

## BRITISH COAL MINERS ARE STILL DEMANDING A NATIONAL POOL

Parleys Between Owners and Workers Fail to Find Basis for Settlement—Acute Distress Prevails in Coal Areas and Suffering is Widespread.

A despatch from London says:—A conference between representatives of the mine owners and of the Miners' Federation was held in London on Thursday night at which an attempt was made to get a clearer understanding as to the questions that divide them. It cannot be said that any definite advance was made. The new offer of the owners was declared not to be sufficiently clear to enable the Federation to place it before the districts.

The Executive Committee of the Miners' Federation met on Thursday and decided to make no recommendation to the full delegates meeting. This is generally interpreted as meaning that there is little hope of the miners accepting any compromise that the employers are likely to offer.

The leaders have been spending the past few days in the country among the miners themselves, and it is evident that they have not found any marked change of attitude. The men are still demanding a national pool and national regulation of wages, and discussions about various other methods of correcting inequalities of earnings have had no effect on the miners' position.

There can be no doubt that the failure of the railroad and transport workers to come to their aid has had a good deal to do with the hardening of feeling found in mining localities. Meanwhile, each day numbers of industries are feeling the blight as the coal shortage grows.

German coal was on offer on Thursday at the Swansea dock for half the price of the best Welsh coal; but a

movement developed among the transport workers to refuse to handle American, Belgian or German coal shipments.

In many districts there is no coal left for domestic consumption, and no coal is being delivered to any house where a gas cooker is installed. In some districts only 28 pounds of coal is being distributed to each household per week.

Distress in the mining areas is becoming acute. Hundreds of miners and their wives in the Durham district are waiting daily for the relief granted by the local municipal authorities in necessitous cases. Queues of unmarried miners at Cae philly, near Cardiff, who sought parochial relief, were refused. Funds have been started in many towns to save miners' children from hardship.

Preliminary suggestions for relief of distress sent by a special committee of the Board of Trade to large towns include utilization of national kitchens and canteens with feeding centres for school children. It is also suggested that families should combine in the cooking of their meals.

In many instances the strike pay of miners is exhausted, and to provide for barest necessities of life loans and paper credit are being increasingly resorted to.

Great distress is reported from South Wales, where women are pawned wedding rings for food. In some houses the bed is the only piece of furniture left. In some districts many thousands of children would starve if they were not fed in the schools.

### No Haste to Declare State of Peace

A despatch from Washington says:—President Harding's attitude as reflected at the White House is that there is no haste about the adoption of the resolution declaring a state of peace with Germany and Austria.

Chairman Porter, of the House Foreign Affairs Committee, who discussed it with the President, said he had not decided when it would be introduced or in what way, if any, it would differ from the Knox resolution.

Mr. Porter made it clear he did not believe there is any rush about the resolution.

### LARGE WESTERN AREAS IN SEED

Spring Work is Proceeding Rapidly—Some Oats Are Planted.

A despatch from Winnipeg says:—During the past week weather over the whole of the three Western Provinces has been generally fine, clear skies and high temperatures ruling through the day. During the latter part of the period very little frost has been experienced, and farmers in the districts where seeding has commenced have encountered little delay.

Reports of farmers busy on the land have become increasingly more numerous from all three provinces, and already quite a large acreage of wheat is reported sown.

It is in Southern Alberta where the most progress has been made. Reports from Grande Prairies, in the Peace River country, are also to the effect that work is proceeding rapidly, and the first report of oat seeding comes from this point.

No reports of decreased acreage have come from any part of the West, but several in Alberta expect an increase on account of the excellent state of the soil and lowered costs of production.

### Collection of Levy Blocks Rhineland Traffic

A despatch from Berlin says:—Widespread congestion in freight and passenger traffic is reported from points in the occupied Rhineland zone as a result of the inauguration of the customs control in connection with the newly-imposed penalties on Germany.

### GERMANY'S VERSION OF ADVANCES MADE

#### Alleges Having Handled Over to Allies Over Five Billions in Material

Berlin, April 24.—Germany claims to have delivered to the Allies since the armistice \$5,520,000,000 in most diversified materials, beginning with railroad material immediately after the armistice and since, including everything from ammonia to chickens.

As the treaty demands \$4,800,000,000 in deliveries of materials the German claim that they have already overpaid. The correspondent has obtained the following presentation of the German case from the officials of the German Reparations Commission, who have not assembled the figures, but have the general totals.

Details are available only on \$3,720,000,000. This amount the Germans claim was delivered through the following principal headings:

(1) The German commercial fleet, \$1,754,400,000.

(2) Cables, telegraphs, wireless, railroads, bridges, tunnels, realty, forests, etc., in Alsace-Lorraine, Holland, Danzig, Poland, Bohemia, etc., \$980,000,000.

(3) The Saar coal mines, \$240,000,000.

(4) Deliveries of coal, \$157,200,000—the delivery of coal, the Germans claim, has been doubled since.

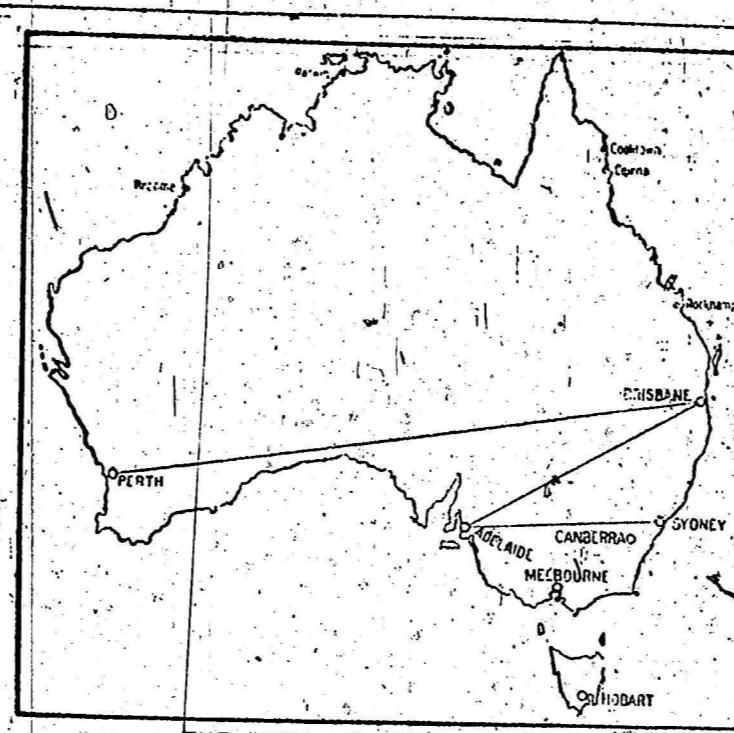

(5) Railroad rolling stock and equipment, \$480,000,000.

(6) Agricultural machinery and live stock, \$72,000,000.

(7) Chemical dyes, etc., \$55,200,000.

This makes a total of \$3,733,000,000. The Germans say that, with the consent of the Armistice Commission, they left behind them enough material to make up in value \$4,440,000,000. They say that the chief items in their deliveries in the last \$980,000,000 have been dry docks, ships, coal, coke and chemicals. The Germans claim they have never been able to get detailed figures from the allied experts about items to compare with their own figures.

The Germans say they are willing to prove the figures from their records and to concede a difference of opinion as to the present value of delivered materials, as exchange has changed and the value of the mark has fallen, but they say there is no ground for such a wide divergence of opinion. They say it is ridiculous for the allies to figure the deliveries at \$1,920,000,000.

THE PERIL TO WHITE AUSTRALIA

This great country has six State capitals, and a proposed Federal capital. All seven are south of the top line. Six are south of the middle line. Five, including the proposed Federal capital, are south of the bottom line.

This is Australia's way of telling the world that the north and centre are quite unfit for a white man to live in, and are only suitable for brown or black settlement. And the black-brown world doesn't miss the point.

### GERMAN CUSTOMS OFFICERS STRIKE

#### Refuse to Work for the Allies in Collecting Tax

A despatch from Mayence, Germany, says:—The Interallied Rhine-land Commission is meeting difficulties in the application of the new customs regime on the eastern frontier of the occupied territories, which became effective Wednesday, as a large percentage of the German customs officers have refused to work, while others are opposing passing resistance.

Refusals to work for the allies have been particularly in the region of Ludwigshafen and Dusseldorf. The Commission is prepared to take energetic measures to put the Germans to work, the nature of which, however, has not been disclosed. In the region of Dusseldorf, allied officials say, the first day of the regime came to infect the frontier customs posts actually were swamped with parcels which, the officials declare, had evidently been saved for many days in order to embarrass the allies.

It is learned that traffic between the occupied territories and Germany proper is ten times more in volume than that on the western frontier of the German Republic, between Belgium, France and the occupied territories. In the region of Mayence and Worms freight trains have suffered considerable delay owing to the defection of the German customs officers. An official note issued in Berlin by the Ministry of the Interior reached the occupational zone on Friday. In the note the German Government says it cannot bring pressure to bear on the functionaries to force them to work under the new regime, but that if any choose to do so it will not be held against them.

COMPUL THE CLOSING OF BURTONPORT RY.

Berlin, April 23.—After having been formulated and remodeled several times, Cabinet sessions lasting till midnight yesterday and long after noon to-day, the new German proposals were finally sent off at 4 p.m. to Berlin, accompanied by a note to Washington. The main facts and proposals were communicated late last night to the chief party leaders, who, however, were pledged to strict secrecy. There is good reason to believe Fehrenbach and Simons succeeded in eliminating the influence of the Sinnestes during the late hours last night, and compensation offered will likely be the sum of \$50,000,000,000 marks, with accrued interest over a period of forty-two years, a total of 200,000,000,000 gold marks; no deductions to be made from the reparations total for amounts already paid over by Germany; also a percentage of Germany's industrial production.

GLOWING REPORT OF Fort Norman Oil Fields

Ottawa, April 24.—After following the winter trail to the Fort Norman oil fields and back again to civilization, and incidentally snow-shoeing 2,114 miles, A. F. S. Rankin, Yukon pioneer of '98 and Nevada horse rancher, has reached Ottawa with a glowing report of the richness and practicability of the northern oil areas. Mr. Rankin made the trip in mid-winter, leaving Calgary on Nov. 23 last and reaching the railway again on March 26.

### REGULAR FELLERS BY Gene Byrnes

## TWELVE-HOUR BATTLE WITH SNN FEIN AT MAAM CROSS, COUNTY GALWAY

#### Fourteen Police Engage Flying Column of Irish Revolutionaries—Rebels Fire on Street—Raids on Postmen by Republicans Result in Capture of Letters.

Dublin, April 24.—Fighting which lasted for twelve hours is reported from the neighborhood of Maam Cross, County Galway. Fourteen policemen, under command of a district inspector, went at 4 o'clock this morning in search of a Republican flying column. The Republicans were found entrenched on high ground in the vicinity of the home of Patrick O'Malley, member of Parliament.

The police took to cover as best they could, and a prolonged engagement ensued, in which Constable Bayian was killed and a sergeant wounded. At 3:30 o'clock this afternoon reinforcements for the police arrived, bringing with them machine guns. They enveloped the position of the rebels, who fled to the hills, taking their wounded with them.

According to an official statement, four police barracks were attacked Saturday night—in Ardeag, Cuanbough, Aranagh and Queenstown. At Ardeag the barracks was successfully defended, but that in Queenstown, which recently was vacated, was completely destroyed.

District Inspector Potter of the Government forces, mysteriously disappeared yesterday, but a clue to the circumstances was discovered when the automobile in which he had been riding was found on a country road with bullet marks upon the car. Apparently Inspector Potter ran into an ambush, as he was captured.

In the vicinity of the fighting, the police say they found arms and ammunition, beds for forty persons and the stock and collar of a priest, which had been used by the leader of the rebels as a disguise. A search of two neighboring houses showed that they

had been used as ambuscades. They were turned to the ground by the rebels.

Simultaneous raids by Republicans on 32 postmen in Cork resulted in the capture of 47 registered and 7,339 ordinary letters.

Two constables were wounded Saturday night by bombs thrown from upper windows in a public house in Limerick. One civilian was hit by a splinter of a bomb.

Last night a large number of bombs were found in stables near Wellington road, high-slopes residential quarter of Dublin.

Four police barracks were attacked Saturday night—in Ardeag, Cuanbough, Aranagh and Queenstown. At Ardeag the barracks was successfully defended.
