VETERINARY SPECIMENS

Submitting for Bacteriological Examination.

How to Prepare for Testing When Animals Die Suspected of Such Dangerous Disease as Rabies, Anthrax, Blackleg, Contagious Abortion, Etc.

(Contributed by Ontario Department of Agriculture, Toronto.)

The amount of care and judgment necessary in selecting and forwarding specimens for bacteriological examination is not generally realized...

It is necessary to collect the specimens in a careful manner, using instruments that have been sterilized by boiling...

Price Changes of Dr. Chase's Medicines

By increasing the contents of the boxes the cost to the user remains unchanged

THIS revision of prices affects only three of Dr. Chase's Medicines - the Kidney-Liver Pills, Nerve Food and Catarrh Powder.

In spite of the constantly increasing cost of doing business ever since Dr. Chase's Medicines were placed on the market many years ago there has been no change in the prices of these three medicines to the consumer.

It has now become absolutely necessary to make some changes, but this has been worked out in such a way that the cost to the user remains the same.

The slogan for Dr. Chase's Kidney-Liver Pills will therefore remain "One pill a dose - One cent a dose," for while the price will be 35 cents instead of 25,

the contents of the box will be 25 instead of 25 pills as formerly.

The same applies to Dr. Chase's Nerve Food, which will sell at 60 cents a box instead of 50 cents, since the contents of the box is now 60 instead of 50.

With the exception of Dr. Chase's Catarrh Powder, which is now 35 cents a box, the prices of Dr. Chase's other medicines remain unchanged.

Dr. Chase's Almanac has now been mailed and distributed to practically every home in Canada, 1,550,000 copies, if you did not receive yours kindly advise us and we shall mail you a copy free of charge.
