# MARKDALE STANDARD

VOL. 41 MARKDALE, ONT., WEDNESDAY, APRIL 20, 1921 Established in 1875

**J. W. PATON, J.R.**, Licenses, Business strictly confidential.  
**WOOD'S PHOSPHORIC**, The Great Bone Food, for all ailments of the system, especially of the bones, joints, and muscles. Price \$2 per box, 10¢ per pound. Sold by all druggists. Free literature on request. **CO., TORONTO, ONT.**

**PAVEMENTS PROMPTLY SECURED**  
MARION, 212, Markdale.

**English Farm Tractor Has Three-Wheel Drive.**  
A new agricultural tractor recently brought out by a British manufacturer, that it has only three wheels, all of which are driven. The tractor is described in the "Efficient Farming" article on this page.

**Now is the Time to**  
Plant trees. Plant trees for shade and beauty. Plant trees for the future. Plant trees for the benefit of the community. Plant trees for the glory of the world.

**HIDES-WOOL-FURS**  
WILLIAM STONE, WOODSTOCK, ONT. ESTABLISHED 1870.

**Efficient Farming**  
Castrate and Dock Your Lambs. There is no truer indication of lack of proper shepherding than failure to castrate and dock lambs. No matter how good a feeder and caretaker otherwise a man may be, he is a failure as a shepherd if he neglects these important duties.

**Potato Scab.**  
Common Scab.—This, as the name by which it is known implies, is one of the most common troubles affecting potatoes. Although the occurrence of scab does not, as a rule, affect the yield, it detracts considerably from the value of tubers for both seed and commercial purposes.

**Living with the Children.**  
Oh, listen, little Dear-my-Soul, To the fairy voices calling,  
For the moon is high in the misty sky,  
And the honey-dew is falling.  
The fairy voices that called to us in our childhood are still calling to the children of to-day, but in the midst of the tumult and the unsettled conditions which surround them, the fairy voices are more difficult to hear.

**Planting Strawberries.**  
Plant strawberries in the spring as soon as the soil is in good condition to work. Procure plants from a reliable party, and if they are a little wilted when you get them, they should be heeled in very thin in the row and shaded from the sun until they freshen. Before heeling in, cut off one-third of the roots evenly and leave three or four leaves. Cloudy weather is considered best for planting, although if your plants are in good condition, the forenoon and afternoon of clear weather is safe enough.

**DOMINION TIRES ARE GOOD TIRES**  
DOMINION TIRES are the same quality, no matter what the size. DOMINION "NOBBY TREAD" 30 x 3 1/2 Tires for Ford, Chevrolet, Gray Dorr, Overland and other light cars are the same design, same material, same construction as the big "NOBBY TREADS" for Pierce-Arrows and Packards. You get the mileage when you ride on "DOMINION TIRES".

**Killing Quack-Grass**  
Quack-grass produces stems underground as well as above ground. These underground stems have joints in them, with a bud at each joint, just as do the stems above ground. And it is the underground stems that make quack-grass a bad weed. Every bud in such stems can throw up a new plant. Every time one of the underground stems is broken with a plow or harrow, you have a new plant beginning from the part broken off.

**How to Strike.**  
To eradicate the pest completely, at this time, all we have to do is to kill the growing crowns of the plants. The best way to do this is to stir the soil loose from the underlying soil in as thin a layer as possible—say not over three or four and one-half inches thick. This can be done by plowing with a broad, sharp share that will cut the soil entirely loose from the soil beneath. Deeper plowing will leave too much dirt attached to the roots, and the plants will go right on growing. The idea is to have as little dirt in the turned soil as possible—hence the shallow plowing.

**Living with the Children.**  
Oh, listen, little Dear-my-Soul, To the fairy voices calling,

## CONSTIPATION AND HEADACHES

Completely Relieved by this Grand Fruit Medicine, "FRUIT-A-TIVES"

MR. ALBERT D. BROWN, 482 St. Catharines Street, Toronto, writes: "I have been suffering from Constipation and Headaches for many years. I have tried many remedies but have not been able to get any relief. I have gained weight and feel much better since I began to take 'FRUIT-A-TIVES'."

**Facts About Constipation.**  
The most common cause of Constipation is a diet that is too rich in animal products and too poor in fruits and vegetables. A diet that is rich in fiber and low in fat and sugar will help to keep the bowels regular.
