MAKING NEW ROCKS FROM OLD

Nature's Great Chemist, the Sea, Turns the Trick.

Granite Island is an example of... On July 10, 18... in the Mediterranean at a point between the coast of Africa, there lay a low, long island... By August 15 the island was smaller... Then it began to disappear... below the surface of the sea.

Secrets of Science

The atmosphere, as we have seen, causes the rocks to crack and decay. Much of the resulting debris is washed by the rain into the rivers. The rivers themselves are continually wearing away the rocks. The material which they wear loose and the material which the rain washes into them, is carried along by the rivers to the sea.

The Food of Sponges.

Many surprising facts are encountered by the person who becomes interested in the study of animal life. One of the hardest things to believe is that the sponge you use daily was once an animal, and not a vegetable growth of the ocean. Sponges live their own lives, and eat their food as other animals do.

The separate existence of a sponge begins with the breaking away from the parent of a tiny particle. The latter, after being whirled about for a time by the tides and currents, eventually attaches itself to a piece of rock, and from that home it seeks its own livelihood.

The food of infant sponges consists of soft cells, which contain a form of nourishment. Later, as the young grows, it requires something more solid, and this is brought by the currents, which sweep into a bag, half mouth, half stomach, minute particles of the new food.

A SPRING TONIC

You Can Lay the Foundation of Good Health Now by Building Up Your Blood and Strengthening Your Nerves Through the Use of Dr. Williams' Pink Pills.

The good old fashion of taking a tonic in the Springtime, like most of the customs of our grandparents, is based upon sound common sense and good medical practice. Winter is always a trying time for those who are not in rugged health. Many men, women and children who through the winter of "reserve strength" they have stored up during the sunny summer months, and grow increasingly pale and languid as the spring days approach.

Winter Clouds.

Winter clouds differ from summer clouds in shape, texture, radiance and an indescribable more which all who have tried to describe them have been trying to compel the secret. It ever, studies me. They seem to appear to be woven on a different loom and are cheaper fabrics, and their sunsets less often in the splendors. They are desperately thin and apparently incapable of forming other than certain effects. They refuse to be fleecy, they are not competent for that reason, variety which is the necessity of mystery, of clouds of summer and spring. A winter sky usually is printed in these gauze-woven

Rich and rare were the gems the wore. And a bright gold ring on her wand she bore. But, oh! her beauty was far beyond Her sparkling gems and snow-white wand.

"Lady! Next thou not tear to stray, So lone and lovely, through this bleak way?"

"Are Erin's sons so good or so cold, As not to be tempted by woman or gold?"

"Sir Knight, I feel not the least alarm. No son of Erin will offer me harm; For though they love woman and gold, yet they love Erin more."

On side went, and her maiden smile In safety lighted her and her green isle; And best for ever as she who relied Upon Erin's honor and Erin's pride!

Quiet Days.

What pleasure have great princes More duty to their country Than that of the relief, And fortune's fate not fearing Sing sweet in summer morning?

Their dollars, plain and right, Are void of all deceit; They never know how plentiful It is to know and wait. On favorite presidential Whose pride is vain and sumptuous.

Oh, happy who thus liveth, Not caring much for gold; With clothing which sufficeth To keep him from the cold! Though poor and plain his diet May merry he, and quiet.

The Man Himself.

Complex adjustments in statecraft and the mutations of world politics prove to the statesman, and again that the processes of social evolution, though deliberate, are not impersonal. Again and again there is a crisis which demands a man and a leader of men.

Divine Commands.

We are no pilots; let us trust our bark, Attention alert, not made with hands. That feels a spake lurching through the dark, And leaps upon the course it undertakes, From shores unknown to unimagined strands.

HEALTHY CHILDREN ALWAYS SLEEP WELL

If Baby Does Not Enjoy Refreshing Sleep He is Far From Well.

The healthy child sleeps well and during his waking hours is never restless but always happy and laughing. It is only the sickly child that is cross and peevish. Mothers, if your child does not sleep well, if they are fretful and cry a great deal, give them Baby's Own Tablets and they will soon be well and happy again.

There are two facts about goldfish. One is that fish have no eyelids and generally live where there is plenty of shade protection, therefore when they are put in transparent globes, which admit light from all directions, they cannot cover their eyes or find a shady place in which to hide, and they suffer.

CUTICURA HEALS ITCHY ECZEMA

Caused Much Suffering. Nose Swollen and Sore. Face Disfigured.

ECZEMA broke out in red spots and itches on my cheeks and nose. The eruptions grew larger and my nose was swollen and sore. It itched and burned so much that I kept me awake, and scratching caused eruptions. My face was disfigured and caused much suffering. I read an advertisement for Cuticura Soap and Ointment and sent for a free sample. I purchased more and after three months' treatment my face was healed. (Signed) Mrs. Corinne Desjardins, Albertville, Sask.

Daily use of Cuticura Soap, with touches of Cuticura Ointment now and then, keeps the skin fresh, smooth and clear.

RUN-DOWN AFTER BIRTH OF BABY

Ottawa Woman Made Strong by Taking Lydia E. Pinkham's Vegetable Compound

Ottawa, Ontario.—"I was terribly run-down after the birth of my third baby. I had awful bearing-down pains and was afraid I had serious trouble. I was tired all the time and had no appetite. My sister-in-law is taking Lydia E. Pinkham's Vegetable Compound and cannot praise it too highly and asked me to try it. I have had splendid results and feel fine all the time now. Any woman who needs a thorough pick-me-up soon learns from me what to take." Mrs. Eliza Paquin, 320 Cumberland Street, Ottawa, Ontario.

Terrible Backache

Hamilton, Ont.—"After my baby was born I had terrible backache and headaches. I could not do my work and felt tired from the first minute I got up. But worst of all was the pain in my sides when I moved about. I had to sit on the floor for a whole week afterwards. I could keep my house in order, but many things had to go on alone at the time because of my ailments. I was told by a neighbor to take Lydia E. Pinkham's Vegetable Compound, as she said it would build me up. It was relieved before I had taken the first few bottles and I have not had any trouble like it since." Mrs. T. Markle, 116 Ferguson Avenue South, Hamilton, Ontario.
