

"My Heart Would Palpitate, I Had Weak Spells"
 Mrs. L. Whiting, 202 King St. West, Brockville, Ont., writes—
 "I took very sick with my nerves and stomach, and seemed to be all run down. At times my heart would flutter and palpitate and I would take such weak spells in the pit of my stomach that sometimes thought I would never get better. I had almost given up hope when a friend advised the use of Dr. Chase's Nerve Food. I did not stop until I had taken twenty-five boxes. It has done wonders for me and I want to recommend it to everyone."

Bacon Hog Clubs
 Last week Mr. W. Wade, Director, Live Stock Branch, Toronto, and Mr. A. H. Macdonald, Director, Ontario Hog Graders, Toronto, visited Grey County, inspecting the hog clubs in the twenty-four Hog Clubs in the county. The results are to be congratulated on the efficient manner in which they are being conducted, and it is hoped that the other hog clubs in the county will follow their example.

Farmers' Sun Pleased With New Cabinet
 SAYS FERGUSON IS RESISTING PRESSURE OF THE WET FORCES
 TORONTO, JULY 10—The Farmers' Sun, in a lengthy editorial on the new Cabinet, expresses its general satisfaction with Premier Ferguson's selection. While mildly criticizing some features, the Farmers' Sun says "with only one member beside himself able to boast of administrative experience, Premier-elect Ferguson's Cabinet will have to demonstrate its fitness or unfitness before the public will be able to pass judgment upon it. It is apparent, however, that Mr. Ferguson has avoided some of the pitfalls that were in his path. It was somewhat generally believed that he would not be able to resist the influence of the Ontario Cattle and Horse Raisers' Association. In the new Cabinet, however, the influence of the C.R.A. is not so great. It is pointed out that Mr. Ferguson has not included in his Cabinet any one who is connected with the C.R.A. Wets
 The Ontario Temperance Act is not the type to play Mr. Nickle is not the type to play that sort of game. He has always been a man of little concern for the fortunes of the Tory party, and it is a strong sense of duty and of his dominant characteristics. Whether he will be on the side of the wets or the drys is a matter of opinion.

GOOD MONEY IN GOOD FARMING
"Let's Get to Work and Pay Off the Mortgage"
 NINE years ago Canada's national debt was about one-third of a billion. It is more than two and one-third billions today. Our debts have greatly increased—our revenues must also go up. The farmer has to bear his share of the increased burden. That means he must increase his revenue. Complaint has been heard that farmers under present conditions in Canada cannot make farming pay. And yet many thousands of Canadian farmers do make it pay.
How Is It Done?
 Patient and industrious "carry on" will do wonders, but something more is needed. Too often "patient industry" is coupled with "dull persistence" in poorly thought out methods. Farmers today more than ever must plan ahead, as well as "plug along"; indeed they have no option, if they wish to succeed. Co-ordination of head and hand will mean real success. Farming in Canada has paid and pays now on many farms. It can be made to pay on almost every farm. Canadian agriculture has passed through low-profit-making eras successfully in the past and can do so again.
Crop Returns Should be Increased
 On the Central Experimental Farm at Ottawa some crop yields were obtained in 1922 as compared with Ontario average crop yields and crop prices are given below. The Ontario figures are in brackets.
 Wheat per acre of 40 acres \$21.15 (21.15)
 Corn per acre of 40 acres \$15.00 (15.00)
 Oats per acre of 40 acres \$10.00 (10.00)
 Potatoes per acre of 40 acres \$10.00 (10.00)
