

# WEEK OF BLOODY BATTLE ENDS WITH DEFEAT OF IRISH IRREGULARS

## Victory of Free State Troops Gained at the Cost of Many Lives and After the Destruction of Valuable Property—All the Important Leaders of Revolution Made Prisoner Except DeValera.

A despatch from Dublin says:—The siege of the stronghold of the insurgent Irish forces virtually ended with the surrender of small groups of the men who had been fighting for the last week behind the barricades, and the capture of one of the principal leaders, General Bullfinch, former Minister of Defence. But the success of the National cause has been purchased at the cost of heavy destruction to the east of Dublin, the loss of life and the many serious wounds.

It is still in the hands of the Free State troops, including three battalions, the remainder of the insurgent forces, still maintaining a resistance with flags, but it was all they could not long delay the end.

Eighty-seven persons were attended in Bellevue, Flower and other hospitals in the central section of the city for partial asphyxiation. Of them, number 57 were taken to the city homes after being treated, but the condition of thirty was so serious that they had to remain at the hospitals.

# Independence

We hear people now and then talk of taking a certain course of action to save their self-respect. Perhaps they have forgotten that besides the respect they owe themselves there is a deference which is due to others.

If independence meant flouting what other people think, laughing to scorn the wisdom of the ages, denying that there is any sense in convention and tradition, the independence, as a purely destructive thing, would not be worth establishing. It would be a mere defiance, a mere act of rebellion, a mere act of defiance.

# Optimistic Reports on Crops in Southern Alberta

A despatch from Calgary says:—Crop conditions based on reports of the United Grain Growers, were reported Thursday by E. J. Fitzup, newly appointed Commissioner of the Southern Alberta Drought Relief Act, and which were said to be the most optimistic reports yet issued on the crops this season. True, in some districts lack of rain has been somewhat destructive, but this will be more than offset by the yields where plenty of moisture has been recorded.
