

The Farmer's First Step in Business System

THE first step in putting a farm on a business basis is to open a bank account. By this means you can keep accurate account of all moneys received, and by paying accounts and bills by cheque, you have a record of all moneys paid out.

If you open a savings account in The Bank of Toronto your banking service will not only cost you nothing, but you will receive interest on your balances.

Talk the matter over with our local Manager. His experience in financial matters should be useful to you.

Wash Day and Backache

WASH day is the least welcome day of the week in most homes, though sweeping day is not much better. Both days are most trying on the back.

The strain of washing, ironing and sweeping frequently deranges the kidneys. The system is poisoned and backaches, rheumatism, pain in the limbs result.

Kidney action must be aroused and the liver awakened to action as the work is prohibited by such treatment as the Chinese Kidney-Liver Pills. This favorite prescription of the world-famous Receipt Book author will now save you in the hour of need.

Brings the Farm to Town

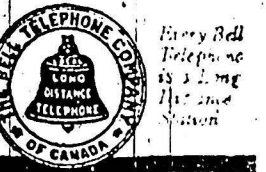

NOW that he can order it at once by Long Distance from his dealer in village, town, or city, nothing is too good for you. You advertised a special sale on photographs in today's Ship me one — he telephones.

Within the same convenient radius of your store are scores of housewives who would be pleased to have a merchant solicit them by Long Distance. Even if a sale does not result, you have done your business in a very effective way. They will probably call on you when they come to town, or order from your advertising. It's human nature.

We know a tire dealer who called up 19 strangers by Long Distance and sold tires to 8 of them. A follow-up letter or personal call never brought nearly all the others to his store.

Don't let your telephone idle. Long Distance can bring suburban prospects within sound of your voice. Turn it into a salesman, and he's busy. Every other means of communication is substitute for this one — the voice is YOU.

Think of our Manager as the Manager of your Telephone Service.
