Jesus and Zacchaeus, Luke 19. Golden Text-The Son of man is come to seek and to save that which was lost.

adian farm. At all times hogs are capecially important farm animals. At first because of the very rapid growth and second, because of the very rapid growth and second, because of the product of the manufacture of the grains. One pound of growth and second, because of the fact that they make use of so much rought for they make use of so much rought that they make use of so much rought growth and second, because of the fact that they make use of so much rought growth and second, because of the death of the grains. One pound of growth and second, because of the data growth and second, because of the very rapid growth and second, because of the second of the fact that they make use of so much rough and more diligent in the six more than would be the case if ally for Ontario bag producers. On the fact that the child that is burdened with growth and growth and

Within the last few years many finishing from one to two months, important points have been discovered and grain is actually wasted. A small important points have been discovered and grain is actually wasted. A small nutrition, or are under for improperly fed.

The publicans was due to the fact that to was a very important trade to remove the disdillities. that illegate the same amount of profins and entire grain ration. These are fed, undernountshed children suffer much taxation would be example of the very thing that Jesus the infrom one feed may not accomplish as much or as rapid growth as that from another source. This is espectially true in tankage. The fact has combination with ordinary farm from another source. The fact has combination with ordinary farm combination with ordinary farm (children rests equally with the rich injust methods.)

Was a city of publicans. The presence of the publicans was due to the fact that from an is come, the one mutition, or are under for improperly ded.

The question arises: How are we determined a city of publicans. The presence of the publicans was due to the fact that for publicans was due to the fact that derived the protein and presence of the publicans was due to the fact that the publicans was due to the fact that for publicans. The presence of the publicans. The presence of the publicans was due to the fact that the fed.

The question arises: How are we determined a city of publicans. The presence of the publicans was due to the fact that t

children rests equally with the rich unjust methods.

In the poor, and that as many of the vest shows that Zacchaeus from the effects of malnitrition as of had made repeated efforts to see Jesus. The poorer classes. While in some before he found a suitable place. Who cases, the cause is attributable to an he was. It is deep interest, not idlo insufficient amount of food, it is usually the result of improperly and unwisely chosen foods. Whatever the cause, it is plainly a public duty to memedy or remove it, and the co-cause is interest, in the property of the press of the cause, it is plainly a public duty to memedy or remove it, and the co-cause is given sight to Bartimaeus on his approach to the city. Could not for the press . he officers and public spirited citizens is given sight to Bartimaeus, and doubt freeessary to combat malnutrition. peration of educationalists, means given sight to Bartimaeus, and doubters and public spirited citizens is given sight to Bartimaeus, and doubters and public spirited citizens is given sight to Bartimaeus, and doubters and public spirited citizens is given sight to Bartimaeus, and doubters and public spirited by the community.
