A Door Opened.
Before the bank three or four per-
sons were waiting for the great doors
to be unlocked. How heavy and strong
they are! You might dash yourself
to pieces against them and they would
not give so much as the fraction of an
inch.

By Paul Giniety
Translated by
William L. McPherson

"Monseur," said the servant, "there

will be glad to see him at once."
"Who?" he asked.
"Ah, that's a man," exclaimed M. Mer-
ault, who, in his dressing gown, was

ventures? Did you get along nicely
with your colleagues?"
"Oh!" said Georges, "travellers are
wonderful story tellers. I shall have
much to talk about. I saw many won-
derful things on the banks of the
ocogou, and I'll tell you about some
negro kings who were friends of mine.
But just now let me enjoy the sensa-
tion of being home again. I have been
an explorer too long. I want to be-
come a Parisian again. I still have

her.
A conversation will be more satis-

simple, so good, so gracious, he will
be sure to say I was right."

CHOLERA INFANTUM
Cholera infantum is one of the fatal

LITTLE EDWARD'S CURE
When a girl in her teens becomes
pale, listless and dull, when noth-
ing seems to interest her and dainties
do not tempt her appetite, you may
be certain that she needs more good
blood than her system is provided
with.

WIDOWED
A large poster displayed in the win-
dow of a florist's shop read as follows:
"Decide the life of a slave! To
a packet of our famous weed-killer!
Although the advertisement seemed
to amuse all who read it, the florist
cleared to a fellow-tradesman that it
had been a great help to his trade.
