Conditions in Georgia

We had a little chat the other day with Mr. David Squire, who recently returned from Hawkinsville, Georgia, where he was employed as a lumber miller. Several different kinds of lumber are grown there, chief among them being oak, white ash, gum of different varieties, cypress, hickory, and long and short leaved pine. The trees when cut are trimmed of the limbs and are then skidded with power skidding machines having cables 1000 feet in length. They are assembled on the higher land and cut into lengths of 16 feet before being taken to the mills. Oaks and cypress are the chief grain crops and seedling takes place in December. Cutting will take place in a few weeks. Sugar cane planting is done in April. Hogs are the chief product of the community, with a few cattle. There are some cattle snakes and Mr. Squire has a rather as a memento of his residence in Georgia.

Dr. D. B. Neely, ex-M.P.

From one of the St. Petersburg, Florida, papers we clip the following regarding the death of Dr. D. B. Neely, which took place there on Sunday, May 3rd, 1925.

Dr. David Bradley Neely, formerly of Toronto, Canada, a former member of the Canadian Parliament, and a well known specialist in diseases of the ear, nose and throat, died Sunday morning at 12:45 o'clock at his home 902 Twenty-second avenue north after a brief illness.

Dr. Neely had been at his office in the Hall building to within one week ago, although he had been ill for some months, suffering from complications of a disease of the liver. Three St. Petersburg physicians rendered all the aid possible to the specialist, but his death came suddenly Sunday despite their efforts.

The specialist had been in St. Petersburg for nearly two years, coming from Toronto, Canada, where he was a graduate of the University of Toronto. He was also a post-graduate student for some time in Grey's Inn Road Hospital, London, and served in the World War from 1915 to 1918 as a member of the Canadian army medical corps, being a member of the Canadian Parliament at Ottawa at the same time. He was one of the leaders of the Liberal party in Parliament, serving from 1909 to 1917.

Before that time he had served in the legislature of Saskatchewan from 1905 to 1908, being elected by acclamation as a member of the first legislature of that province. He practiced as a physician in Humboldt, Kansas.

Dr. Neely had identified himself closely with activities in St. Petersburg. He was a member of the St. Petersburg Medical society and also of the Kiwanis club. He was a member and officer of the Presbyterian church, being one of the charter members of the Westminster Presbyterian church and first clerk of the board of elders. When the building committee of the church was created recently, he was made chairman.

Funeral services were held at the Edinport Funeral home Tuesday afternoon at 3 o'clock. Dr. G. W. Beine officiating.

Dr. Neely leaves a wife and one son, Wallace, who is a junior in the St. Petersburg high school.

Does Price Determine Value?

The keen buyer and well dressed man knows that price only but many other features determine the value of a suit.

That's why so many men come to us for their suits. They know that they obtain extra patterns—a cut no city tailor can give up without the fabric has served long overtime.

Are these things worth having long after the price has been forgotten? This season we offer you a greater selection than ever before and this week we are featuring a special range of Men's and Young Men's suits at \$50 and \$27.50
