said the professor's wife. "You doubtless mean a pitcher of fresh water," her husband corrected her. "I wish you would pay more attention to your rhetoric; your mistakes are curious."

A Place for Paul. The daughter of a soap manufacturer recently conceived a fondness for a young man whose only asset appeared to be a knack of verifying. The girl summoned him and addressed him thus: "Paul, darling, mother wishes you to enter dad's factory. That would overcome his unwillingness to our marriage."

"But, my love," protested Paul, "I am a poet." "All the better, dearie. You can write verses for our soap ads."

A Logical Inquiry. An eager lookingurchin approached a man hurrying toward the railway station. "Carry your bag, sir," he asked. "No," snapped the man. "I'll carry it all the way for a dime," said the boy. "Don't you?" "Not! Not!"

Whomsoever the lad broke into a quick trot to keep up with his victim's hasty strides, as he asked, in innocent curiosity: "Then what are you carrying it for?"

Flagship of Britain Saves a Dying Child. The great battleship Queen Elizabeth, Admiral Beatty's flagship of the Grand Fleet, saved the life of a tiny babe of the same name in the Bay of Biscay recently by answering a call from the steamship Venetian, which was bound homeward. A mother sat rocking her baby, who was ill, the woman having been up constantly without sleep for a week, when the girl outline of the warship was sighted. The child's life was ebbing rapidly when the warship was signalled for help.

The Venetian stopped and the man-of-war drew to within a quarter of a mile of her and launched a boat which, despite the heavy sea, reached the steamship, and a doctor from the Queen Elizabeth boarded her. He was able to save the life of the infant.

The mother said she would change the baby's name to that of the man-of-war, but when she was informed that the ship was the Queen Elizabeth she said that the child's name would remain unchanged.

Ancient History. Lady (to her partner): "Have you any prominent men in your family, Mr. Dunleigh?" Mr. D.: "Yes, one of my forefathers was an admiral. At one time he led the world's combined fleet." Lady: "How interesting. What was his name?" Mr. D.: "Noah."

The King's Watch. Recent revelations of the adventures lived by members of the British Secret Service raise the question, "How many people have heard of the King's Watch?" This decoration, regarded as one of the greatest honors the King can bestow, is granted to Secret Service men only.

The decoration consists of a gold fob watch of exquisite workmanship. Inside the case is inscribed the words, "For Services Rendered."

About twelve of these decorations were won during the war. The services rendered by one of the brave recipients as a naval officer will serve to illustrate that the King's Watch is a hard-earned honor.

The decoration is a gold fob watch of exquisite workmanship. Inside the case is inscribed the words, "For Services Rendered."

Every country has its special decoration for those who have rendered distinguished service to their country. The Central American republics have a gold badge, inscribed with words similar to those of the King's Watch.

Nothing to Equal Baby's Own Tablets. Mrs. George Lefebvre, St. Bonin, Que., writes: "I do not think there are other medicines for babies than Baby's Own Tablets for Baby's Own Tablets. I have used them for my baby and will use nothing else." What Mrs. Lefebvre says thousands of other mothers say. They have found by trial that the tablets always do just what is claimed for them. The tablets are a mild but thorough laxative which regulate the bowels and sweeten the stomach and thus banish indigestion, constipation, colds, colic, etc. They are sold by medicine dealers, or by mail at 25 cents a box from The Williams Medicine Co., Brockville, Ont.

Women in Morocco. Chivalry toward women plays little part in the lives of the men of Morocco. In their opinion women is a degraded creature the sole reason for whose existence is to please man.

Less than three hours' journey from Gibraltar, says an English journalist, our civilization is scorned and derided. In Tangiers the thin European veneer disappears finally. The dazzling whiteness of the houses, the blue sky, the Moorish arches, the curious arabesque, the curious colors, the bizarre figures in every corner, the profane loveliness and mean, the faces black, yellow, brown and white, all attracted and interested me, but no impression was so deep as that which I received when I first saw one of the women.

Clad in white, she glided down the street like a spectre. As I approached her, she quickly covered her face and shrank into the shadow of the wall. Then I saw other women. Seated on the ground amid indescribable filth, they sold bread, tomatoes and green stuffs while myriads of insects buzzed about them. Immense numbers of women were driven by them down the streets.

On one occasion a noise of panic and confusion attracted me. Down the torch-lighted street came a procession accompanied with music, the yells of men, the braying of donkeys and the barking of dogs. In the midst of the seething mob was a large box, borne on the back of a donkey. The bride was in the box. After they had taken her round the town they would leave

ATHLETES—Muscular fatigue quickly yields to the use of BAUME BENGUE. Try a tube today. BEAUME OF SUBSTITUTES \$1.00 a tube. THE LEECHING RULES CO., LTD. 1097 RUELLE, MONTREAL. Agents for Dr. J. C. Bennett's RELIEVES PAIN.

ASPIRIN Only "Bayer" is Genuine. Warning! Take no chances with substitutes for genuine "Bayer Tablets of Aspirin." Unless you see the name "Bayer" on package or on tablets you are not getting Aspirin at all. In every Bayer package are directions for Colds, Headache, Neuralgia, Rheumatism, Earache, Toothache, Lumbago, and for Pain. Handy tin boxes of twelve tablets cost few cents. Druggists also sell larger packages. Made in Canada. Aspirin is the trade mark (registered in Canada), of Bayer, Manufacture of Monoaceticacidester of Styloxylicacid.

Use Cuticura Talcum To Powder and Perfume. An ideal face, skin, baby and dusting powder. Convenient and economical, it takes the place of other perfumes. A few grains sufficient. 50c. 25c. 10c. 5c. Sold throughout the Dominion. Canadian Depot: Toronto, 214 St. Paul St., Montreal, 100 St. James St. West. Cuticura Soap always with soap.

Classified Advertisements. AGENTS WANTED. A GENTS WANTED: BLISS NATIVE Herbs is a remedy for the relief of Constipation, Indigestion, Illnesses, Rheumatism, Kidney Troubles, etc. It is well-known, having been extensively advertised since it was first manufactured in 1888.
