

OBILE

What Is Your Favorite Instrument?

VIOLIN — SAXOPHONE — CORNET
BANJO — MANDOLIN OR FLUTE

haven't you often wished that you could play a Saxophone, a Violin, Mandolin or Cornet?

Send for our new catalog. It shows exact reproductions of all the popular home instruments. It explains how easily you can learn the instrument you like best through our plan of

FREE TRIAL FIRST

Then Easy Payments

which enables you to enjoy the use of your instrument while paying for it.

With each of our complete outfits we give a certificate entitling you to a course of

FREE LESSONS

You are taught to play right in your own home under the direction of competent teachers.

This book is free to those who send in the coupon at once.

Do it now.

HEALTH EDUCATION

BY DR. J. J. MIDDLETON

Provincial Board of Health, Ontario.

Dr. Middleton will be glad to answer questions on Public Health matters through this column. Address him at Spadina House, Spadina Crescent, Toronto.

Health rules are good for children, and daylight kills the germs and their young minds assimilate knowledge very readily; and good advice! Eat plain, clean, nourishing, fresh food. Oatmeal porridge, bread and butter, milk, buttermilk, lentil or pea soup, all are good.

Let your clothes be few in number, loose in fit, light in weight, woolens in texture.

Keep yourself and your home clean. Clean teeth, clean clothes, clean body, clear hair (girls should be in plaits or tied back), clean floors, water, water, water! Avoid air currents and sunburn will keep the home clean.

The germ of tuberculosis grows with difficulty in a healthy body. Therefore observe and practice the laws of health.

New Wood Sanctuary for Canadian Bison

After it had been definitely concluded for years that the American bison in its wild state was extinct on the continent, and that the sole members of this mighty race in Canada were included in the animals at Banff and in Waterton Park, a Dominion Government survey party last year discovered zones fifteen hundred miles apart in the uncharted areas of Northern Alberta, between the Peace and Slave Rivers and Great Slave Lake. Steps were immediately taken by the Dominion Government to preserve these animals, the results of which are now secured in the establishment of a new wood sanctuary.

The entire habitat of the wild bison has been included in the new sanctuary and in addition a portion of the habitat of the wood caribou which range the Cariboo Mountains. The area of the new park is approximately 10,500 miles square, and within this area the wild bison have two distinct ranges, within each of which are the seasonal habitats frequented by each herd.

The northern range is bounded on the south, east and north-east by the Little Buffalo River, on the north by the Nairn River, and extends west almost within fifteen miles of Buffalo Lake. The southern range is bounded on the east by the Slave River, on the south by the Peace River, on the west and north-west by the Jaci, Fish and Little Buffalo Rivers and on the north by the Salt River. Arrangements for systematic patrols have been made and cabins constructed for wardens at points which will facilitate an efficient patrol service all the year round.

Herd of Wild Buffalo.

This new addition to known Canadian wild life gives the Dominion the two largest buffalo herds in the world.

The preservation of these animals in their wild state, besides being of interest and value from the standpoint of natural history, is a move of moment to all people on the continent.

Few in this generation have had the opportunity of viewing the monarch of the plains roaming unhampered on his natural range.

Though at the present time the visits of tourists and other interested "holidayers" is not encouraged on account of the inaccessibility of the location to ordinary travel agencies and the lack of facilities there is no doubt that this will be remedied as soon as practicable. It may be a considerable time before settlement invades this region, and as the haunt of the world's last herd of wild buffalo it should exert a very wide and potent attraction.
