

A Friendly Bank

HE was a farmer of sound character and ability. So when he asked for a loan to further develop his farm it was readily granted.

With the loan he bought more stock, machinery and seed. His farm prospered and his profits swelled. After selling his crop he paid back the loan and had a handsome surplus.

This surplus he wisely deposited in the Bank of Toronto. Wise still, he sought the expert investment counsel of his Bank of Toronto manager.

That was years ago. He is now retired, comfortable and prosperous. But he still comes in for advice on banking and investment matters. For he regards the Bank of Toronto as a good friend—a friend that gives service and that is unfailing in its welcome. A friend that has earned the trust and cordial good-will of thousands of farmers like himself.

If you, as a merchant, could be constantly meeting new prospective customers, you could keep your business healthy and flourishing without advertising.

But the main reason why ADVERTISING is a sound, paying investment is because it does this missionary work for you, constantly, efficiently, at low cost and leaves you free to render personal service and plan further business development.

Look into the value to you of advertising in The Standard from a business-building point of view. Talk it over with us.
