

HEALTH EDUCATION

BY DR. J. J. MIDDLETON
Provincial Board of Health, Ontario

Dr. Middleton will be glad to answer questions on Public Health matters through this column. Address him at Spadina House, Spadina Crescent, Toronto.

From the very dawn of history vinegar, etc., but even attributed to the gods and kings of humanity long ago. The spontaneous generation theory of the causes of disease and contagion, and the germ theory of life were one of the earliest theories and was mentioned as far back as a punishment for sin. Down back as 610 B.C., by Aristotle and the ages men have sought the others. It stimulated the early writers of the philosopher's stone and to discussions as to how life originated. The treatment of theories were pure speculation. They believed in the alchemists. The supposed relation of bacteria and disease production also dates back to the beginning of the Christian era. All of these theories were pure speculation. Even as early as 1850 Rayer and others demonstrated that the bacilli found in anthrax were living organisms, and not mere carriers of the infection. But it was left to Pasteur to demonstrate fully that the bacteria were the cause of the disease, and thus to lay the real foundation of the germ theory. The true story of the birth of the germ theory disease began when in 1876, we find Pasteur making up the study of the anthrax organism.

CANADA'S FLOATING CITY

The waters of the Inside Passage on the Pacific Ocean on the British Columbia coastline is located Canada's only floating city—Simoon City. It has attained the respectable age of seventeen years; it is practically unknown to the rest of the Dominion. It is unique in many respects. Besides being Canada's only floating city, Simoon boasts of the fact that within its confines there are moving picture houses, no roads, and no police departments, and that at least its citizens pay no taxes. The formation of this novel city was the unusual occupation of its citizens. Along the British Columbia coast there are numerous mountains of which dip into the ocean are covered with thick merchant timber. As it is a difficult matter to reach these mountains, the big trees have passed them by, and the consequence the citizen of Simoon City is enabled to secure many valuable timber holdings.

When in Toronto visit the Royal Ontario Museum. The museum is a fine building on the corner of Queen and York streets. It contains a vast collection of natural history, geology, and anthropology. It is a place of interest for all ages and is well worth a visit.

COLD
IN THE HEAD?

CAUSE OF BACKACHES

Every muscle in the body needs a supply of rich, red blood in proportion to the work it does. The muscles of the back are under a heavy strain and have but little rest. When the blood is thin they lack nourishment and the result is a sensation of pain in these muscles. Many people are frightened into believing that backaches are due to kidney trouble, but the best medical authorities agree that backache is very seldom due to kidney trouble. The fact that most of the backache in a hundred has anything to do with the kidneys. The whole trouble is due to thin or impure blood, and those who are troubled with pains in the back of the neck, either frequent or occasional, should look to the condition of the blood. It will be found in most cases that Dr. Williams' Pink Pills by building up the blood and sending the starved nerves and muscles will banish the pains and make you feel better in every other way. These pills should be taken as directed. They are for your blood that to give way to unreasonable alarm about your kidneys. If you really suspect your kidneys and doctor can make a test in ten minutes that will set your fears at rest, or tell you the best.

EASY TRICKS
No. 56
Gone

Show five cards to the audience, asking a question to be his mind upon three of them without telling you which he selects. Drop the cards into a hat. Reach into the hat and extract three cards. The three selected cards are the three of hearts, the ace of spades, and the ace of clubs. This is not one of the three selected cards but no one will observe that it had not previously been played. The next card to be taken out is the deuce of hearts. That of course, leaves the hat empty.

GUARD THE BABY AGAINST COLDS
To guard the baby against colds nothing can equal Baby's Own Tablets. The Tablets are a mild laxative that will keep the little one's stomach and bowels working regularly. It is a recognized fact that when the stomach and bowels are in good order that colds will not exist; that the health of the little one will be good and that he will thrive and be happy. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

With The BOY SCOUTS
Former Leader Welcomes Scouts.
Mr. J. R. Smith was Scoutmaster of the 12th Ottawa Troop for a number of years, but is now living on a farm near Sittsville. The farm contains a good camping ground for Scouts and Mr. Smith has put up a special sign to tell them that they are welcome.

What Breed of Poultry is the Best for Small Town Lots?
By S. W. Knife.
This is a point long discussed and without getting anywhere. Personally, I believe every fancier believes the breed he keeps is the best. A bird starting into poultry looking around to see what sort of birds he might keep. He took a fancy to the Wyandottes, but his neighbor spoke so highly of Leghorns, he decided he would toss a coin to see what breed it would be. He tossed it five times before it turned up for Wyandottes.

For Invalids
Delicious, strengthening food and dozens of other fat and nourishing dishes may be quickly prepared with OXO.

His Hearing Restored.
The invisible ear drum invented by Dr. Leonard, which is a miniature of the natural ear drum, is being used by hundreds of people in New York City. Dr. Leonard invented this drum to relieve himself of deafness and head noises, and it does this so successfully that he can tell he is a deaf man. It is effective when deafness is caused by catarrh or by perforated or wholly destroyed natural drum. A request for information to A. O. Leonard, Suite 427, 115 Fifth Avenue, New York City, will be given promptly.
