"Child's Eyelids Inflamed Stuck Together and Bleed"

Mr. E. P. Kimball, Estabrook, Ala., writes: "Our little girl from birth was troubled with inflamed eyelids and in spite of several remedies, grew worse until at the age of sixteen months her eyes could not be opened after sleep without bleeding, a very disagreeable condition, the child's grandmothers were consulted by mail, and both recommended a little sample box of Dr. Chase's Ointment. These were used as directed, and lasted until we could obtain further supply from Edmonton. Improvement was very marked from the first application. The very discharge was clear removed and did not reappear. Inflammation subsided and has not returned."
