able and earnest exposition of Bible truths and his splendid work in and out of the pulpit.

Dr. Caldwell's two years service here is considered the best the church has ever experienced financially.

The personage and grounds have been greatly improved, the church contributions have increased greatly and the services have never been better attended.

People who seldom came to church before are regular attendants. We know that Dr. Caldwell's sermons here will be remembered long after he is gone.

We are sorry that our beloved pastor and wife are leaving us, but we are comforted by the thought that others will be helped by their ministry of love.

No one will be more welcome to our meetings at any time than Dr. and Mrs. Caldwell.

On behalf of the Young People's Society, H. T. Love, President.

A. Presley, Secretary.

The Unfair Deal Canadian Farmers are Getting

Back in 1921 we sold the United States agricultural products to the value of \$146,539,883. After the Fordney U.S. Tariff of 1922 went into effect in the United States we sold them only \$51,337,733 worth.

By raising their tariffs the United States farmers have put about \$100,000,000 per annum more into their pockets and the Canadian farmers have lost it.

What is the lesson to the Canadian farmer?

On what terms is the Canadian farmer competing with the farmer of the United States? They are terms that not only forbid the sale of his products in the United States but compel him at the same time to witness United States farm products replacing his own in the home markets of Canada. Let us examine some of these terms

Table comparing products and their prices for entrance into Canada vs. the United States. Includes Potatoes, Eggs, Butter, Cheese, Cattle, Hay, Wheat Flour, Wheat, Corn, Raw Wool.

The United States raised their tariff, in order to protect the American Farmers, and the purchasing of foreign farm products was reduced. It was, therefore, to the American Farmer's benefit.

And we prove it. In the next column we list a few Canadian products imported by the United States under the 1921 tariff and under the raised tariff of September 21st, 1922. These figures are quoted from the "Commercial Intelligence Journal" published by Ottawa Government (26th September, 1925, page 324).

Canada will be flooded with farm products from other countries at these low rates, but Canadian farm products are shut out of other countries by high tariffs. Meanwhile half a million Canadians have moved to the United States because of the tariff reductions that have closed up or slowed down hundreds of factories. That is, half a million buyers of Canadian farm products have been lost. The farmers are hit twice.

And now a great reduction has been made by the Canadian-Australian Treaty which just went into effect on October 1st, 1925. Under this treaty Australian and New Zealand farm products will enter Canada at the following tariffs:
