Across Canada and Back

The wonder trip that the coming summer will be conducted by Dean Laird of Macdonald College, to Victoria, B.C., and back.

Inspired by the success of the trip to Victoria last year on the occasion of the Teachers' Federation meeting at that point, and filled with patriotic motives for everyone to see their own country, the Dean has arranged for a special train of sleeping cars to leave Toronto on July 20, visiting Port Arthur, Fort William, Winnipeg, Regina, Moose Jaw, Calgary, Banff, Lake Louise, Vancouver, thence steamer to Victoria.

Returning, the trip will be via the Okanagan Valley, Nelson, the Kootenay Lakes, Windermere Bungalow camp, from which place the party will be motored to Banff, 104 miles over the newly completed Banff-Windermere Highway, the most charming and awe inspiring trip it is possible to conceive, with stops at Radium Hot Springs, Vermillion River, and Storm Mountain Bungalow Camps—another day at Banff, then Edmonton, Saskatoon, Devil's Gap Bungalow Camp, near Kenora on the Lake Of The Woods, steamer from Fort William to Port McNicoll, thence rail to Toronto, where the trip will terminate on August 10.

Everything is included at the price of $325.00 from Toronto; transportation, sleeping cars, accomodation in hotels and bungalow camps, meals in diners, hotels, and on steamers, sightseeing tours at points visited, and all gratuities.

While appealing primarily to teachers, the tour is open to everyone desiring to go.

All will be welcome.

Fares from other points than Toronto will be named and descriptive illustrated booklet sent on application to Dean Laird, Macdonald College, P. O. Que.

Graham and family and Mr. and Mrs. D. Graham and family from here attended the wedding.

The pastor, Rev. F. N. Bowes of Markdale occupied the pulpit in the Ebenezer church on Sunday afternoon and preached his first sermon at this appointment as a minister of the United Church of Canada. His sermon dealt with the things we should forget in the old, and the things we should carry with us into the new church, and was listened to with rapt attention by the large congregation.

A disastrous fire took place in this community early Friday morning, June 12th, when Mr. Adam Hyslop's fine brick house in the valley near the power house was burned to the ground together with all the contents. The fire started in the kitchen at the rear of the house before John and Marion, who were the only members of the family at home at the time, were awake, and had gained such headway when discovered that nothing could be saved except a few articles of clothing. All the furniture, etc., including a piano were destroyed in the flames. Quite a number of neighbors and employees of the power house gathered on the scene and helped protect the barn and out buildings, which were endangered for a time. The loss is a serious one to Mr. and Mrs. Hyslop and family and they have the sincere sympathy of their neighbors and friends.

The bountiful showers and warm weather of the month of June have made wonderful growth in this locality and prospects are bright for a bumper harvest.

Garden Party June 19th

In the last issue there was a mistake as to the date of postponement of the garden party. It should have read June 19th, instead of July. We are sorry this mistake occurred. Remember the date, Friday, June 19th, (this week). Everybody come and have an enjoyable time and help to make the event a success. The autograph quilt will be auctioned off.

Residence Burned

The fine brick veneered residence of Mr. Adam Hislop in the valley, near the Power House, was devoured by fire about 5:30 Thursday morning. The cause of the fire is a mystery. The only occupants in the house at the time were John and his sister. The other members of the family were at the Fishermen's Club House of which Mr. Hislop is manager. Miss Hislop on awakening found the house a prey to flames. She hurriedly aroused her brother and the two escaped from the house. Nothing of any account was saved. The loss is great as there was very little insurance on the building and contents. We thank God that their lives were spared. Many are the friends and neighbors who will extend a helping hand if Mr. Hislop rebuilds again. We extend our sympathy to them in their loss.

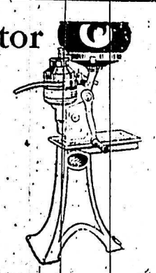
Every Libella Separator Is Officially Tested



THOUGH made in the greatest cream separator factory in the world making separators exclusively, every Libella Separator is placed on the market that has not been tested in a government creamery and awarded a certificate.

In addition, agricultural colleges in Canada, Ontario and all over Europe have similarly tested the Libella to exhaustive tests. They have shown it to be the most efficient separator on the market.

Thoroughness in Skimming

It leaves only 3 1/5 ounces of butter fat in 1,000 lbs. of skimmed milk, a record in skimming unapproached by any other machine.

Simple, though highly advanced in its construction, it gives ease in operation and cleaning, and half a century of satisfactory use.
