The sixth member of the family

The average Canadian family consists of five persons.

The new low price of the Ford Car makes it possible to get six members of the family.

Thinking that it is possible to get six members of the family in a car is not a new idea. It is a fact. The Ford Car is the only car that is so small, so light, so easy to handle, so economical, so reliable, so safe, so comfortable, so convenient, so practical, so economical, so reliable, so safe, so comfortable, so convenient, so practical.

A Ford Car has made the difference between a job and a career. It makes the family reaction to a career and a job—wondered—makes it possible to save some time for recreation—to visit friends—for the country dweller to get into town—for the town dweller to get into the country.

The sixth member of the Canadian Family—the FORD CAR.

The Price of the Touring Car is \$445—Freight and Government Taxes Extra.
