A. Remarkable Piece of Jade.

The largest block of Jado in the world, according to the New York dian winters are unden Natural History in New York City. At first glance it tooks almost as large as Plymouth Rock; actually it is seven feet long and four feet wide. It is not so heavy as Plymonth Rock, but weighs approximately three tons. It was found on South Island, New Zealand, in 1962, and is of the green variety of jade, with shades that range from groen to rich emerald.
